Myths Emblems Clues:

Myths, Emblems, Clues Carlo Ginzburg, 1990 **Myths, Emblems, Clues** Carlo Ginzburg, 1990 Estos estudios del autor exploran los símbolos imgenes y creencias en la historia europea A través del juicio de una mujer acusada de brujería en Medina en 1519 va descubriendo las cosas en las que la religión oficial modela la piedad popular hacia caminos más ortodoxos *Wittgenstein's Secret Diaries* Dinda L. Gorfée, 2020-02-06 Ludwig Wittgenstein's works encompass a huge number of published philosophical manuscripts notebooks lectures remarks and responses as well as his unpublished private diaries The diaries were written mainly in coded script to interpolate his writings on the philosophy of language with autobiographic passages but were previously unknown to the public and impossible to decode without learning the coding system This book deciphers the cryptography of the diary entries to examine what Wittgenstein's personal idiom reveals about his public and private identities Employing the semiotic doctrine of Charles S Peirce Dinda L Gorfée argues that the style of writing reflects the variety of Wittgenstein's emotional moods which were profoundly affected by his medical symptoms Bringing Peirce's reasoning of abduction together with induction and deduction the book investigates how the semiosis of the emotional energetic and logical interpretations of signs and objects reveal Wittgenstein's psychological states in the coded diaries *Methods of Murder* Elena M. Past, 2012-03-13 The first extended analysis of the relationship between Italian criminology and crime fiction in English *Methods of Murder* examines works by major authors both popular such as Gianrico Carofiglio and canonical such as Carlo Emilio Gadda Many scholars have argued that detective fiction did not exist in Italy until 1929 and that the genre which was considered largely Anglo Saxon was irrelevant on the Italian peninsula By contrast Past traces the roots of the twentieth century literature and cinema of crime to two much earlier diverging interpretations of the criminal the bodiless figure of Cesare Beccaria's Enlightenment era *On Crimes and Punishments* and the biological offender of Cesare Lombroso's positivist *Criminal Man* Through her examinations of these texts Past demonstrates the links between literary philosophical and scientific constructions of the criminal and provides the basis for an important reconceptualization of Italian crime fiction *Eyewitnessing* Peter Burke, 2006-01-27 *Eyewitnessing* evaluates the place of images among other kinds of historical evidence **Speaking into the Air** John Durham Peters, 2012-04-26 Communication plays a vital and unique role in society often blamed for problems when it breaks down and at the same time heralded as a panacea for human relations A sweeping history of communication *Speaking Into the Air* illuminates our expectations of communication as both historically specific and a fundamental knot in Western thought This is a most interesting and thought provoking book Peters maintains that communication is ultimately unthinkable apart from the task of establishing a kingdom in which people can live together peacefully Given our condition as mortals communication remains not primarily a problem of technology but of power ethics and art Antony Anderson *New Scientist* Guaranteed to alter your thinking about communication Original erudite and beautifully written this book is a gem Kirkus Reviews Peters writes to

reclaim the notion of authenticity in a media saturated world It s this ultimate concern that renders his book a brave colorful exploration of the hydra headed problems presented by a rapid fire popular culture Publishers Weekly What we have here is a failure to communicate book Funny thing is it communicates beautifully Speaking Into the Air delivers what superb serious books always do hours of intellectual challenge as one absorbs the gradually unfolding vision of an erudite creative author Carlin Romano Philadelphia Inquirer

The Gendered Object Pat Kirkham,1996 EU security governance assesses the effectiveness of the EU as a security actor The book has two distinct features Firstly it is the first systematic study of the different economic political and military instruments employed by the EU in the performance of four different security functions The book demonstrates that the EU has emerged as an important security actor not only in the non traditional areas of security but increasingly as an entity with force projection capabilities Secondly the book represents an important step towards redressing conceptual gaps in the study of security governance particularly as it pertains to the European Union The book links the challenges of governing Europe s security to the changing nature of the state the evolutionary expansion of the security agenda and the growing obsolescence of the traditional forms and concepts of security cooperation

Art and Its Histories Steve Edwards,Professor and Head of Art History Steve Edwards,1999-01-01 Published with six accompanying books in the series Art and its Histories

