cohesive and flourishing society Both civilizations eventually abandoned their integrative ideals in favor of a multicultural paradigm The consequences of that paradigm shift are instructive for societies that seek to emulate it In the modern era many nations have implemented multicultural policies like group preferences to compensate for past injustices or current disparities Heycke examines some notable examples Yugoslavia Rwanda and Sri Lanka These nations were on a rough trajectory toward ethnic tolerance and comity a trajectory that multicultural policies altered dramatically They contrast with Botswana a country that opposes group distinctions so resolutely that it prohibits the collection of racial and ethnic statistics Since World War II ethnic conflicts have killed over ten million people But the consequences of ethnic division go far beyond that Heycke analyzes those consequences in an international statistical survey of ethnic fractionalization This survey combined with the extensive historical record of multiethnic societies illustrates the staggering costs of accentuating group differences and the benefits of a unifying identity that transcends those differences
