## **Radical Protest And Social Structure:**

Radical Protest and Social Structure Michael Schwartz, 1988-07-25 Michael Schwartz's book is really three books in one: an analysis of the structural changes that produced one of the most oppressive social systems the world has known, the one-crop cotton tenancy economy and the system of institutionalized racism and authoritarian one-party politics that was required to preserve the fragile economic arrangement; a theoretical analysis of the origins, mobilization, and outcome of insurgent challenges; and a meticulous application of that theory to the rise and collapse of the Populist movement. Craig Jenkins, *Theory and Society: The Louisiana Populist Movement, 1881-1900*, 2011-05-18. The Populist movement of the late nineteenth century represents one of the largest third-party challenges in American history. Throughout the South, widespread drops in crop prices led to agrarian revolt, which contributed to the movement's popularity. Yet in the largely rural state of Louisiana, despite the political group's focus on empowering distressed farmers, this challenge proved far less successful. In Donna A. Barnes's *The Louisiana Populist Movement*, the question of ineffectuality makes an intriguing political case study of the Pelican State and Populism Emerging in the 1890s as the political wing of the Southern Farmers Alliance, the Populists or People's Party garnered the support of millions of rural southerners. But the affiliated Louisiana party struggled to spread beyond a limited number of parishes in the northern and central part of the state. According to Barnes, the movement's relatively poor mobilization record provides an excellent opportunity to explore factors that impede social growth. Most scholars she contends often focus on the emergence and rise of successful political organizations and overlook the valuable observations to be found within less successful movements such as Louisiana Populism. In her evaluation, Barnes points to racial division as the factor that undermined the Populist cause in Louisiana. The Democratic Party saw the agenda of the Populist movement as a threat to white supremacy and thus, when paired with the 1898 state constitution that disfranchised poor rural whites and most blacks, predestined the People's Party to poor public reception. Based on an array of archival research, Barnes's study offers the definitive source for the history of the Louisiana Populist Movement as well as a multidimensional theoretical analysis of the factors behind the movement's failure. **Farmers in Rebellion** Donna A. Barnes, 2014-06-23. The years after the Civil War brought struggle to the Southern farmer as the economic mainstay of the South, cotton steadily dropped in price. Prompted by hard times, farmers in Lampasas County, Texas gathered in 1877 to discuss what could be done. From these modest origins emerged the National Farmers Alliance and Industrial Union, later known as the Southern Farmers Alliance, a powerful protest movement that played an important role in the formation in 1892 of a new political force, the People's Party. In the solid South, particularly in Texas, large numbers of voters abandoned the Democratic Party for the new party. Yet despite this support, the decline of the People's Party after 1894 was swift. *Farmers in Rebellion* recounts the compelling story of these two crucial and closely related movements. Donna A. Barnes examines their developmental histories, asking such important questions as: Under what conditions do protest

movements remain weak Under what conditions do they prosper amassing large numbers of supporters And under what conditions do successful protest movements lose their momentum and die The author explores these complex questions with deft use of archival data that allows her to reflect on the adequacy of the past sociological answers to these questions
