Narrative Ethics:

Narrative Ethics Jakob Lothe, 2013-09-01 While Plato recommended expelling poets from the ideal society W H Auden famously declared that poetry makes nothing happen The 19 contributions to the present book avoid such polarized views and responding in different ways to the ethical turn in narrative theory explore the varied ways in which narratives encourage readers to ponder matters of right and wrong All work from the premise that the analysis of narrative ethics needs to be linked to a sensitivity to esthetic narrative form The ethical issues are accordingly located on different levels Some are clearly presented as thematic concerns within the text s considered while others emerge through or are generated by the presentation of character and event by means of particular narrative techniques The objects of analysis include such well known or canonical texts as Biblical Old Testament stories Mark Twain s Huckleberry Finn J R R Tolkien s The Lord of the Rings Vladimir Nabokov s Lolita Jonathan Littell s The Kindly Ones Ann Radcliffe s The Italian and Matthew Lewis s The Monk Others concentrate on less well known texts written in languages other than English There are also contributions that investigate theoretical issues in relation to a range of different examples *The Ethics of Storytelling* Hanna Meretoja, 2017-11-30 Against the backdrop of the polarized debate on the ethical significance of storytelling Hanna Meretoja s *The Ethics of Storytelling* Narrative Hermeneutics History and the Possible develops a nuanced framework for exploring the ethical complexity of the roles narratives play in our lives Focusing on how narratives enlarge and diminish the spaces of possibilities in which we act think and re imagine the world together with others this book proposes a theoretical analytical framework for engaging with both the ethical potential and risks of storytelling Further it elaborates a narrative hermeneutics that treats narratives as culturally mediated practices of re interpreting experiences and articulates how narratives can be oppressive empowering or both It also argues that the relationship between narrative unconscious and narrative imagination shapes our sense of the possible In her book Meretoja develops a hermeneutic narrative ethics that differentiates between six dimensions of the ethical potential of storytelling the power of narratives to cultivate our sense of the possible to contribute to individual and cultural self understanding to enable understanding other lives non subsumptively in their singularity to transform the narrative in between that bind people together to develop our perspective awareness and capacity for perspective taking and to function as a form of ethical inquiry This book addresses our implication in violent histories and argues that it is as dialogic storytellers fundamentally vulnerable and dependent on one another that we become who we are both as individuals and communities *The Ethics of Storytelling* seamlessly incorporates narrative ethics literary narrative studies narrative psychology narrative philosophy and cultural memory studies It contributes to contemporary interdisciplinary narrative studies by developing narrative hermeneutics as a philosophically rigorous historically sensitive and analytically subtle approach to the ethical stakes of the debate on the narrative dimension of human existence Narrative Ethics in the Hebrew Bible Eryl W. Davies, 2021-08-12 How can the

stories of the Hebrew Bible be read for their ethical value Eryl W Davies uses the narratives of King David in order to explore this basing his argument on Martha Nussbaum's notion that a sensitive and informed commentary can unpack the complexity of fictional accounts Davies discusses David and Michal in 1 Sam 19 11 17 David and Jonathan in 1 Sam 20 David and Bathsheba in 2 Sam 11 Nathan's parable in 2 Sam 12 and the rape of Tamar in 2 Sam 13 By examining these narratives Davies shows that a fruitful and constructive dialogue is possible between biblical ethics and modern philosophy He also emphasizes the ethical accountability of biblical scholars and their responsibility to evaluate the moral teaching that the biblical narratives have to offer

Memory and Narrative Ethics Jacob Lothe, 2025-03-26 As the last survivors of the Holocaust pass away the challenge of maintaining and extending our knowledge of this critical historical event becomes increasingly urgent Without the firsthand testimonies of survivors our understanding of the Holocaust is at risk of becoming diluted or distorted The narratives that shape our collective memory whether through testimony fiction or film are essential in preserving the true horror and lessons of the Holocaust This fading firsthand knowledge could lead to a loss of the ethical and historical gravity of Nazi Germany's mass murder of around six million Jews Memory and Narrative Ethics presents an original approach that combines narrative studies memory studies narrative ethics narrative psychology and Holocaust studies to analyze how different forms of narrative preserve Holocaust memory Through the approach of narrative hermeneutics and taking into account his own perspective as a European born after the Second World War Jakob Lothe offers insightful analysis of testimonies non-fiction films novels and film adaptations and demonstrates how these narratives constructively respond to the ethical challenge of remembering the Holocaust By understanding and utilizing these diverse narrative forms we can maintain a vivid ethical and comprehensive collective memory of the Holocaust This ensures that future generations grasp the historical significance and moral lessons of this atrocity even as direct survivor testimonies soon become scarce

