***The Conquest of Ruins*** Julia Hell, 2019-03-19 The Roman Empire has been a source of inspiration and a model for imitation for Western empires practically since the moment Rome fell Yet as Julia Hell shows in *The Conquest of Ruins* what has had the strongest grip on aspiring imperial imaginations isn't that empire's glory but its fall and the haunting monuments left in its wake Hell examines centuries of European empire building from Charles V in the sixteenth century and Napoleon's campaigns of the late seventeenth and early eighteenth centuries to the atrocities of Mussolini and the Third Reich in the 1930s and 40s and sees a similar fascination with recreating the Roman past in the contemporary image In every case particularly that of the Nazi regime the ruins of Rome seem to represent a mystery to be solved how could an empire so powerful be brought so low Hell argues that this fascination with the ruins of greatness expresses a need on the part of would-be conquerors to find something to ward off a similar demise for their particular empire

Flaubert's Tentation Mary Orr,2008-11-13 This is the first comprehensive study in English of Flaubert s least well known masterpiece the final version of his Temptation of Saint Anthony 1874 which thanks to Foucault has the reputation of being an arcane and erudite fantastic library or thanks to genetic criticism is a narrative of Flaubert s personal aesthetic oeuvre de toute ma vie By presuming instead no prior knowledge of the text its versions or its contexts Mary Orr provides new readings of the seven tableaux which comprise Temptation and new ways of interpreting the work as a whole whether the reader is a newcomer to Flaubert or a specialist Arguing that Flaubert was imagining his own epoch through the eyes of a visionary saint in the fourth century AD Orr elucidates the dialogues between religion and science that are the dynamic of the work for the first time She also insists on the meticulous accuracy and imaginative representations of the science of the work proposing in the remapping analogy of her subtitle that Flaubert s Temptation is a paradigm of nineteenth century French and indeed European literary science For nineteenth century French and Flaubert specialists this book then challenges received critical wisdom on a number of fronts Through his unlikely protagonist visionary Flaubert s realism anti clericalism and orientalism are all given new airings in the religious and scientific evidence of the 1874 Temptation as indeed in his temptation to write the life of his times

The Napoleonic Wars Alexander Mikaberidze,2020-01-13 Austerlitz Wagram Borodino Trafalgar Leipzig Waterloo these are the places most closely associated with the era of the Napoleonic Wars But how did this period of nearly continuous conflict affect the world beyond Europe The immensity of the fighting waged by France against England Prussia Austria and

Russia and the immediate consequences of the tremors that spread throughout the world In this ambitious and far ranging work Alexander Mikaberidze argues that the Napoleonic Wars can only be fully understood in an international perspective France struggled for dominance not only on the plains of Europe but also in the Americas West and South Africa Ottoman Empire Iran India Indonesia the Philippines Mediterranean Sea and the Atlantic and Indian Oceans Taking specific regions in turn Mikaberidze discusses major political military events around the world and situates geopolitical decision making within its long and short term contexts From the British expeditions to Argentina and South Africa to the Franco Russian maneuvering in the Ottoman Empire the effects of the French Revolution and Napoleonic Wars would shape international affairs well into the next century In Egypt the wars led to the rise of Mehmed Ali and the emergence of a powerful state in North America the period transformed and enlarged the newly established United States and in South America the Spanish colonial empire witnessed the start of national liberation movements that ultimately ended imperial control Skillfully narrated and deeply researched here at last is the global history of the period one that expands our view of the Napoleonic Wars and their role in laying the foundations of the modern world

**The Longman Companion to European Nationalism 1789-1920** Raymond Pearson, 2014-09-25 A highly topical analysis of European Nationalism from the French Revolution through to the aftermath of the First World War when the nationalist issues and problems that dominate the political landscape of our own time were already fully established Covering an enormous range of peoples from the Icelanders to the Gypsies from Brittany to Wallachia the book presents a wealth of historical geopolitical information unavailable elsewhere Essential as a reference work it also provides a unique opportunity to survey systematically a crucial but fragmented subject in its full European context For historians political scientists departments of European studies and general readers

