Losing The Blanket Australia And The End Of Britains Empire:

Losing The Blanket David Goldsworthy, 1998-09-01 When Britain's sprawling empire wound down with unexpected speed in the 1960s Australia lost a comforting security blanket. We had to struggle to re-establish and protect ourselves in a volatile and threatening world. Australia's interests in empire had taken many forms: strategic, economic, cultural, and psychological. Indeed, Australia had used British experience as a template for its own mini-imperialism in Papua and New Guinea, for example. The most important connections between Britain's imperial interests and Australia's regional ones were in Southeast Asia, but they extended to the Indian and Pacific oceans and even to Africa. The effects of the end of empire upon Australia's external relations have tended to be eclipsed by historians' emphasis on Cold War imperatives and Australia's consequent alignment with the United States. *Losing the Blanket* rights the balance by showing how Australia's foreign policy during the 1950s and 1960s was affected by the end of empire. Under the thirty-year rule, vital primary sources in both Britain and Australia are now accessible. They reveal the effects of post-imperialism upon Australian policies in key areas such as defence planning in Southeast Asia, the politics of the Commonwealth, European union, Australia's own colonial policy, and relations with Britain itself. David Goldsworthy's account is both clear and thorough. As first Menzies and then Holt looked to protect Australia's interests, the groundwork was laid for our involvement in Vietnam and for the pattern of Australia's foreign relations today.

Losing the Blanket David Goldsworthy, 2002 An account of British decolonization and its aftermath. It discusses its implications for Australian policies in the key areas of defence in Southeast Asia, the politics of the Commonwealth, the European Union, Australia's own colonial policy, and the bilateral relationship with Britain itself.

Australia's Pursuit of an Independent Foreign Policy under the Whitlam Labor Government Changwei Chen, 2023-08-11 Examining a series of episodes in Australia's foreign relations under Whitlam, the author pays attention to a broad range of hitherto insufficiently researched domestic and international issues in Australia's foreign relations of the early 1970s. The election of the Whitlam-led Labor Government in December 1972 ushered in fresh ideas and audacious initiatives in Australia's foreign policy. Whitlam's approach was shaped by a vision of taking Australia forward to its rightful and independent place in the future of the Asia-Pacific region. They range from immigration policy and the abolition of appeals from Australian Courts to the Privy Council to such major international issues as the Anglo-American base in Diego Garcia, French nuclear testing in the Pacific, and the Five Power Agreement with respect to Malaysia and Singapore. He demonstrates how the pursuit of foreign policy independence repeatedly placed the Whitlam Government in a position wedged in between Australia's traditional allies and the Third World, and how it navigated Australia's national interests on a series of dilemma situations involving conflicting strategic interests between Australia and its traditional allies and those between major powers and the non-aligned countries. The analysis presented in this book contributes to not only historical literature on the subject but also the understanding of how a middle power like Australia can navigate intensifying great

power rivalry Essential reading for scholars of Australian foreign policy as well as being an invaluable case study of middle power diplomacy in the Asia Pacific region

Power Of Speech James Curran, 2014-07-18 The subjects of this book are five fascinating prime ministers Gough Whitlam Malcolm Fraser Bob Hawke Paul Keating and John Howard and how they view Australia Until the 1960s our nation believed itself to be British Then during a decade of momentous change this concept of our national identity collapsed It was buried by the forces of cultural and political renewal by disturbing and exciting developments in Asia and by a dawning recognition that the global era of colonial power was over The result was a crisis of national meaning reflected in public debates about multiculturalism Australia s relationships with its Asian neighbours the dispossession of indigenous Australians and the nation s involvement in war In recent years our political leaders have played a conspicuous role in the controversy In *The Power of Speech* James Curran explores the end of the idea of British Australia and how successive prime ministers have attempted to assert personal and often competing visions of Australian nationalism in its place This highly original study of prime ministerial rhetoric exposes the sources of our most powerful leaders beliefs about Australia

Australia and Africa Nikola Pijović, 2019-01-28 This book offers analysis of Australia s engagement with Africa as well as the country s rather unique status as a new actor and emerging country in Africa With its empirical originality and comparative contribution the book fills a gap in both the study of Africa s global engagement with emerging countries and in connection with Australia s largely unknown engagement with African states Australia has presented itself as Africa s friend from the south without any colonial baggage and is interested in a long term partnership for trade and development In this context Australia is only one of many new players seeking more intensive engagement with Africa since the end of the Cold War At its core the book argues that because of its largely unacknowledged flawed historical engagement with Africa as well as the political partisanship driving its fickle and volatile contemporary engagement with the continent Australia suffers from an inability to assess its strategic and long term interests i e it doesn t know what it wants in or from Africa This makes Australia a rather unique emerging player in Africa while other new actors engagement with Africa is generally strategic and driven to a large extent by a desire to secure resources and counter the influence of geopolitical rivals Australia s efforts with regard to Africa are more episodic and not about acquiring resources or countering its rivals Hence while immigration globalization trade terrorism and climate change continue to bring Africa and Australia closer together Australia s failure to understand its own interests continues to hamper its engagement with Africa