Narrative Ethics Adam Zachary Newton, 2009-06-30 The ethics of literature formalists have insisted resides in the moral quality of a character a story perhaps the relation between author and reader But in the wake of deconstruction and various forms of criticism focusing on difference the ethical question has been freshly negotiated by literary studies and to this approach Adam Newton brings a startling new thrust His book makes a compelling case for understanding narrative as ethics Assuming an intrinsic and necessary connection between the two Newton explores the ethical consequences of telling stories and fictionalizing character and the reciprocal claims binding teller listener witness and reader in the process He treats these relations as defining properties of prose fiction of particular import in nineteenth and twentieth century texts Newton's fresh and nuanced readings cover a wide range of authors and periods from Charles Dickens to Kazuo Ishiguro and Julian Barnes from Herman Melville to Richard Wright from Joseph Conrad and Henry James to Sherwood Anderson and Stephen Crane An original work of theory as well as a deft critical performance Narrative Ethics also stakes a claim for itself as moral inquiry To that end Newton braids together the ethical philosophical projects of

Emmanuel Levinas Stanley Cavell and Mikhail Bakhtin as a kind of chorus for his textual analyses an elegant bridge between philosophy's ear and literary criticism's voice His work will generate enormous interest among scholars and students of English and American literature as well as specialists in narrative and literary theory hermeneutics and contemporary philosophy

Daniel Schwartz Narrative Reviews of this book

Newton offers elegant provocative readings of texts ranging from The Rime of the Ancient Mariner to Winesburg Ohio The Remains of the Day and Bleak House

Newton's book is a rich vein of critical ore that can be mined profitably

Choice Reading Narrative Ethics is a powerful experience for it engages not just the intellect but the emotions and dare I say the spirit It stands apart from recent books on ethics in literature by virtue of its severe insistence on its allegiance to an alternative ethical tradition This alternative way of thinking and living has its roots in the work of the Jewish philosopher Emmanuel Levinas and finds support in the writings of Mikhail Bakhtin and Stanley Cavell

Stories Newton asserts are not ethical because of their morals or because of their normative logic They are ethical because of the work they perform in the social world of binding teller listener witness and reader to one another This is a work of passion integrity commitment and mission

Jay Clayton Vanderbilt University

Newton probes with admirable subtlety the key question what do we gain and what dangers do we run when we fully enter the life of an other through that other's story We have here a rare combination of deep and learned critical acumen with passionate love for literature and sensitivity to its nuances

Wayne C Booth University of Chicago

Adam Zachary Newton writes with illuminating passion Drawing on writers as diverse as Conrad and Henry James Melville and Sherwood Anderson Bakhtin and Levinas he asks what it is to turn one's life into a story for another and what it is to respond to or avoid the claim of another person's narration He has written a wonderful important book

Ethics and Aesthetics in Toni Morrison's Fiction Mariangela Palladino, 2018-01-22 Ethics and Aesthetics in Toni Morrison's Fiction investigates Morrison's aesthetics in terms of narrative's ethical import Morrison's writing is concerned with ethically debatable issues and it offers a problematic representation of human experiences in African American history Whilst previous critical studies consider ethics in relation to events in the story Palladino explores its intersection with aesthetics Narrativizing the moral law Morrison's imperative is to relate the past and to find ways to tell what is often unspeakable The quest for ways to narrate horrific facts is a quest for an aesthetics which includes an appeal to the reader and thus necessarily engages with the ethical This study foregrounds the equivocal as a key feature of narrative ethics

Religious Identities and the Global South Felix Wilfred, 2021-01-04 This book offers a comprehensive and interdisciplinary account of religious identities in the Global South Drawing on literature in various fields Felix Wilfred analyzes how religious identities intersect with the processes of globalization modernity and postmodernity He illustrates how the study of religion in the Global North often revolves around questions of secularism and fundamentalism whereas a neo Orientalist quality often attends study of religion in the Global South These approaches and theorizing fail to incorporate the experiences of lived religion in the South especially in Asia Historically the religions in the South have played

a highly significant role in resistance to the domination by the colonial forces an important reason for the continued attachment of the peoples of the South to their religious universe This book puts the two regions and their scholarly norms in conversation with one another exploring the social political cultural and economic implications **Does Religion Matter**

