*The Goths* David M. Gwynn, 2017-11-15 The Goths are truly a lost civilization Sweeping down from the north ancient Gothic tribes sacked the imperial city of Rome and set in motion the decline and fall of the western Roman empire Ostrogothic and Visigothic kings ruled over Italy and Spain dominating early medieval Europe Yet after the last Gothic kingdom fell more than a thousand years ago the Goths disappeared as an independent people Over the centuries that followed as traces of Gothic civilization vanished its people came to be remembered as both barbaric destroyers and heroic champions of liberty In this engaging history David M Gwynn brings together the interwoven stories of the original Goths and the diverse Gothic heritage a heritage that continues to shape our modern world From the ancient migrations to contemporary Goth culture through debates over democratic freedom and European nationalism and drawing on writers from Shakespeare to Bram Stoker Gwynn explores the ever widening gulf between the Goths of history and the popular imagination Historians students of architecture and literature and general readers alike will learn something new about this great lost civilization

**East and West in the Roman Empire of the Fourth Century**, 2015-07-28 East and West in the Roman Empire of the Fourth Century examines the disunity of the Roman Empire in the fourth century from different angles in order to offer a broad perspective on the topic and avoid an overvaluation of the political division of the empire in 395 After a methodological key paper on the concepts of unity the other contributors elaborate on these notions from various geopolitical perspectives the role of the army and taxation geographical perspectives the unity of the Church and the perception of the *divisio regni* of 364 Four case studies follow illuminating the role of *concordia apostolorum* antique sports eunuchs and the poet Prudentius on the late antique view of the Empire Despite developments to the contrary it appears that the Roman Empire remained to be viewed as a unity in all strata of society

*Military History of Late Rome 518–565* Ilkka Syväne, 2022-10-04 An outstanding work the series gives us a very good picture of the long process that has come to be known as the Fall of Rome The NYMAS Review The Military History of Late Rome 518–565 provides a new fresh analysis of the revival of Roman fortunes during the reigns of Justin I 518–527 and Justinian I 527–565 The book narrates in great detail the reconquests of North Africa Italy and southern Spain by Justinian's armies It also explores the massive encounters between the Romans and Persians in the east and the apocalyptic fights in the Balkans between the Romans and barbarians The author pays particular attention to the tactics and battles so there is detailed analysis of all of the period engagements such as Dara Satala Callinicum Ad Decimum Tricamarum Rome Scylae Veteres Antonia Castra Gallica Campi Catonis Hippis River Busta Gallorum Mons Lactarius Casilinum Archaeopolis Phasis and others The narrative features the military exploits of the great Roman heroes such as

Belisarius and Narses while not forgetting the many other overlooked generals such as Germanus Mundus John the nephew of Vitalian Martinus Dagistheus and Sittas not to mention the dashing hero John Troglita whose achievements were immortalized by the Roman epic poet Corippus

Castration and Culture in the Middle Ages Larissa Tracy, 2013 Essays exploring medieval castration as reflected in archaeology law historical record and literary motifs Castration and castrati have always been facets of western culture from myth and legend to law and theology from eunuchs guarding harems to the seventeenth and eighteenth century castrati singers Metaphoric castration pervades a number of medieval literary genres particularly the Old French fabliaux exchanges of power predicated upon the exchange or absence of sexual desire signified by genitalia but the plain literal act of castration and its implications are often overlooked This collection explores this often taboo subject and its implications for cultural mores and custom in Western Europe seeking to demystify and demythologize castration Its subjects include archaeological studies of eunuchs historical accounts of castration in trials of combat the mutilation of political rivals in medieval Wales Anglo Saxon and Frisian legal and literary examples of castration as punishment castration as comedy in the Old French fabliaux the prohibition against genital mutilation in hagiography and early modern anxieties about punitive castration enacted on the Elizabethan stage The introduction reflects on these topics in the context of arguably the most well known victim of castration in the middle ages Abelard

**The Imperial Families of Ancient Rome** Maxwell Craven, 2019-12-08 The Roman Empire was a spectacular polity of unprecedented scale which stretched from Scotland to Sudan and from Portugal to Persia It survived for over 500 years in the west and 1 480 years in the east Ruling it was a task of frightening complexity few emperors made a good fist of it yet thanks to dynastic connections an efficient bureaucracy and a governing class eager to attain the kudos of holding the highest offices it survived the mad bad and incompetent emperors remarkably well Although not always apparent it was the interplay of emperors kin and family connections which also made a major contribution to controlling the empire This book aims to put on record the known ancestry relations and descendants of all emperors including ephemeral ones and show connections from one dynasty to another as completely as possible accompanied by concise biographical notes about each ruler and known facts about family members which include Romans both famous and obscure It also attempts to distinguish between certainty and possibility and to eliminate obvious fiction The introduction provides a narrative lead in to the creation of the empire attempts to clarify the complexities of Roman genealogy and assess the sources

**Soldiering for God** John F. Shean, 2010-08-23 This new study argues that the

religious attitude of the Roman army was a crucial factor in the Christianization of the Roman world. Specifically by the end of the third century there was a significant Christian presence within the army which was ready to act in the interests of the faith. Conditions at this time were thus ripe for the coming to power of a Christian emperor when Constantine converted to Christianity he could rely upon the enthusiastic support of his Christian soldiers. Constantine strengthened his Christian base by initiating policies which accelerated the Christianization of the army. The continuation of these policies by Christian Roman emperors eventually allowed them to use the military as a vehicle for the suppression of paganism and heretical Christian sects.

*Robert Graves and the Classical Tradition* A. G. G. Gibson, 2015-07-09

The poet Robert Graves' use of material from classical sources has been contentious to scholars for many years with a number of classicists baulking at his interpretation of myth and his novelization of history and questioning its academic value. This collection of essays provides the latest scholarship on Graves' historical fiction for example in *I Claudius* and *Count Belisarius* and his use of mythical figures in his poetry as well as an examination of his controversial retelling of the Greek Myths. The essays explore Graves' unique perspective and expand our understanding of his works within their original context while at the same time considering their relevance in how we comprehend the ancient world.
