## **Narratives And The Making Of History:**

Narratives and the Making of History Romila Thapar, 2000 These two essays explore some facets of the interface between narrative and history The first explores the versions of the story of Sakuntala The second juxtaposes the data on the raid of Mahmud of Ghazni on the temple of Somanatha *Narrative and History* Alun Munslow, 2018-09-19 Based on the assumption that reality reference and representation work together this introductory textbook explains and illustrates the various ways in which historians write the past as history For the first time the full range of leading narrative theorists such as Paul Ricoeur Hayden White Frank Ankersmit Seymour Chatman and Gérard Genette have been brought together to explain the narrative making choices all author historians make when creating historical explanations Combining theory with practice Alun Munslow expands the boundaries of the discipline and charts a new role for unconventional historical forms and modes of expression Clear but comprehensive this is an ideal resource for undergraduate and postgraduate students taking courses on history and theory history and method and historiography The Postmodern History Reader Keith Jenkins, 1997 The Postmodern History Reader introduces students to the new points of controversy in the study of history and provides a framework by which to understand postmodernism and a guide to explore it further Reform, Identity and Narratives of Belonging Arkotong Longkumer, 2011-11-03 Reform Identity and Narratives of Belonging focuses on the Heraka a religious reform movement and its impact on the Zeme a Naga tribe in the North Cachar Hills of Assam India Drawing upon critical studies of religion cultural ethnic identity and nationalism archival research in both India and Britain and fieldwork in Assam the book initiates new grounds for understanding the evolving notions of reform and identity in the emergence of a Heraka religion Arkotong Longkumer argues that reform and identity are dynamically inter related and linked to the revitalisation and negotiation of both tradition legitimising indigeneity and change legitimising reform The results have deepened yet challenged not only prevailing views of the Western construction of the category religion but also understandings of how marginalised communities use collective historical imagination to inspire self identification through the discourse of religion In conclusion this book argues for a re evaluation of the way in which multi religious traditions interact to reshape identities and belongings *Bringing History to Life through Film* Kathryn Anne Morey, 2013-12-12 Whether re creating an actual event or simply being set in a bygone era films have long taken liberties with the truth While some members of the audience can appreciate a movie without being distracted by historical inaccuracies other viewers are more discerning From revered classics like *Gone with the Wind* to recent award winners like *Argo* Hollywood films often are taken to task for their loose adherence to the facts But what obligation do filmmakers have to the truth when trying to create a two hour piece of entertainment In *Bringing History to Life through Film The Art of Cinematic Storytelling* Kathryn Anne Morey brings together essays that explore the controversial issue of film as a purveyor of history Examining a range of films including highly regarded features like *The Last of the Mohicans* and *Pan's Labyrinth* as well as blockbuster franchises like

Pirates of the Caribbean chapters demonstrate that the debate surrounding the role of history on film is still as raw as ever Organized in five sections these essays discuss the myths and realities of history as they are portrayed on film from Nostalgic Utopias to Myths and Fairy Tales The fourteen chapters shed light on how films both convey and distort historical realities to capture the essence of the past rather than the past itself Ultimately they consider what role cinema plays as the quintessential historical storyteller In addition to cinema and media studies this book will appeal to scholars of history and fans of a wide range of cinematic genres