The Arabian Nights Robert Irwin,2003-10-24 This literary companion guides the reader into the labyrinth of storytelling within The Arabian Nights The Arabian Nights has become a synonym for the fabulous and the exotic Every child is familiar with the stories of Aladdin Sinbad the Sailor and Ali Baba Yet very few people even specialists in oriental literature have a clear idea of when the book was written or what exactly it is Far from being a batch of stories for children The Arabian Nights contains hundreds of narratives of all kinds fables epics erotica debates fairy tales political allegories mystical anecdotes and comedies It is a labyrinth of stories within stories Widely held in contempt in the Middle East for its frivolity and occasional obscenity the work has nevertheless had a major influence on European and American culture to the extent that the story collection must be considered as a key work in Western literature A full understanding of the writings of Voltaire Dickens Melville Proust and Borges or indeed of the origins of science fiction is impossible without some familiarity with the stories of the Nights This guide traces the development of the stories from prehistoric India and Pharaonic Egypt to modern times and explores the history of translation and imitation Above all the book uses the stories as a guide to the social history and counter culture of the medieval Near East and the world of the storyteller the snake charmer the burglar the sorcerer the drug addict the treasure hunter and the adulterer

The Mangle of Practice Andrew Pickering,2010-12-15 This ambitious book by one of the most original and provocative thinkers in science studies offers a sophisticated new understanding of the nature of scientific mathematical and engineering practice and the production of scientific knowledge Andrew Pickering offers a new approach to the unpredictable nature of change in science taking into account the extraordinary number of factors social technological conceptual and natural that interact to

affect the creation of scientific knowledge In his view machines instruments facts theories conceptual and mathematical structures disciplined practices and human beings are in constantly shifting relationships with one another mangled together in unforeseeable ways that are shaped by the contingencies of culture time and place Situating material as well as human agency in their larger cultural context Pickering uses case studies to show how this picture of the open changeable nature of science advances a richer understanding of scientific work both past and present Pickering examines in detail the building of the bubble chamber in particle physics the search for the quark the construction of the quaternion system in mathematics and the introduction of computer controlled machine tools in industry He uses these examples to address the most basic elements of scientific practice the development of experimental apparatus the production of facts the development of theory and the interrelation of machines and social organization

Explorations in Communication and History

Barbie Zelizer, 2008-10-27 When and how do communication and history impact each other How do disciplinary perspectives affect what we know Explorations in Communication and History addresses the link between what we know and how we know it by tracking the intersection of communication and history Asking how each discipline has enhanced and hindered our understanding of the other the book considers what happens to what we know when disciplines engage Through a critical collection of essays written by top scholars in the field the book addresses the engagement of communication and history as it applies to the study of technology audiences and journalism A comprehensive introduction by Barbie Zelizer contextualises these debates and makes a case for the importance of disciplinary engagement for teaching as well as research in media and cultural studies and each section has a brief introduction to contextualise the essays and highlight the issues they raise making this an invaluable collection for students and scholars alike

Framing Formalism Richard Woodfield, 2013-10-23

Alois Riegl 1858 1905 was one of the founding fathers of modern formalist criticism As a member of the Vienna School of Art Historians he shared their range of interests in the decorative arts art in transition conservation and monuments This collection of critical essays examines various facets of Riegl's work and opens with a new translation of Hans Sedlmayr's famous and notorious *Die Quintessenz der Lehren Riegls* Included is Julius von Schlosser's assessment of Riegl's contribution to the Vienna School of Art Historians as well as essays by a team of international scholars This book offers a re-engagement with the ideas of one of the most important and neglected art historians of the 20th century

State of Fear

Joshua Barker, 2024-08-02 In *State of Fear* Joshua Barker reckons with how fear and violence are produced and reproduced through everyday practices of rule and control Examining the ethnographic and historical genealogies of Indonesian policing Barker focuses on the city of Bandung which is permeated by anxieties about security in spite of the fact that it's a relatively

safe city according to the data Drawing from his fieldwork there during the latter years of the authoritarian New Order regime Barker traces the complex relationship between the state and vigilante groups like neighborhood watch patrols and street gangs Through interviews with police officers vigilantes and street level toughs he uncovers a struggle between two visions of social control that continues to animate policing in Indonesia the modern bureaucratic approach favored by the state and a territorial approach that divides the city into fiefdoms overseen by charismatic individuals of authority Synthesizing insights from in depth ethnographic historical and theoretical work Barker reveals how authoritarianism can take root not just from the top down but also from the bottom up

