American Anti-Pastoral Thomas Gustafson,2024-06-14 One of the best known novels taking place in New Jersey Philip Roth s 1997 American Pastoral uses the fictional hamlet of Old Rimrock NJ as a microcosm for a nation in crisis during the cultural upheavals of the 1960s 70s Critics have called Old Rimrock mythic but it is based on a very real place the small Morris county town of Brookside New Jersey American Anti Pastoral reads the events in Roth s novel in relation to the history of Brookside and its region While Roth s protagonist Seymour Swede Levov initially views Old Rimrock as an idyllic paradise within the Garden State its real

world counterpart has a more complex past in its origins as a small industrial village as well as a site for the politics of exclusionary zoning and a 1960s anti war protest at its celebrated 4th of July parade Literary historian and Brookside native Thomas Gustafson casts Roth's canonical novel in a fresh light as he studies both Old Rimrock in comparison to Brookside and the novel in relationship to NJ literature making a case for it as the Great New Jersey novel For Roth fans and history buffs alike American Anti Pastoral peels back the myths about the bucolic Garden State countryside to reveal deep fissures along the fault lines of race and religion in American democracy

the Fall of 1970 at the start of eighth grade Peter Selgin fell in love with the young teacher who d arrived from Oxford wearing Frye boots with long blond hair and a passion for his students that was as intense as it was rebellious The son of an emotionally remote inventor Peter was also a twin competing for the attention and affection of his parents He had a burning need to feel special The new teacher supplied that need Together they spent hours in the teacher s carriage house discussing books playing chess drinking tea and wrestling They were inseparable until the teacher resigned from his job and left Over the next ten years Peter and the teacher corresponded copiously and met occasionally their last meeting ending in disaster Only after the teacher died did Peter learn that he d done all he could to evade his past identifying himself first as an orphaned Rhodes Scholar and later as a Native American As for Peter s father the genius with the English accent who

invented the first dollar bill changing machine he was the child of Italian Jews something else Peter discovered only after his death Paul Selgin and the teacher were both self inventors creatures of their own mythology inscrutable men whose denials and deceptions betrayed the trust of the boy who looked up to them The Inventors is the story of a man's search for his father and a boy's passionate relationship with his teacher of how these two enigmas shaped that boy's journey into manhood filling him with a sense of his own unique destiny It is a story of promises kept and broken as the author uncovers the truth about both men and about himself For like them like all of us Peter Selgin too is his own inventor

The Social Lives of Books

Edward Frederick Finn, 2011 This project explores how changing models of literary production are blurring or erasing the divisions between authors critics and readers Millions of cultural consumers are participating in previously closed literary conversations and expressing forms of mass distinction through their purchases and reviews of books These traces of popular reading choices constitute a fresh perspective on elusive audience reactions to literature and reveal evolving networks of conversation Employing network analysis methodologies and distant reading of book reviews recommendations and other digital traces of cultural distinction I develop a new model for literary culture in America today Through readings of the fiction and reception of Thomas Pynchon Toni Morrison David Foster Wallace and Junot Diaz this model outlines the fundamental requirements for contemporary literary fame My introduction outlines methodological tools I developed and situates them in the critical traditions of literary reception cultural sociology and media theory before describing the digital ecologies that have emerged around literature online and their value Chapter 1 explores the nature of literary fame through a case study of Thomas Pynchon whose carefully guarded anonymity and ironic distance from capitalism are reflected in the networks his readers construct around his long challenging books In stark contrast Toni Morrison the subject of Chapter 2 has succeeded critically and commercially tirelessly seeking out readers to form literary communities around her writing most prominently through her collaboration with Oprah's Book Club Chapter 3 considers David Foster Wallace and Junot Diaz and sets out a model for contemporary literary culture a reading society that demands new forms of authorial reflexivity to mirror the collaborative iterative nature of digital literary conversations I conclude with a brief consideration of the exciting prospects and challenges for fiction in a world that reads more than ever but is growing disaffected with the material realities of literary production
