American Turkish Encounters Bilge Nur Criss, Selcuk Esenbel, Tony Greenwood, 2011-07-12 Turkey and the United States have been critically important to each other since the beginning of the Cold War The history of Turkish American relations includes not only strategic but also political social cultural and intellectual dimensions While critical to understanding Turkish American relations these dimensions rarely surface in today s discourse which reduces bilateral relations to issues currently being contested In reality the encounter between East and West embodied in Turkish American interactions ranges from the official and diplomatic to unofficial and informal exchanges at the social and individual level while often compatible and friendly such interactions occasionally have been less so Authors from both countries developed a variety of perspectives on their interactions through original research that will enable both specialists and general readers to appreciate its many facets Most scholarly works on the two nations have been limited to the analysis of US Turkish relations in the context of Cold War politics The editors intend that this volume will begin to fill a serious gap and encourage others to study American Turkish relations from as many aspects as possible This book shows that when seen in a historical framework the American Turkish encounter took place beyond the level of formal political and military ties during the Cold War period and has enduringly interacted at the level of educational social and cultural realms

world of the eighteenth century Gulf South Stretching from Florida to Texas the region witnessed the complex collision of European African and Native American peoples The Gulf South offered an extraordinary stage for European rivalries to play out allowed a Native based frontier exchange system to develop alongside an emerging slave based plantation economy and enabled the construction of an urban network of unusual opportunity for free people of color After being long neglected in favor of the English colonies of the Atlantic coast the colonial Gulf South has now become the focus of new and exciting scholarship *Coastal Encounters* brings together leading experts and emerging scholars to provide a portrait of the Gulf South in the eighteenth century The contributors depict the remarkable transformations that took place demographic cultural social political and economic and examine the changes from multiple perspectives including those of Native Americans Europeans and Africans colonizers and colonized men and women The outstanding essays in this book argue for the central place of this dynamic region in colonial history

Engendered Encounters Margaret D. Jacobs, 1999-01-01 In this interdisciplinary study of gender cross cultural encounters and federal Indian policy Margaret D Jacobs explores the changing relationship between Anglo American women and Pueblo Indians before and after the turn of the century During the late nineteenth century the Pueblos were often characterized by women reformers as barbaric and needing to be uplifted into civilization By the 1920s however the Pueblos were widely admired by activist Anglo American women who challenged assimilation policies and worked hard to protect the Pueblos traditional way of life Deftly weaving together an analysis of changes in gender roles attitudes toward sexuality public conceptions of Native peoples and federal Indian policy Jacobs argues that the impetus for this transformation in perception rests less with a progressively tolerant view of Native peoples and more with fundamental shifts in the ways Anglo American women saw their own sexuality and social responsibilities

Six Encounters with Lincoln Elizabeth Brown Pryor, 2018-02-06 Winner of the Barondess Lincoln Award from The Civil War Round Table of New York Fascinating reading this book eerily reflects some of today's key issues The New York Times Book Review From an award winning historian an engrossing look at how Abraham Lincoln grappled with the challenges of leadership in an unruly democracy An awkward first meeting with U S Army officers on the eve of the Civil War A conversation on the White House portico with a young cavalry sergeant who was a fiercely

dedicated abolitionist A tense exchange on a navy ship with a Confederate editor and businessman In this eye opening book Elizabeth Brown Pryor examines six intriguing mostly unknown encounters that Abraham Lincoln had with his constituents Taken together they reveal his character and opinions in unexpected ways illustrating his difficulties in managing a republic and creating a presidency Pryor probes both the political demons that Lincoln battled in his ambitious exercise of power and the demons that arose from the very nature of democracy itself the clamorous diversity of the populace with its outspoken demands She explores the trouble Lincoln sometimes had in communicating and in juggling the multiple concerns that make up being a political leader how conflicted he was over the problem of emancipation and the misperceptions Lincoln and the South held about each other Pryor also provides a fascinating discussion of Lincoln s fondness for storytelling and how he used his skills as a raconteur to enhance both his personal and political power Based on scrupulous research that draws on hundreds of eyewitness letters diaries and newspaper excerpts *Six Encounters with Lincoln* offers a fresh portrait of Lincoln as the beleaguered politician who was not especially popular with the people he needed to govern with and who had to deal with the many critics naysayers and dilemmas he faced without always knowing the right answer What it shows most clearly is that greatness was not simply laid on Lincoln s shoulders like a mantle but was won in fits and starts

Cold War Encounters in US-Occupied Okinawa Mire Koikari,2015-07-15 In this innovative and engaging study Mire Koikari recasts the US occupation of Okinawa as a startling example of Cold War cultural interaction in which women s grassroots activities involving homes and homemaking played a pivotal role in reshaping the contours of US and Japanese imperialisms Drawing on insights from studies of gender Asia America and postcolonialism Koikari analyzes how the occupation sparked domestic education movements in Okinawa mobilizing an

assortment of women home economists military wives club women university students and homemakers from the US Okinawa and mainland Japan These women went on to pursue a series of activities to promote modern domesticity and build multicultural friendship amidst intense militarization on the islands As these women took their commitment to domesticity and multiculturalism onto the larger terrain of the Pacific they came to articulate the complex intertwinement of gender race domesticity empire and transnationality that existed during the Cold War *The MARC Format and Life Cycle Tracking at the National Archives* United States.