French Divorce Fiction from the Revolution to the

First World War Nicholas White,2017-12-02 One of the primary social changes ushered in by the French Revolution was the legalization of divorce in 1792 Diluted by the Civil Code and suppressed by the Restoration divorce was only fully established in France by the Loi Naquet of 1884 French Divorce Fiction from the Revolution to the First World War tracks the part played by novels in this conflict between the secular rights of individual citizens and the sanctity of the traditional family Inspired by the sociologists Zygmunt Bauman and Anthony Giddens White s account culminates in the first sustained analysis of the role of divorce in the refashioning of life narratives during the early decades of the Third Republic As such it redefines the relationships between canonical authors such as Maupassant and Colette rediscovered women novelists like Marcelle Tinayre and Camille Pert and long neglected patriarchs such as Paul Bourget and Anatole France Nicholas White teaches French in the University of Cambridge where he is a Fellow of Emmanuel College

Reading Architecture and Culture

Adam Sharr,2012 Architecture displays the values involved in its inhabitation construction procurement and design It traces the thinking of the individuals who have participated in it their relationships and their involvement in the cultures where they lived and worked In this way buildings their details and the documents used to make them can be read closely for cultural insights Introducing the idea of reading buildings as cultural artefacts this book presents perceptive readings by eminent writers which demonstrate the power of this approach The chapters show that close readings of architecture and its materials can test commonplace assumptions help architects to appreciate the contexts in which they work and indicate ways to think more astutely about design The readings collected in this innovative and accessible book address buildings specifications and photographs They range in time from the fifteenth century examining the only surviving drawing made by Leon Battista Alberti to the recent past projects completed by Norman Foster in 2006 and Herzog and De Meuron in 2008 They range geographically from France to Puerto Rico to Kazakhstan and they range in fame from buildings celebrated by critics to house extensions and motorway service areas Taken together these essays demonstrate important research methods which yield powerful insights for designers critics and historians and lessons for students

Histories of State

Surveillance in Europe and Beyond Kees Boersma,Rosamunde van Brakel,Chiara Fonio,Pieter Wagenaar,2014-05-09 Does the development of new technology cause an increase in the level of surveillance used by central government Is the growth in

surveillance merely a reaction to terrorism or a solution to crime control Are there more structural roots for the increase in surveillance This book attempts to find some answers to these questions by examining how governments have increased their use of surveillance technology Focusing on a range of countries in Europe and beyond this book demonstrates how government penetration into private citizens lives was developing years before the war on terrorism It also aims to answer the question of whether central government actually has penetrated ever deeper into the lives of private citizens in various countries inside and outside of Europe and whether citizens are protected against it or have fought back The main focus of the volume is on how surveillance has shaped the relationship between the citizen and the State The contributors and editors of the volume look into the question of how central government came to intrude on citizens private lives from two perspectives identification card systems and surveillance in post authoritarian societies Their aim is to present the heterogeneity of the European historical surveillance past in the hope that this might shed light on current trends Essential reading for criminologists sociologists and political scientists alike this book provides some much needed historical context on a highly topical issue

Media History and the Archive Craig Robertson, 2014-01-02 By the time readers encounter academic history in the form of books and articles all that tends to be left of an author's direct experience with archives is pages of endnotes Whether intentionally or not archives have until recently been largely thought of as discrete collections of documents perhaps not neutral but rarely considered to be historical actors This book brings together top media scholars to rethink the role of the archive and historical record from the perspective of writing media history Exploring the concept of the archive forces a reconsideration of what counts as historical evidence In this analysis the archive becomes a concept that allows the authors to think about the acts of classifying collecting storing and interpreting the sources used in historical research The essays included in this volume from Susan Douglas Lisa Gitelman John Nerone Jeremy Packer Paddy Scannell Lynn Spigel and Jonathan Sterne focus on both the theoretical and practical ways in which the archive has affected how media is thought about as an object for historical analysis This book was published as a special issue of The Communication Review

Wittgenstein in Translation Dinda L. Gorfée, 2012-04-26 Apart from the Tractatus Wittgenstein did not write whole manuscripts but composed short fragments The current volume reveals the depths of Wittgenstein's soul searching writings his new philosophy by concentrating on ordinary language and using few technical terms In so doing Wittgenstein is finally given the accolade of a neglected figure in the history of semiotics The volume applies Wittgenstein's methodological tools to the study of multilingual dialogue in philosophy linguistics theology anthropology and literature Translation shows how the translator's signatures are in conflict with personal or stylistic choices in linguistic form but also in cultural content This volume undertakes the impossible task of uncovering the reasoning of Wittgenstein's translated texts in order to construct rather than paraphrase the ideal of a terminological coherence
