Nafta On Second Thought A Plural Evaluation:

NAFTA on Second Thoughts David R. Dávila-Villiers, 1998 In this book scholars from throughout North America analyze the North American integration process taking place under NAFTA While NAFTA was originally conceived as a trade agreement only the contributors argue there are many other important issues raised by the agreement that are not being adequately addressed including drug trafficking endangered species trafficking labor mobility and energy The book also includes discussions of cultural issues such as education Quebec's cultural uniqueness and California's Proposition 187

NAFTA Stories Ann E. Kingsolver, 2001 Ann Kingsolver presents stories people have told about NAFTA young people and old urban and rural with differing political perspectives occupations and other markers of identity that demonstrate their expectations and imaginations of the sweeping trade agreement NAFTA Kingsolver contends both before and after its passage became a catch all in public discourse for tensions related to neoliberal policies and to economic and cultural processes of globalization The storytellers in her book from Mexico Kentucky and California imagined the meaning and possible effects of regional integration on topics ranging from agriculture to the stereotyping of workers to national sovereignty and identity NAFTA became invested with possibilities far beyond the scope of its literal provisions Kingsolver analyzes the metaphorical meanings attributed to NAFTA whether a giant truck in your rear view mirror in Ralph Nader's words or a panacea for what they tell us about the changing relationship between national governments and their publics She finds that rather than strengthening national authority the passage of NAFTA led to intense public questioning and deep political division

Holding the Line Ian Townsend Gault, Heather Nora Nicol, 2005 This volume contains contributions from twenty four scholars concerning the significance and implications of the world's borderlands in economic political and socio cultural contexts Together these essays explore the changing role of borders in a global world Are borders increasingly irrelevant under conditions of globalization or can a case be made to demonstrate their continuing importance at various levels of spatial activity Situating itself within a growing border literature *Holding the Line* argues that contemporary borders facilitate parallel processes of globalization and localization of political activity As such the essays adopt a holistic approach to understanding the impact of boundaries on both society and space They demonstrate that any attempt to create a methodological and conceptual framework for the understanding of boundaries must be concerned with the process of bounding rather than simply the means through which the physical lines of separation are delimited and demarcated This approach renders the notion of a borderless world highly problematic because the latter ignores the important and ongoing relationship between the functional role of borders in the bounding process and the symbolic role of borders as imagined social political and economic constructions embedded within a geographical text The changing characteristics of political boundaries during an era of globalization has become a great focus of interdisciplinary study and this book will appeal to scholars of political geography border studies and international relations

Free Trade Kathiann M. Kowalski, 2008 In the

field of social policy some topics are so complicated that they will always be subject to debate Since no clear right or wrong exists they are consigned to the gray areas of ongoing dispute Among such issues open for debate both across America and in this eye opening series are capital punishment genetic engineering gun control and global warming Others involve terrorism and chemical and biological warfare two outright evils though with highly disputable solutions Open for Debate explores the past present and future to shed light on complex high priority public policy A lucid readily accessible format offers the pros and cons of each issue with opinions from social policy experts It features sidebars of fascinating facts and easy to understand diagrams of key statistics Open for Debate introduces future public policy thinkers to both sides of twenty first century life and death concerns *Human Rights Dilemmas in the Developing World* E. Ike Udogu, Sambuddha Ghatak, 2017-12-13 This book brings the quandaries that many minority groups confront in Latin America Asia and Africa into the limelight The chapters in this volume written by experts on this subject matter examine and provide invaluable solutions to the human rights infractions in Argentina Brazil Colombia Guatemala Mexico India Indonesia Malaysia Burundi Central African Republic Congo Brazzaville Angola Cameroon Gabon Nigeria and South Africa *The Developing World* E. Ike Udogu, 2012-10-04 Nation states in the developing world have seen a renaissance in their political social and economic structures Newly industrializing countries like Brazil Mexico China and India are poised to claim the 21st century as their own But economic conditions in many nations of the developing world still leave much to be desired especially with respect to its marginalized citizens whose incomes are often less than two dollars a day Scholars continue to ask what academics political actors economic entrepreneurs and others committed to tackling the bane of underdevelopment in the developing world can do to improve the plight of these nations destitute populations The Developing World Critical Issues in Politics and Society explores the challenges presented by political cultural religious social and economic practices to the future development of these nation states The essays gathered here written by seasoned scholars with deep social political and academic roots in Africa Asia and Latin America explain how improvements in politics social arrangements and information communication technologies contribute to the effectiveness of emerging nations internal politics and their influence on world affairs Individual essays consider such key issues as how to develop more efficiently the processes of liberal democratization how to apply more uniformly the law enforcement policies of governments to all citizens in a society how the marginalization of women hampers national development how the political development of Mexico as a linguistic regional power has influenced the rest of Central America how development and protection of the environment are linked how an effective application of information communication technologies can enhance the quality of education and boost growth at all levels in a polity This work will interest scholars focused on the developing world social and public policy international politics and social and political theory *Capacity for Choice* George Hoberg, 2002-01-01 Examines North American integration and its potential future impact on Canadian life in eight areas trade the labour market the brain drain