Reel Men Chelsea Barnett, 2019-02-19 Set against the shifting social and political backdrop of a nation throwing off the shackles of one war yet faced with the instability of the new world order *Reel Men* probes the concept of 1950s masculinity itself asking what it meant to be an Australian man at this time Offering a compelling exploration of the Australian fifties the book challenges the common belief that the fifties was a dead era for Australian filmmaking *Reel Men* engages with fourteen Australian feature films made and released between 1949 and 1962 and examines the multiple masculinities in circulation at this time

Dealing with beloved Australian films like *Jedda* 1955 *Smiley* 1956 and *The Shiralee* 1957 and national icons of the silver screen including Chips Rafferty Charles Bud Tingwell and Peter Finch *Reel Men* delves into our cultural past to dismantle powerful assumptions about film the fifties and masculinity in Australia

Religious Education and the Anglo-World Stephen Jackson, 2020-03-31 Focusing on Australia Canada and New Zealand *Religious Education and the Anglo World* historiographically examines the relationship between empire and religious education The analysis centres on three formative eras in the development of religious education in each case firstly the foundational moments of publicly funded education in the mid to late nineteenth centuries when policy makers created largely Protestant systems of religious education and frequently denied Roman Catholics funding for private education Secondly the period from 1880 1960 during which campaigns to strengthen religious education emerged in each context Finally the era of decolonisation from the 1960s through the 1980s when publicly funded religious education was challenged by the loss of Britishness as a central ideal and Roman Catholics found unprecedented success in achieving state aid in many cases By bringing these disparate national literatures into conversation with one another Stephen Jackson calls for a greater transnational approach to the study of religious education in the Anglo World

A History of the English-Speaking Peoples since 1900 Andrew Roberts, 2010-12-16 Prize winning British historian tells the story of the English speaking peoples in the 20th century Winston Churchill's *History of the English Speaking Peoples* ended in 1900 Andrew Roberts Wolfson History prizewinner has been inspired by Churchill's example to write the story of the 20th century Churchill wrote Every nation or group of nations has its own tale to tell Knowledge of the trials and struggles is necessary to all who would comprehend the problems perils challenges and opportunities which confront us today It is in the hope that contemplation of the trials and tribulations of our forefathers may not only fortify the English speaking peoples of today but also play some small part in uniting the whole world that I present this account As the greatest of all the trials and tribulations of the English speaking peoples took place in the twentieth century Roberts book covers the four world historical struggles in which the English speaking peoples have been engaged the wars against German Nationalism Axis Fascism Soviet Communism and now the War against Terror But just as Churchill did in his four volumes Roberts also deals with the cultural social and political history of the English global diaspora

The Legacy of J. William Fulbright Alessandro Brogi, Giles Scott-Smith, David J. Snyder, 2019-08-13 This insightful collection of essays details the political life of one of the most prominent and gifted American statesmen of the twentieth century From his early training in international law to his five terms in the US Senate J William Fulbright 1905 1995 had a profound influence on US foreign policy and his vision for mutual understanding shaped the extraordinary exchange program bearing his name As a senator for Arkansas for thirty years and the longest serving chair of the Senate Foreign Relations Committee Fulbright was one of the most influential figures of United States politics His criticism of US involvement in Vietnam exemplified his belief in the effective management of international norms by international

organizations including the United Nations which was the subject of his first bill in Congress Yet alongside his commitments to liberal internationalism and multilateral governance Fulbright was a southern politician who embraced the interests of the region's conservative white population This juxtaposition of biased and broad minded objectives shows a divide at the center of Fulbright's vision which still has consequences for America's global policies today This multidimensional volume covers Fulbright's development as a national and global voice on foreign relations as he wrestled with the political controversies of the US South during the civil rights movement worked with and challenged executive power and shaped the Fulbright program for educational exchange

The Anglosphere Srdjan Vucetic, 2011-02-28 Focuses on Australia Britain Canada New Zealand and the United States

1971 Srinath Raghavan, 2013-11-12 The war of 1971 that created Bangladesh was the most significant geopolitical event in the Indian subcontinent since partition in 1947 It tilted the balance of power between India and Pakistan steeply in favor of India Srinath Raghavan contends that the crisis and its cast of characters can be understood only in a wider international context

Exhibiting War Jennifer Wellington, 2017-09-21 What does it mean to display war Examining a range of different exhibitions in Britain Canada and Australia Jennifer Wellington reveals complex imperial dynamics in the ways these countries developed diverging understandings of the First World War despite their cultural political and institutional similarities While in Britain a popular narrative developed of the conflict as a tragic rupture with the past Australia and Canada came to see it as engendering national birth through violence Narratives of the war's meaning were deliberately constructed by individuals and groups pursuing specific agendas to win the war and immortalise it at the same time Drawing on a range of documentary and visual material this book analyses how narratives of mass violence changed over time Emphasising the contingent development of national and imperial war museums it illuminates the way they acted as spaces in which official academic and popular representations of this violent past intersect

