***The Wooden Spoon*** Rosalie Marino Demonte, Arthur A. Demonte, 2009-10-26 The Wooden Spoon is in essence an Italian Roots The story traces the arrival of an Italian family from Sicily to America Using actual historical events as a backdrop we follow the family from being immigrants to fully mainstream Americans without them ever losing their rich Italian culture Because the book is based on unverified stories told around the kitchen table hence the changing of surnames as well as actual events The Wooden Spoon is a compelling blend of fiction and non fiction a multi cultural experience within a semi autobiographical memoir In many respects it is also a woman's story as well as the primary characters are women The book's title is derived from the women cooking in the kitchen with an ever present wooden spoon or at the kitchen table with coffee gossiping away You'll watch Maria and Rosario's six children grow and raise their own families their eldest daughters the author's mother and grandmother youngest child the author meeting the man she'll marry at the book's conclusion Along the way the reader will bond with the family making them their own They'll share countless laughs and spill many tears as they spend 54 years with the family Another property of the book is that it embraces the beloved aspects of the Godfather type stories with very very little Mafia references It was the psychodynamics of an Italian family which sustained those stories Here the family IS the story If you liked Moonstruck you'll love The Wooden Spoon
