Loss Of Sexual Innocence:

Loss of Sexual Innocence Mike Figgis, 2012-10-04 Mike Figgis's *Loss of Sexual Innocence* is a fascinating fusion of stories, dreams, images, and music. The film is a meditation on the process of growing up and the inevitable loss of innocence this entails. The central image is the expulsion of Adam and Eve from the Garden of Eden, and as in all of Mike Figgis's work, the focus is upon the passionate and often troublesome nature of relationships between men and women. The film was shot in Italy, Tunisia, and Figgis's native Newcastle on the lowest of imaginable budgets. In an introduction to the screenplay, Figgis describes how he brought off this remarkable task.

The Loss of Sexual Innocence Mike Figgis, *The Loss of Sexual Innocence* is a free-wheeling rumination on eroticism and the myth of Eden from the writer-director of *Leaving Las Vegas*.

Global Scriptwriting Ken Dancyger, 2013-06-26 *Global Scriptwriting* offers a look at an exciting new phase in screen storytelling as writers and directors from all over the world infuse traditional forms with their own cultural values to create stories that have an international appeal and suggest a universality among readers, viewers, and listeners. A unique blend of screenwriting technique and film studies, *Global Scriptwriting* discusses screen stories as they have evolved through the years, focusing first on the basics of scriptwriting, then going on to afford a more sophisticated look at script via different models of scriptwriting: the Hollywood model, the independent model, the national model, and various alternative models. It examines the internationalization of storytelling and illustrates how particular innovations have helped national screen stories to international success. This book is the first to incorporate the basics of the classical form with the innovative edge of the last decade, as well as the culture-specific changes that have taken place outside of North America. It offers readers a view of the enriched repertoire available to writers resulting from the introduction of cultural perspectives into traditional story forms. Specific topics examined include the ascent of voice, the search for new forms, the struggle between style and content, and the centrality of megagenre.

Dark Room Pankaj Butalia, 2013-08-29 The book is the much needed beginning of a conversation outside of specialized academic circles on child sexuality in India The middle class view throughout the world is that the pre adolescent stage is an age of innocence one that precedes the discovery of sex Why we insist on believing this in the face of so much evidence to the contrary is a mystery The book reminds us of the centrality of sex in our lives including when we are very young It is a complex area for adults to navigate On the one hand parents need to give their children space and not inhibit the natural progression children need to make in the development of their sexuality On the other they need to be extremely careful that their offspring do not transcend boundaries of what could be called age appropriate behaviour Given the taboo that surrounds sex it is not surprising that happy memories of childhood and child sexuality are intertwined with those of sexual abuse fear and trauma It is difficult if not impossible to talk about one without coming across the other
