The Diplomacy of Involvement David M. Pletcher, 2001 Annotation Like its predecessor this important new work is focused on the connection between trade and investment on the one hand and U S foreign policy on the other David Pletcher describes the trade of the United States with the Far East the islands of the Pacific and the northwest coast of North America from 1784 the year of the first American trading expedition to China to 1844 the year of the first trade treaty with China followed immediately by the U S acquisition of Oregon and California He then traces the growth of trade and investment in Alaska Hawaii and the South Pacific from 1844 to 1890 and proceeds to do the same for China Japan and Korea In the ensuing chapters Pletcher covers the 1890s including the annexation of Hawaii the Sino Japanese War the acquisition of the Philippines and the Open Door policy in China He concludes that the American expansion across the Pacific and into the Far East was not a deliberate consistent drive for economic hegemony but a halting experimental improvised movement carried out against determined opposition and indifference and dotted with setbacks and failures Providing his own judgments about

the wisdom and effectiveness of America's new endeavors Pletcher summarizes the problems and handicaps involved demonstrating that errors of the twentieth century were at least partly the result of poor preparation in the 1880s and 1890s Touching on every place where Americans undertook significant economic activity *The Diplomacy of Involvement* will be an important aid for seasoned scholars as well as an excellent introduction for the novice

Colonial Ports, Global Trade, and the Roots of the American Revolution (1700 — 1776) Jeremy Land, 2023-07-24 This title is published in Open Access with the support of the University of Helsinki Library This book takes a long run view of the global maritime trade of Boston New York and Philadelphia from 1700 to American Independence in 1776 Land argues that the three cities developed large global networks of maritime commerce and exchange that created tension between merchants and the British Empire which sought to enforce mercantilist policies to constrain American trade to within the British Empire Colonial merchants created and then expanded their mercantile networks well beyond the confines of the British Empire This trans-imperial trade often considered smuggling by British authorities formed the roots of what became known as the American Revolution
