Developmental Dilemmas Peter Ho, 2005-05-24 Developmental Dilemmas singles out land as an object of study and places it in the context of one of the world's largest and most populous countries undergoing institutional reform the People's Republic of China The book demonstrates that private property protected by law the principle of getting the prices right and the emergence of effectively functioning markets are the outcome of a given society's historical development and institutional fabric Peter Ho argues that the successful creation of new institutions hinges in part on choice and timing in relation to the particular constellation of societal economic political and cultural parameters Disregarding these could result in rising inequality bad land stewardship and the eruption of land related grievances

Roots of the State Benjamin Read, 2012-04-11 Most social science studies of local organizations tend to focus on civil society associations voluntary associations independent from state control whereas government sponsored organizations tend to be theorized in totalitarian terms as mass organizations or manifestations of state corporatism Roots of the State examines neighborhood associations in Beijing and Taipei that occupy a unique space that exists between these concepts Benjamin L Read views the work of the neighborhood associations he studies as a form of administrative grassroots engagement States sponsor networks of organizations at the most local of levels and the networks facilitate governance and policing by building personal relationships with members of society Association leaders serve as the state's designated liaisons within the neighborhood and perform administrative duties covering a wide range of government programs from welfare to political surveillance These partly state controlled entities also provide a range of services to their constituents Neighborhood associations as institutions initially created to control societies may underpin a repressive regime such as China's but they also can evolve to empower societies as in Taiwan This book engages broad and much discussed questions about governance and political participation in both authoritarian and democratic regimes A

Wild Idea Brad Edmondson, 2021-05-15 A Wild Idea shares the complete story of the difficult birth of the Adirondack Park Agency APA The Adirondack region of New York's rural North Country forms the nation's largest State Park with a territory as large as Vermont Planning experts view the APA as a triumph of sustainability that balances human activity with the preservation of wild ecosystems The truth isn't as pretty The story of the APA told here for the first time is a complex troubled tale of political dueling and communities pushed to the brink of violence The North Country's environmental movement started among a small group of hunters and hikers rose on a huge wave of public concern about pollution that crested in the early 1970s and overcame multiple obstacles to save the Adirondacks Edmondson shows how the movement's leaders persuaded a powerful Governor to recruit planners naturalists and advisors and assign a task that had never been attempted before The team and the politicians who supported them worked around the clock to draft two visionary land use plans and turn them into law But they also made mistakes and their strict regulations were met with determined opposition from local landowners who insisted that private property is private A Wild Idea is based on in depth interviews with five dozen insiders who are central to the story Their observations contain many surprising and shocking revelations This is a rich exciting narrative about state power and how it was imposed on rural residents It shows how the Adirondacks were saved and also why that campaign sparked a passionate rebellion

China Rising Yong Deng, Fei-Ling Wang, 2005 Despite its increasingly secure place in the world the People's Republic of China remains dissatisfied with its global status Its growing material power has simultaneously led to both greater influence and unsettling questions about its international intentions China also has found itself in a constant struggle to balance its aspirations abroad with a daunting domestic agenda This authoritative book provides a unique exploration of the complex and dynamic motivations behind Beijing's foreign policy The authors focus on China's choices and calculations on issues such as the ruling Communist party regime's interests international status and image nationalism Taiwan human rights globalization U S hegemony international institutions and the war on terrorism Taken together the chapters offer a comprehensive diagnosis of the emerging paradigms in Chinese foreign policy illuminating especially China's struggle to engineer and manage its rise in light of the opportunities and perils inherent in the post cold war and post 9 11 world

New York Politics Edward V Schneier, Brian Murtaugh, 2015-01-28 Most New Yorkers have very little knowledge of how influence is wielded in Albany This acclaimed book offers a chance to look behind those closed doors The authors an Albany based political scientist and a former State Assembly member now joined by an expert on political blogging and networking infuse their discussion of institutions and processes with the drama and significance of real power politics Completely revised and updated with extensive new material the book covers recent political developments and electoral contests as well as all the basics constitutional issues historical economic social and demographic factors the functioning of executive legislative and judicial institutions urban local and special district governments parties interest groups and bureaucracies and finance budgets health education and welfare programs

Against the Law Ching Kwan Lee, 2007-06-07 This powerful study opens a critical perspective on the slow death of socialism and the rebirth of capitalism in the world's most dynamic and populous country Based on remarkable fieldwork and extensive interviews in Chinese textile apparel machinery and household appliance factories *Against the Law* dissects the world of Chinese workers today and finds a rising tide of labor unrest mostly hidden from the world's attention Intense working class agitation is being spurred by massive unemployment of Mao's socialist proletariat in the northern rustbelt and by the exploitation of millions of young workers in the southern sunbelt Providing a broad comparative political and economic analysis of the vast mosaic of this labor struggle together with unprecedented fine grained ethnographic detail the book portrays the multi faceted humanity of the Chinese working class as their stories unfold in bankrupt state factories and global sweatshops in crowded dormitories and remote villages at heroic moments of street protests as well as in quiet disenchantment with the corrupt officialdom and the fledgling legal system
