Historic Fort York, 1793-1993 Carl Benn, 1993-06-30 Fearing an American invasion of Upper Canada John Graves Simcoe had Fort York built in 1793 as an emergency defensive measure That act became the first step in the founding of modern Toronto Twenty years later the Fort was the scene of the bloody Battle of York in which the famous American explorer Zebulon Pike died leading U S forces against the Fort s outnumbered Canadian British and Aboriginal defenders The Americans won this battle their first major victory in the War of 1812 and torched the province s public buildings during a six day occupation A year later British forces retaliated by capturing Washington and burning its government buildings including the White House Rebuilt in time to drive off another American attack in 1814 Fort York was maintained through the 1880s to guard against internal unrest and potential American annexation Even after its defences became obsolete Fort York continued to serve as barracks and training grounds for the Toronto garrison until the 1930s when it reopened as a historic site museum In this book Carl Benn explores the dramatic roles Fort York played in the frontier war of the 1790s the birth of Toronto the War of 1812 the Rebellion of 1837 and the defence of Canada during the American Civil War and describes how Toronto s most important heritage site came to be preserved as a tangible link to Canada s turbulent military past *Final Report of the Truth and Reconciliation Commission of Canada, Volume One: Summary* The Truth and Reconciliation Commission of Canada, 2015-07-27 This is the Final Report of Canada s Truth and Reconciliation Commission and its six year investigation of the residential school system for Aboriginal youth and the legacy of these schools This report the summary volume includes the history of residential schools the legacy of that school system and the full text of the Commission s 94 recommendations for action to address that legacy This report lays bare a part of Canada s history that until recently was little known to most non Aboriginal Canadians The Commission discusses the logic of the colonization of Canada s territories and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples Using brief excerpts from the powerful testimony heard from Survivors this report documents the residential school system which forced children into institutions where they were forbidden to speak their language required to discard their clothing in favour of institutional wear given inadequate food housed in inferior and fire prone buildings required to work when they should have been studying and subjected to emotional psychological and often physical abuse In this setting cruel punishments were all too common as was sexual abuse More than 30 000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools but the legacy of this experience is ongoing today This report explains the links to high rates of Aboriginal children being taken from their families abuse of drugs and alcohol and high rates of suicide The report documents the drastic decline in the presence of Aboriginal languages even as Survivors and others work to maintain their distinctive cultures traditions and governance The report offers 94 calls to action on the part of governments churches public institutions and non Aboriginal Canadians as a path to meaningful reconciliation of Canada today with

Aboriginal citizens Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities the United Nations declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians

Empire, Colony, Genocide A. Dirk Moses, 2008-06-01 In 1944 Raphael Lemkin coined the term genocide to describe a foreign occupation that destroyed or permanently crippled a subject population In this tradition Empire Colony Genocide embeds genocide in the epochal geopolitical transformations of the past 500 years the European colonization of the globe the rise and fall of the continental land empires violent decolonization and the formation of nation states It thereby challenges the customary focus on twentieth century mass crimes and shows that genocide and ethnic cleansing have been intrinsic to imperial expansion The complexity of the colonial encounter is reflected in the contrast between the insurgent identities and genocidal strategies that subaltern peoples sometimes developed to expel the occupiers and those local elites and creole groups that the occupiers sought to co-opt Presenting case studies on the Americas Australia Africa Asia the Ottoman Empire Imperial Russia and the Nazi Third Reich leading authorities examine the colonial dimension of the genocide concept as well as the imperial systems and discourses that enabled conquest Empire Colony Genocide is a world history of genocide that highlights what Lemkin called the role of the human group and its tribulations

Learning to Love the Bomb Sean M. Maloney, 2007 In Learning to Love the Bomb Sean M Maloney explores the controversial subject of Canada's acquisition of nuclear weapons during the Cold War Based on newly declassified Canadian and U S documents it examines policy strategy operational and technical matters and weaves these seemingly disparate elements into a compelling story that finally unlocks several Cold War mysteries For example while U S military forces during the 1962 Cuban Missile Crisis were focused on the Caribbean Sea and the southeastern United States Canadian forces assumed responsibility for defending the northern United States with aircraft armed with nuclear depth charges flying patrols and guarding against missile attack by Soviet submarines This defensive strategy was a closely guarded secret because it conflicted with Canada's image as a peacekeeper and therefore a more passive member of NATO than its ally to the south It is revealed here for the first time The place of nuclear weapons in Canadian history has until now been a highly secret and misunderstood field subject to rumor rhetoric