**Metaphysical Africa** Michael Muhammad Knight, 2021-11-30 The Ansaru Allah Community also known as the Nubian Islamic Hebrews AAC NIH and later the Nuwaubians is a deeply significant and controversial African American Muslim movement Founded in Brooklyn in the 1960s it spread through the prolific production and dissemination of literature and lecture tapes and became famous for continuously reinventing its belief system In this book Michael Muhammad Knight studies the development of AAC NIH discourse over a period of thirty years tracing a surprising consistency behind a facade of serial reinvention It is popularly believed that the AAC NIH community abandoned Islam for Black Israelite religion UFO religion and Egyptosophy However Knight sees coherence in AAC NIH media explaining how in reality the community taught that the Prophet Muhammad was a Hebrew who adhered to Israelite law Muhammad's heavenly ascension took place on a spaceship and Abraham enlisted the help of a pharaonic regime to genetically engineer pigs as food for white people Against narratives that treat the AAC NIH community as a postmodernist deconstruction of religious categories Knight demonstrates that AAC NIH discourse is most productively framed within a broader African American metaphysical history in which boundaries between traditions remain quite permeable Unexpected and engrossing

Metaphysical Africa brings to light points of intersection between communities and traditions often regarded as separate and distinct. In doing so it helps move the field of religious studies beyond conventional categories of orthodoxy and heterodoxy, challenging assumptions that inform not only the study of this particular religious community but also the field at large.

The Routledge Handbook of Classics, Colonialism, and Postcolonial Theory Katherine Blouin, Ben Akrigg, 2024-07-29 This handbook explores the ways in which histories of colonialism and postcolonial thought and theory cast light on our understanding of the ancient Mediterranean world and the discipline of Classics, utilizing a wide body of case studies and providing avenues for future research and discussion. It brings together chapters by a wide international and intersectional range of scholars coming from a variety of backgrounds and sub-disciplinary perspectives and from across the chronological and geographical scope of Classics. Chapters cover the state of current research into ancient Mediterranean and South Central and West Asian histories. They provide case studies to illustrate both how postcolonial thought has already illuminated our understanding of the ancient Mediterranean world and beyond as well as its potential for the future. Chapters also provide opportunities for reflection on the current state of the discipline. An introduction by the volume editors offers a survey of the development of postcolonial theory, its relationship to other bodies of theory and its connections to Classics. Toward the end of the book, three scholars with different career and disciplinary perspectives provide short reflections on the themes of the volume and the directions of future research. The Routledge Handbook of Classics, Colonialism and Postcolonial Theory offers an impressive collection of current research and thought on the subject for students and scholars in classical studies, understood in its larger sense as well as in related disciplines such as Archaeology, Ancient History, Imperial History, and the History of Colonialism, Reception Studies, and Museum Studies. For anyone interested in classical antiquity, it provides an engaging introduction to a potentially bewildering but ultimately vital and enriching body of thought and theory.

**Oriental Interiors** John Potvin, 2015-12-17 Since the publication of Edward Said's groundbreaking work *Orientalism* 35 years ago, numerous studies have explored the West's fraught and enduring fascination with the so-called Orient. Focusing their critical attention on the literary and pictorial arts, these studies have to date largely neglected the world of interior design. *Oriental Interiors* is the first book to fully explore the formation and perception of eastern-inspired interiors from an orientalist perspective. Orientalist spaces in the West have taken numerous forms since the 18th century to the present day, and the fifteen chapters in this collection reflect that diversity, dealing with subjects as varied and engaging as harems, Turkish baths on the RMS Titanic, Parisian bachelor quarters, potted palms, and contemporary yoga studios. It explores how furnishings, surface treatments, ornament, and music, for example, are deployed to enhance the exoticism and pleasures of oriental spaces, looking across a range of international locations. Organized into three parts, each introduced by the editor, the essays are grouped by theme to highlight critical paths into the intersections between orientalist studies, spatial theory, design studies, visual culture, and gender studies, making this essential reading for students and researchers alike.

**Burying the Dead** Lorraine Evans, 2020-12-14 An archeological study of burial grounds across England shedding light on pagan executions the Black Death and much more In the heart of North Yorkshire at a place called Walkington Wold archeologists unearthed twelve skeletons ten without heads Later examination revealed the place to be a cemetery for ancient Anglo Saxons who had been sentenced to death In the Middle Ages those who committed suicide were subjected to desecration a practice that went largely unrecorded While plague pits mass graves for victims of the Black Death have only recently started betraying their secrets Although unpalatable to some these burial grounds are an important record of cultural history and social change Burying the Dead explores how these sites reveal the attitudes practices and beliefs of the people who made them
