Lost Childhood And The Language Of Exile:

Lost Childhood and the Language of Exile Judit Szekacs-Weisz, Ivan Ward, 2022-04-21 The book contains reflections from Eva Almassy Jacqueline Amati Mehler Pina Antinucci Antal Bokay Julia Borossa John Clare Ferenc Ero s Susan Haxell Eva Hoffman Kathleen Kelley Laine Leon Kleimberg W Gordon Lawrence Judit Me sza ros Gershon J Molad George Pick Rachel Rosenblum Tamara Stajner Popovic Riccardo Steiner Judit Szekacs Weisz Judith E Vida Shula Wilson and Ali Zarbafi Lost Childhood and the Language of Exile invites the reader to enter a territory which is not only multilingual but multidimensional defined and shaped by history politics economy and sociocultural transformations The contributions give important insights on the psychodynamic processes involved in working with and being part of exiled and immigrant populations The majority of the stories take as their base the upheaval caused by the Second World War but their stories are still sadly relevant today with the ongoing plight of refugees the world over By presenting their experiences the contributors provide a vital record of what it means to leave your homeland behind to make a new life in a new land and to live and work in a second tongue The aim was and is to provide stimulus for further thinking and research Two contributors Ali Zarbafi and Shula Wilson took up that challenge and we were delighted to publish their contribution to this debate in their edited work **Mother Tongue and Other Tongues** Narratives in Multilingual Psychotherapy 2021 Narratives of Place, Belonging and Language Máiréad Nic Craith, 2012-02-10 Examining identity in relation to globalization and migration this book uses narratives and memoirs from contemporary authors who have lived in between two or more languages It explores the human desire to find one s own place in new cultural contexts and looks at the role of language in shaping a sense of belonging in society Enduring Migration through the Life Cycle Eileen McGinley, Arturo Varchevker, 2018-04-17 In this book the authors share an interest in and experience of migration in relation to stressed or traumatised patients whom they have treated or through their areas of expertise through the developmental life cycle **Mother Tongue and Other Tongues** Shula Wilson, Ali Zarbafi, 2021-07-28 We are living in times where the issue of identity and difference has taken on a more defensive hue The tide is turning towards an inward looking nostalgia of sameness based on fear rather than on understanding The experience of hearing another language the way it is spoken and being faced with the image of the other is now more complex imbued with projections of powerlessness fear terrorism and survival The issue of identity appears to have become even more complex All cultures are concerned with how we speak and communicate as this represents identity history and home Communication is also essential for survival both emotionally and socially The speaking person is an individual but also part of a culture or cultures with dense collective and individual shapes The issue of identity that feeling of belonging is essential full of possibility and at times very uncomfortable as it touches the tensions between who we are and who we are becoming This sits next to more complex historical experiences and memories of languages and cultures being changed or lost or banished due to the colonial imperial and regional moves of powerful nations in search of conquest and

economic gain This collection addresses how language affects therapists and their patients and how it can be understood culturally and therapeutically Drawn from talks given at the Multi lingual Psychotherapy Centre MLPC the contributors not only bring a therapeutic slant but also their other roles as academics writers and artists These reflections memories and stories give a glimpse of the multilingual journey the MLPC has been exploring for over twenty years and leave much food for thought The book contains contributions from Cedric Bouet Willaumez Giselle China Patricia Gorrington Natsu Hattori Monique Morris Esti Rimmer and Edna Sovin

The Émigré Analysts and American Psychoanalysis Adrienne E. Harris, 2023-05-31 This book explores the impact of migration including its causes upon the key ideas and directions of psychoanalytic theory and practice from the twentieth century until today Having originated with a conference called migr Analysts developed through the Sandor Ferenczi Center at the New School for Social Research this

collection encompasses a wide array of often personal insights into the historical effects of exile and migration upon psychoanalysis. Divided into three sections, the book first attends to the political crises that affected the exile of psychoanalysts after the Second World War, tracing their journeys from Eastern Europe to the United States; secondly, the rise of antisemitism and the impact of the Holocaust upon these analysts is closely examined; and finally, this book attends to the protection and safety of analysts forced into exile in our contemporary moment with reference to the work being done by existing national and international psychoanalytic institutions. As an engaging and thoroughly detailed account of the influence of exile upon American psychoanalysis, this book will be of as much interest to scholars of history and twentieth-century culture as to psychoanalysts and psychoanalytic psychotherapists in training and in practice.

Language, Symbolization, and Psychosis Giovanna Ambrosio, Simona Argentieri, Jorge Canestri, 2018-04-24 In this book, the authors compare different psychoanalytic thinking and models, all of a rigorously Freudian stamp, on three concepts of great theoretical and clinical importance: language, symbolization, and psychosis.

Therapy with Displaced and Highly Mobile Individuals Anastasia Piatakhina Giré, 2023-12-11 This book provides therapists with an understanding of displacement-related issues to help them better serve potential clients such as emigrants, expats, migrants, digital nomads—all those who have left their original home country behind and moved to a different culture and place. With the spread of communication technologies, psychotherapists are expanding their practice to the online setting and into the unfamiliar waters of transcultural counselling with highly mobile and displaced individuals. Building on her research, the author brings up new concepts in therapy practice with emigrants, calling for a displacement-focused transcultural approach for a modern psychotherapy practice, blended or online, in a world shaped by ubiquitous displacement. Giré's own experience of relocations and multicultural families has helped her develop a personal approach to universal topics of the therapeutic endeavour, such as displacement, multilingualism, and shame. Meeting displaced individuals' mental health needs is a priority for the mental health community. *Therapy with Displaced and Highly Mobile Individuals* will be of interest to all therapists working online with this client group and for all those interested in psychotherapy, therapists or not, who want to learn about the psychological issues created by displacement.

