Your Life Rebekah Borucki, 2017-02-28 I don't have time to meditate Rebekah Bex Borucki has heard this a lot. A certified yoga and meditation teacher she's taught hundreds of thousands of people how to create simple yet powerful meditation practices. In fact, as she'll show you in this book, in as little as 4 minutes you can change your life. After years of suffering from anxiety and depression both as a child and as an adult, Bex took control of her mental and physical health by establishing a rigorous fitness and yoga routine that quickly evolved into her own regular homegrown 4-minute daily meditation practice. Bex's 4-minute meditations combine mantras, affirmations, breathing, and bodywork techniques, and they're designed so that even the busiest people can fit them into their lives. In this book, Bex guides you through 27 different meditation practices and shares personal stories that demonstrate how meditation has helped her overcome various challenges. She also answers commonly asked questions like "Do my eyes have to stay closed?" and "What do I do if my body starts to hurt?" provides technical information about props, postures, and mantras, and offers tools to cope with complex issues such as grief, body acceptance, and relationships. By spending just 4 minutes a day with this practice, you will find deep, meaningful, and lasting healing.

Climate Change in an Aging Society Harry R. Moody, 2024-12-03 *Climate Change in an Aging Society* is the first book fully devoted to the impact of climate change on those who are old today and those who will be old in decades to come. In doing so, Moody focuses on issues of critical importance: aging in place, health, and age in a warming world. Responsibility for the climate crisis, options for climate-conscious consumers, planning for investment for a green retirement, and opportunities for political action. The number of Americans aged over 65 is projected to rise from 17% to 21%. By 2060, nearly one in four Americans will be 65 or older. By 2050, however, average temperatures in the USA could rise by as much as 3°C, and extreme weather events are likely to become more frequent and severe. Despite these alarming projections and the likelihood that climate change will cause serious health issues among the elderly, little attention has been devoted to the impact of climate change on this demographic. Employing a life-course perspective and a cross-generational approach, Moody assesses the impact of climate change on those who are old today and those who will be old in years to come. Challenging both climate complacency and climate defeatism, the book adopts as its clarion call: HERE NOW YOU HOPE. Written in an engaging, personal style with highlighting case studies of influential eco-elders, this urgent book will be of great interest to students and scholars with interests in climate change, gerontology, and environmental and social policy. *The Complete Idiot's Guide Dream Dictionary* Dream Genie, Eve Adamson, 2007-02-06 15,000 entries from abduction to zebra.