Confrontation, Strategy and War Termination Christopher Tuck, 2016-05-23 At the heart of this book is the problem of war termination Britain won an almost unbroken string of tactical military victories during an undeclared war against the Republic of Indonesia in the 1960s yet it proved difficult to translate this into strategic success Using conflict termination theories this book argues that British strategy during Confrontation was both exemplary

and flawed both of which need not be mutually exclusive The British experience in Indonesia represents an illuminating case study of the difficulties associated with strategy and the successful termination of conflicts The value of this book lies in two areas as a contribution to the literature on British counter insurgency operations and as a contribution to the debates on the problems of war termination in the context of strategic thought *Commonwealth History in the Twenty-First Century* Saul Dubow, Richard Drayton, 2020-07-05 This edited collection draws together new historical writing on the Commonwealth It features the work of younger scholars as well as established academics and highlights themes such as law and sovereignty republicanism and the monarchy French engagement with the Commonwealth the anti apartheid struggle race and immigration memory and commemoration and banking The volume focusses less on the Commonwealth as an institution than on the relevance and meaning of the Commonwealth to its member countries and peoples By adopting oblique de centred approaches to Commonwealth history unusual or overlooked connections are brought to the fore while old problems are looked at from fresh vantage points be this turning points like the relationship between old and new Commonwealth members from 1949 or the distinctive roles of major figures like Jawaharlal Nehru or Jan Smuts The volume thereby aims to refresh interest in Commonwealth history as a field of comparative international history *Flag and Nation* Elizabeth Kwan, 2006-05-01 Ambiguity has marked the use of national flags in Australia since Federation The gaps in the documented history of the transition from Union Jack to Australian national flag has left Australians dependent on the views of groups arguing for and against flag change Flag and Nation explains Australians changing relationship to their national flags since 1901 and the perceptions of national identity they represent *Australian Republicanism* Mark McKenna, Wayne Hudson, 2013-05-09 We Love the Queen We honour the Queen We serve the Queen R G Menzies We must be ourselves Patrick White This collection of readings is designed to transform the way Australians understand republicanism The editors Mark McKenna and Wayne Hudson have harvested a wealth of previously neglected historical sources to produce a fascinating collection of original documents that grapple with the issue of Australian republicanism In the vein of Manning Clark s Select Documents in Australian History this collection offers an inspiring and salient sample of Australian viewpoints from the famous to the obscure the official to the flagrantly informal the rhetorical to the ridiculous McKenna and Hudson argue with wit and conviction that the republic has a place in Australia s future but only if it is a republic founded on a vision of inclusion This is the first principle of creating a sense of ownership and belonging a republic about which people might begin to care *Unholy Fury* James Curran, 2015-05-01 In the early 1970s two titans of Australian and American politics Prime Minister Gough Whitlam and President Richard Nixon clashed over the end of the Vietnam war and the shape of a new Asia A relationship that had endured the heights of the Cold War veered dangerously off course and seemed headed for destruction Never before or since has the alliance sunk to such depths Drawing on sensational new evidence from once top secret American and Australian records this book portrays the bitter clash between these two leaders and their competing

visions of the world As the Nixon White House went increasingly on the defensive in early 1973 reeling from the lethal drip of the Watergate revelations the first Labor prime minister in twenty three years looked to redefine ANZUS and Australia's global stance It was a heady brew and not one the Americans were used to The result was a fractured alliance and an American president enraged seemingly hell bent on tearing apart the fabric of a treaty that had become the first principle of Australian foreign policy

Border Security Peter Chambers, 2017-09-27 What kind of a world is one in which border security is understood as necessary How is this transforming the shores of politics And why does this seem to preclude a horizon of political justice for those affected Border Security responds to these questions through an interdisciplinary exploration of border security politics and justice Drawing empirically on the now notorious case of Australia the book pursues a range of theoretical perspectives including Foucault's work on power the systems theory of Niklas Luhmann and the cybernetic ethics of Heinz Von Foerster in order to formulate an account of the thoroughly constructed and political nature of border security Through this detailed and critical engagement the book's analysis elicits a political alternative to border security from within its own logic thus signaling at least the beginnings of a way out of the cost cruelty and devaluation of life that characterises the enforced reality of the world of border security

Decolonisation and the Pacific Tracey Banivanua Mar, 2016-04-26 This book charts the previously untold story of decolonisation in the oceanic world of the Pacific Australia and New Zealand presenting it both as an indigenous and an international phenomenon Tracey Banivanua Mar reveals how the inherent limits of decolonisation were laid bare by the historical peculiarities of colonialism in the region and demonstrates the way imperial powers conceived of decolonisation as a new form of imperialism She shows how Indigenous peoples responded to these limits by developing rich intellectual political and cultural networks transcending colonial and national borders with localised traditions of protest and dialogue connected to the global ferment of the twentieth century The individual stories told here shed new light on the forces that shaped twentieth century global history and reconfigure the history of decolonisation presenting it not as an historic event but as a fragile contingent and ongoing process continuing well into the postcolonial era
