Europe Andrew Cunningham,2017-03-02 The Enlightenment period here understood as covering the years 1650 to 1789 is usually considered to be a period when religion was obliged to give way to rationality With respect to medicine this means that the religious elements in the treatment and interpretation of diseases to all intents and purposes disappeared However there are growing indications in recent scholarship that this may well be an overstatement Indeed it appears that religion retained many of its customary relations with medicine This volume explores how far and the ways in which this was still the case It looks at this multi faceted relationship with respect to among others medical care and death in hospitals religious vocation and nursing chemical medicine and religion the clergy and medicine the continued significance of popular medicine faith healing dissection and religion and religious dissent and medical innovation Within these significant areas the volume provides a European perspective which will make it possible to draw comparisons and determine differences *Arabic Literature for the Classroom* Mushin al-Musawi,2017-04-21 This book presents theoretical and methodical cultural concerns in teaching literatures from non American cultures along with issues of cross cultural communication cultural competency and translation Covering topics such as the 1001 Nights Maqamat Arabic poetry women s writing classical poetics issues of gender race and class North African concerns language acquisition through literature Arab spring writing women s correspondence issues connected with the so called nahdah revival movement in the 19th century and many others the book provides perspectives and topics that serve in both the planning of new courses and accommodation to already existing programs **Video Source Book** Gale Group,1999-10-28 A guide to programs currently available on video in the areas of movies entertainment general interest education sports recreation fine arts health science business industry children juvenile how to instruction **Ferruccio Busoni and His Legacy** Erinn E. Knyt,2017-05-22 An analysis of the composer s unconventional teaching style and philosophy his relationship with his students and his effect on twentieth century music Many students of renowned composer conductor and teacher Ferruccio Busoni had illustrious careers of their own yet the extent to which their mentor s influence helped shape their success was largely unexplored until now Through rich archival research including correspondence essays and scores Erinn E Knyt presents an evocative account of Busoni s idiosyncratic pedagogy focused on aesthetic ideals rather than methodologies or techniques and how this teaching style and philosophy can be seen and heard in the Nordic inspired musical works of Sibelius the unusual soundscapes of Var se the polystylistic meldings of music and technology in Louis Gruenberg s radio operas and film scores the electronic music of Otto Luening and the experimentalism of Philip Jarnach Equal parts critical biography and interpretive analysis Knyt s work compels a reconsideration of Busoni s legacy and puts forth the notion of a Busoni School as one that shaped the trajectory of twentieth century music Erinn Knyt s Ferruccio Busoni and His Legacy is a most welcome addition to the literature on Busoni as a fine example of research based on primary sources Bach **Brilliant Bodies** Timothy McCall,2022-02-21 Italian court culture of the fifteenth century was a golden age gleaming with dazzling princes splendid surfaces and luminous images that separated

the lords from the literally lackluster masses In *Brilliant Bodies* Timothy McCall describes and interprets the Renaissance glitterati gorgeously dressed and adorned men to reveal how charismatic bodies in the palazzo and the piazza seduced audiences and materialized power Fifteenth century Italian courts put men on display Here men were peacocks attracting attention with scintillating brocades shining armor sparkling jewels and glistening swords spurs and sequins McCall s investigation of these spectacular masculinities challenges widely held assumptions about appropriate male display and adornment Interpreting surviving objects visual representations in a wide range of media and a diverse array of primary textual sources McCall argues that Renaissance masculine dress was a political phenomenon that fashioned power and patriarchal authority *Brilliant Bodies* describes and recontextualizes the technical construction and cultural meanings of attire casts a critical eye toward the complex and entangled relations between bodies and clothing and explores the negotiations among makers wearers and materials This groundbreaking study of masculinity makes an important intervention in the history of male ornamentation and fashion by examining a period when the public display of splendid men not only supported but also constituted authority It will appeal to specialists in art history and fashion history as well as scholars working at the intersections of gender and politics in quattrocento Italy

Liquor Store Theatre Maya Stovall, 2020-10-09 For six years Maya Stovall staged *Liquor Store Theatre* a conceptual art and anthropology video project included in the Whitney Biennial in 2017 in which she danced near the liquor stores in her Detroit neighborhood as a way to start conversations with her neighbors In this book of the same name Stovall uses the project as a point of departure for understanding everyday life in Detroit and the possibilities for ethnographic research art and knowledge creation Her conversations with her neighbors which touch on everything from economics aesthetics and sex to the political and economic racism that undergirds Detroit s history bring to light rarely acknowledged experiences of longtime Detroiters In these exchanges Stovall enacts an innovative form of ethnographic engagement that offers new modes of integrating the social sciences with the arts in ways that exceed what either approach can achieve alone
