## **Naked Face The Essential Guide To Reading Faces:**

*The Naked Face* Lailan Young, 1994      **I Know What You're Thinking** Lillian Glass, 2008-04-21 A practical and savvy guide Gavin de Becker 1 New York Times bestselling author of *The Gift of Fear* Understanding nonverbal language is the essential skill in any profession that involves communication This book is the best primer on the topic of nonverbal communication I have ever read Geoffrey N Fieger noted trial attorney As a regular contributor to and commentator on Court TV Dr Lillian Glass has repeatedly demonstrated her exceptional professional skills of reading people in our on air coverage of several trials In this book she shares with readers these skills which could prove to be invaluable in every aspect of your life Nancy Grace Court TV A must read for everyone whether they are in business or not Applause to Dr Glass for giving the public such an important work Arnold Kopelson motion picture producer Knowing how to read people picking up on and interpreting their hidden cues is a tremendous asset for virtually anything you do In *I Know What You're Thinking* psychologist bestselling author and communications expert Dr Lillian Glass helps you develop a tremendous new set of skills that will make you more perceptive more powerful and more successful As she has done for her numerous clients Dr Glass shows you step by step how to gain the power to know the truth about people Through simple quizzes and easy to follow exercises you'll learn to improve your judgment of others and make better decisions while projecting confidence sincerity and strength With this fun down to earth guide you'll be able to look anyone in the eye with a quiet self assurance that says I Know What You're Thinking      **Face Reading** Ramesh Chandra Ramesh Chandra Shukla, 2020-09-01 What Your Face Says About You Most of us are familiar with using palm reading to determine fame fortune and future How about face Face reading also known as physiognomy is a science which predicts the future by reading the facial features of people Through face reading we can form an opinion about someone we meet for the first time Of great importance it is applicable to many occasions like blind date job interview making friends and business negotiation and can reasonably help prevent some wrong decisions The Face reveals it all 1 Your face tells about your Fate 2 Your face tells about your Career and the organs are Forehead Eyes Eyebrows Nose Mouth Ears Cheeks Chin Jaw and Philtrum central area between nose and upper lip Numerous illustrations given in the book depict the shapes and contours an organ such as forehead eyes nose mouth cheeks etc may take      *The Appearance of Character* Melissa Percival, 1999 Physiognomy the notion that there is a relationship between character and physical appearance is often dismissed as a marginal pseudoscience however *The Appearance of Character* argues that it is central to many disciplines and thought processes and that it constantly adapts itself to current patterns of thought and modes of discourse This interdisciplinary study determines the characteristics of physiognomical thought in France during the previously neglected period leading up to the reception of Johann Caspar Lavater's physiognomy in the early 1780s It establishes a corpus of physiognomical texts juxtaposing mainstream figures such as Buffon and Diderot with a host of minor writers It then considers the representation of the passions in art examining the

legacy of Charles LeBrun and revealing an aesthetics of facial representation where the passions are conceived in terms of multiplicity speed and nuance The contribution of the Comte de Caylus to the development of the *tête d'expression* is analysed as well as the innovations of Greuze in the field of expression Physiognomy in portraiture is also addressed through the work of La Tour Facial expression in painting is found to have strong parallels with contemporary acting theory and stage practice Finally The Appearance of Character addresses the notion of character outlining various predominant theories and analysing the complex relationship between character and passions In this respect the study has ramifications for theories of the self and individualism in the Enlightenment and beyond

**It's More Than Words - Reading People from the Outside In** Harry Perdue, 2006-09-06 Researchers have found that 93% of communication is nonverbal That means the words we use are only seven percent of what we are trying to say We simply haven't evolved enough yet So we must rely on the forms of communication that we used before we had language to help us better understand one another Physiognomy the scientific name for face reading is a very accurate way for you to effectively identify and analyze the features of the face that characterize personality traits It is an excellent tool for any type of persuading and understanding Face reading is based on more than 3 000 years of observation and research that there is a correlation between the features of the human face and the personality traits of its owner It's all in the face or more specifically features of the face For example a straight nose belongs to a person who makes buying decisions logically Protruding ears are a sign of someone's independence and nonconformity Low eyebrows show a tendency to interrupt In this book you will learn How to accurately read any face within 60 seconds How to tell if someone is financially conservative or a free spender by looking at his or her nose How a person thinks by simply looking at their eyebrows How to determine how much space a person needs by looking at their eyelids
