questions the validity of the notion promoted by some observers and international financial organizations that there is a universally applicable model of industrialization common to Asian countries. A number of senior and highly regarded Asia specialists are taking a critical look at the various development experiences of several and some often neglected Asian countries and evaluate their experiences in a comparative perspective. Comparing the analyses of countries such as Mongolia, the Pacific Islands or Sri Lanka with Singapore, South Korea and other countries of the region leads the editors of this volume to the conclusion that the fashionable talk about a model is not justified and that the picture is much more complex.

Archaeological Excavations in the Uyulan Region of Rota John L. Craib, 1998 **The Pacific Islands and the USA** R. G. Crocombe, 1995. The world's most powerful nation and more than a dozen of the world's smallest have been interacting for 200 years. Beginning with whaling in the 1700s it has continued through many trades, investment, education, churches, media, diplomacy and strategic issues. As significant as the movement of Americans to the Pacific is that of 150,000 Pacific Islanders to the USA. This important book documents the growing interaction with the USA to the pinnacle of involvement in World War II. The importance of USA to the Pacific Islands remained high until the end of the 1980s but has declined since then on almost every dimension. While USA will remain significant for the Pacific Islands its relative profile will continue to decline. Back cover **Twenty-five Best World War Two Sites** Chuck Thompson, 2002. This indispensable guidebook leads war buffs and casual travelers alike to the 25 best battle sites, memorials, plane wrecks and relics of World War II. Arguing Over the American Lake Hal M. Friedman, 2009. Hal M. Friedman analyzes the major issues concerning the Pacific Basin that confronted the executive branch departments between 1945 and 1947. *Leaves from an Autumn of Emergencies* Samuel Hideo Yamashita, 2005-09-30. The fall of Singapore and the brilliant victories achieved since the start of the war mean we are protected but I don't know just how grateful I should be. Takahashi Aiko, housewife, February 1942. This is my final departure from the home islands. I have paid my respects to those who have helped me. I have no regrets. Itabashi Yasuo, navy kamikaze pilot, February 1944. We had rice gruel for lunch again. There was no tofu in it but there were potatoes. We went through with the closing ceremony and received our report cards. Everyone was there. From now on I'll persevere and not fail. Manabe Ichiro, primary school student, July 1944. This collection of diaries gives readers a powerful firsthand look at the effects of the Pacific War on eight ordinary Japanese. Immediate, vivid and at times surprisingly frank, the diaries chronicle the last years of the war and its aftermath as experienced by a navy kamikaze pilot, an army straggler on Okinawa, an elderly Kyoto businessman, a Tokyo housewife, a young working woman in Tokyo, a teenage girl mobilized for war work and two schoolchildren evacuated to the countryside. Samuel Yamashita's introduction provides a helpful overview of the historiography on wartime Japan and offers valuable insights into the important everyday issues that concerned Japanese during a different and disastrously difficult time. At War in Distant Waters Phillip G. Pattee, 2013-10-15. *At War in Distant Waters* investigates the reasons behind Great Britain's combined military and naval offensive expeditions outside of Europe.

during the Great War Often regarded as unnecessary sideshows to the conflict waged on the European continent Pattee argues that the various campaigns were necessary adjuncts to the war in Europe and fulfilled an important strategic purpose by protecting British trade where it was most vulnerable Since international trade was essential for the island nation s way of life Great Britain required freedom of the seas to maintain its global trade While the German High Seas Fleet was a serious threat to the British coast forcing the Royal Navy to concentrate in home waters the importance of the island empire s global trade made it a valuable target to Germany s various commerce raiders just as Admiral Tirpitz s risk theory had anticipated