Morally? A. W. Musschenga, 1995 In the dominant view morality is more rational and universal than and therefore independent from christian religion Believers do not have exclusive moral knowledge Moral principles can be known by anyone Morality not religion is the supreme judge of human actions in the world Some contributors to this volume defend this view on theological and philosophical grounds The advantages of such a view for thinking about a common global morality are clear However according to many authors the conception of morality underlying this view is at the least impoverished if not wrong this view cannot explain the importance and the persistence of moral taboos Furthermore every morality is influenced by metaphysical and anthropological assumptions whether or not religious the so called modern rational secular morality The central moral question in the alternative narrative concept of morality is Who am I who do I want to be and not What is the right action In this approach not universal principles but tradition dependant stories constitute the core of a morality Are these concepts more adequate for understanding the relation of religion to morality Do they have room for the project of a universal morality of human rights *Explorations of Chinese Moral Education*

Curriculum and Textbooks Desheng Gao, Le Zhang, Yan Tang, 2021-05-07 This book shares with English readers Chinese theoretical and practical explorations of moral education curriculum for primary schools within the basic education curriculum reform project since 2001 The book expounds this moral education curriculum reform and focuses on three main ideas The curriculum s aim is to enrich children s experiences and reflect their own lives the curriculum s content is originated from children s lives the curriculum s structure is developed from children s learning approach in their morality and social study In this book light is also shed on how to construct moral education textbooks direct moral instruction and moral teacher identity in the perspective of moral learning how to knit law education and Chinese traditional culture education in moral curriculum This is the first comprehensive book focusing on Chinese moral education curriculum reform It will appeal to researchers research students and writers of moral education textbooks It is also suitable for teacher training programs to help future teachers learn about moral education curriculum and help them effectively design and organize it for children s morality study *Reader as Accomplice* Alexander Spektor, 2020-10-15

Reader as Accomplice Narrative Ethics in Dostoevsky and Nabokov argues that Fyodor Dostoevsky and Vladimir Nabokov seek to affect the moral imagination of their readers by linking morally laden plots to the ethical questions raised by narrative fiction at the formal level By doing so these two authors ask us to consider and respond to the ethical demands that narrative acts of representation and interpretation place on authors and readers Using the lens of narrative ethics Alexander Spektor brings to light the important previously unexplored correspondences between Dostoevsky and Nabokov Ultimately he argues for a

productive comparison of how each writer investigates the ethical costs of narrating oneself and others. He also explores the power dynamics between author, character, narrator, and reader. In his readings of such texts as *The Meek One* and *The Idiot* by Dostoevsky and *Bend Sinister* and *Despair* by Nabokov, Spektor demonstrates that these authors incite the reader's sense of ethics by exposing the risks but also the possibilities of narrative fiction.

Ethics in Intensive Care Medicine Andrej Michalsen, Nicholas Sadochnikoff, Jozef Kesecioglu, 2023-07-19. In this book, part of the European Society of Intensive Care Medicine (ESICM) textbook series, experts in the field of clinical ethics describe basic principles of clinical ethics and ethical reasoning, the fundamental pillars of intensive care medicine, as well as the decision-making processes necessary to arrive at appropriate decisions for each individual patient. Specifically, the complex decision-making process with regard to limiting life-sustaining therapies and integrating palliative care into intensive care are expounded. Furthermore, the still controversial topics of ethical climate, proportionate care, and prioritization are elaborated upon. The so-called soft skills of interprofessional communication and cooperation are given the attention they deserve in order to overcome the gap between technological progress and interpersonal standstill. Finally, widely accepted ethical values and principles were challenged by the COVID-19 pandemic, forcing clinicians to elaborate recommendations regarding the prioritization of scarce resources. The book will be an invaluable tool for clinicians to understand ethical principles and reasoning to contend with ethical challenges in intensive care medicine across the boundaries of disciplines and professions in order to provide an appropriate individual plan of treatment for their patients.