Peter Pan, the Lost Child Kathleen Kelley-Laine, 2022-10-27 Originally published in 1992 in French as *Peter Pan ou l'Enfant Triste*, the book was translated into English in 1997 and released as *Peter Pan: The Story of Lost Childhood*. This new English language version is translated by author Kathleen Kelley-Laine and enriched with the addition of an epilogue from the author plus a new foreword from renowned psychoanalyst Jonathan Sklar. Peter Pan, young, innocent, and heartless, with his baby tooth smile, is one of the most popular heroes of fiction of both children and adults for over one hundred years. The author explores this mythical figure both as a story as well as a metaphor, revealing the hidden traumas and psychological conundrums of this Lost Child. The evocative and lyrical style takes the reader through multiple levels of understanding of this seemingly simple fairy tale into the tragic story of its author. J. M.

Barrie and of other Peter Pans who never grow up In *Peter Pan the Lost Child* psychoanalyst Kathleen Kelley Laine explores Peter Pan's light hearted escapades and uncovers a sad lost child behind the baby tooth smile She uses the story as a framework for the stories of her patients to show how their own Peter Pan manifests giving a unique insight into how childhood events can block growth into adulthood She also investigates the sinister side of author James Mathew Barrie as it relates to his Peter Pan tale and addresses her own family history and its links to *The Boy Who Would Not Grow Up* Little by little as the book progresses Kelley Laine's lost childhood emerges as a child who fled with her family from war torn Hungary after the Second World War to the promised land of Canada These three interwoven storylines take the reader on a literary journey to uncover secrets and hidden emotions Kelley Laine makes clear that the child who cannot grow up the Peter Pan raging inside the adult needs to be heard and understood Only then can that lost child have a chance to find the road to maturity

Growing up with risk Thom, Betsy, Sales, Rosemary, 2007-05-16 *Growing up with risk* provides a critical analysis of ways in which risk assessment and management now a pervasive element of contemporary policy and professional practice are defined and applied in policy theory and practice in relation to children and young people Drawing on conceptual frameworks from across the social sciences the book examines contrasting perspectives on risk that occur in different policy domains and professional and lay discourses discussing the dilemmas of response that arise from these sometimes contested viewpoints from playground safety to risks associated with youthful substance use The contributors address issues of gender ethnicity and socio economic status which impact on definitions and responses to risk and consider related concepts such as risk resilience care control and dependence autonomy Written in an accessible manner each chapter provides a specific policy case study to illustrate the cross cutting themes and issues that will make it a key text for researchers and students It also offers policy makers and practitioners a valuable insight into the complexities of balancing responsibility for protecting the young with the benefits of risk taking and the need to allow young people to experiment

Globalization and Children Natalie Hevener Kaufman, Irene Rizzini, 2007-05-08 ALLISON JAMES Globalization seems to be the word on everyone's lips with politicians as much as academics extolling its benefits as well as its contradictions For some globalization means in practice that whether in Bangkok or Boston in London or Rio as travelers from wealthy countries they can be sure to find the beer the pizzas and the jeans that they can at home they can be both at home and away simultaneously For others though globalization has had rather different often less beneficial consequences In their everyday lives people have come to find themselves tied in albeit in often unseen ways into larger economic and political systems over which they have no control yet these systems cause radical changes often for the worse rather than the better in the pattern of their daily lives And it is those who have least voice whose lives are usually affected the most In this book attention is drawn systematically really for the first time to a consideration of how processes of globalization variously impact upon the lives of children Such an approach is not only most welcome in the field of childhood studies but also long overdue It will at last enable us to begin to

contextualize in a broader framework some of the many issues to do with children's rights and participation which have long been discussed as separate and discrete issues within childhood studies

Jungian Analysts Working Across Cultures Catherine Crowther, Jan Wiener, 2021-06-01 Jungian Analysts Working Across Cultures From Tradition to Innovation gives a fascinating account of the wide variety of experiences of Jungian analysts working in different cultures across the world They describe and reflect on experiences of both offering and receiving training within these cross cultural partnerships This is a book not only about training but is also an enlightening cultural commentary for our times The powerful bi directionality of cultural influence and discovery is apparent in different ways in every chapter prompting a re appraisal of concepts essential to the core values of Jungian practice which show an outdated adherence to culture bound attitudes The publication of this book is a timely reminder that when Jungian analysis as we know it is floundering in some Western countries new projects in countries seeking to develop an analytic culture give hope for sustaining our professional practice

Diversity, Discipline and Devotion in Psychoanalytic Psychotherapy Gertrud Mander,2018-04-17 This book is a selection of papers written over 25 years of practising psychoanalytic psychotherapy of training and supervising psychotherapists psychodynamic counsellors and supervisors It reflects a preoccupation with the growth and diversification

of counselling and psychotherapy with the imperatives of training supervision and regulation and with the significant changes in the profession due to the invention of brief time limited intermittent and recurrent psychotherapy An overall theme is the conviction that what patients and therapists share is vulnerability and that the therapist is a wounded healer whose reparative tendency informs his professional choice his therapeutic empathy and his capacity to bear the rigours of therapeutic work Thus an unconscious connection between the helper and the helped is the driving force of every therapeutic relationship for better and for worse Its responsible management requires thorough training ongoing supervision and a firm frame in order to contain the powerful forces operating when two strangers meet for the purpose of therapy
