Radiant Past Ideology And Reality In Hungary's Road To Capitalism:

The Radiant Past Michael Burawoy, János Lukács, 1992-03-15 Communism once heralded as the radiant future of all humanity has now become part of Eastern Europe's past. What does the record say about the legacy of communism as an organizational system? Michael Burawoy and János Lukács consider this question from the standpoint of the Hungarian working class. Between 1983 and 1990 the authors carried out intensive studies in two core Hungarian industries: machine building and steel production to produce the first extended participant observation study of work and politics in state socialism. A fascinating and engagingly written eyewitness report on proletarian life in the waning years of goulash communism. A richly rewarding book, one that should interest political scientists in a variety of subfields from area specialists and comparativists to political economists as well as those interested in Marxist and post-Marxist theory. Elizabeth Kiss, *American Political Science Review*. A very rich book. It does not merely offer another theory of transition but also presents a clear interpretive scheme combined with sociological theory and vivid ethnographic description. Ireneusz Bialecki, *Contemporary Sociology*. Its informed skepticism of post-Communist liberal euphoria, its concern for workers and its fine ethnographic details make this work valuable. *Kos R. na Tas American Journal of Sociology*. [The Statesman's Yearbook 2008](#) B. Turner, 2017-01-12 The 2008 edition of *The Statesman's Yearbook* contains information and analysis on every country in the world including biographical profiles of current leaders, government histories, economic overviews, and maps. Every copy comes with a single user licence giving access to the full text online, updated regularly and fully searchable.

[Everyday Post-Socialism](#) Jeremy Morris, 2016-09-01 This book offers a rich ethnographic account of blue collar workers' everyday life in a central Russian industrial town coping with simultaneous decline and the arrival of transnational corporations. *Everyday Post-Socialism* demonstrates how people manage to remain satisfied despite the crisis and relative poverty they faced after the fall of socialist projects and the social trends associated with neoliberal transformation. Morris shows the other life in today's Russia which is not present in mainstream academic discourse or even in the media in Russia itself. This book offers co-presence and a direct understanding of how the local community lives a life which is not only bearable but also preferable and attractive when framed in the categories of habitability, commitment, and engagement and seen in the light of alternative ideas of worth and specific values. Topics covered include working class identity, informal economy, gender relations, and transnational corporations.

Reflections on 1989 in Eastern Europe Terry Cox, 2013-09-13 This book presents a selection of recent research on the events and developments of 1989 in Eastern Europe. It offers a mix of detailed examinations of the events of 1989 in Eastern Europe, thoughtful and considered appraisals of developments, and middle-range theoretical discussions of patterns of cause and effect. The authors range in their approaches from detailed examinations of government and ruling party papers from the archives (some of it originally labelled top secret) to personal observations and oral history based on interviews with participants to analysis of survey data and official

statistics In their chosen focus the essays range from explorations of the emerging crisis in the communist regimes that led to the events of 1989 reflections and insights into the events and changing mood during 1989 itself and examinations of some of the consequences and legacies of 1989 This book was published as a special issue of Europe Asia Studies

Privatizing Poland Elizabeth Cullen Dunn, 2015-09-25 The transition from socialism in Eastern Europe is not an isolated event but part of a larger shift in world capitalism the transition from Fordism to flexible or neoliberal capitalism Using a blend of ethnography and economic geography Elizabeth C Dunn shows how management technologies like niche marketing accounting audit and standardization make up flexible capitalism s unique form of labor discipline This new form of management constitutes some workers as self auditing self regulating actors who are disembedded from a social context while defining others as too entwined in social relations and unable to self manage Privatizing Poland examines the effects privatization has on workers self concepts how changes in personhood relate to economic and political transitions and how globalization and foreign capital investment affect Eastern Europe s integration into the world economy Dunn investigates these topics through a study of workers and changing management techniques at the Alima Gerber factory in Rzesz w Poland formerly a state owned enterprise which was privatized by the Gerber Products Company of Fremont Michigan Alima Gerber instituted rigid quality control job evaluation and training methods and developed sophisticated distribution techniques The core principle underlying these goals and strategies the author finds is the belief that in order to produce goods for a capitalist market workers for a capitalist enterprise must also be produced Working side by side with Alima Gerber employees Dunn saw firsthand how the new techniques attempted to change not only the organization of production but also the workers identities Her seamless engaging narrative shows how the employees resisted redefined and negotiated work processes for themselves

Broken Glass, Broken Class Dimitra Kofti, 2023-08-11 Based on a long term study of the everyday postsocialist politics of labour in the wider context of intense socio economic transformation in Bulgaria this book tells the story of the flexibilization of production the precaritization of work shifting managerial practices and ways in which people with different employment statuses live and work together The ethnography starts with the rapidly moving conveyor belt of a glass factory where a variety of global and local forces and workers divisions meet and analyses how inequalities are reproduced both at the production site and back home *Development and Financial Reform in Emerging Economies* Kobil Ruziev, 2015-10-06 Modern development strategy relies heavily on uncompromising orthodox economic theory and a dogmatic faith in market efficiency In contrast the essays in this volume aim to emphasize the importance of historic experiences to evolve a more realistic and dynamic view of how such development could be formalized *Popular Culture and Subcultures of Czech Post-Socialism* Ondřej Daniel, Tomáš Kavka, Jakub Machek, 2017-01-06 This book draws on wide range of inspirations to provide a well balanced picture of the popular culture and subcultures of Czech post socialism What were the continuities and discontinuities of the post socialist popular culture mentalities and society during the period of late state socialism What were the different mechanisms of creating the Other in popular culture and subcultures This volume shows the diverse
