## Raf Today:

The RAF's Armourers Tony Lamsdale, Phil Appleby, 2023-11-23 It is said that one of the earliest trades in the world is that of the armorer Historically it is a profession dated slightly after prostitution but well before banking Since the birth of the Royal Flying Corps in 1912 through to the modern Royal Air Force the role of the armorer has been pivotal Not for nothing did the founder of the RAF Lord Trenchard once declare The armorer without him there is no need for an air force In the years since the need for RAF armorers was first recognized it has been a role that has evolved with the times What has remained constant however is the fact that it is still a fascinating and potentially dangerous trade with many different branches and specialisms In this book the authors one of whom Tony Lamsdale is himself a former RAF armorer reveal the previously untold story of how the trade has adapted to the most modern of military machines the aircraft The authors look at the shared history of the armorer and the RAF through the eyes of those who served These veterans stories span decades and their first hand accounts and insights into conflict and peace time operations demonstrate the qualities and characteristics that make armorers unique The book starts with a brief history of the armorer then before capturing the adventures and exploits of RAF armorers from the Second World War and on into the Cold War The dangerous duties of the armorers on deployment in such places as the Falklands Iran Iraq or Afghanistan are all explored There is also the question of having to learn of bomb dumps the use of small arms and the unique world of the armorer with its own peculiar language and the camaraderie of the crew room With each chapter brought to life through personal anecdotes and shared experiences this book provides an insight into an utterly essential role which has remained largely hidden until now *The Royal Air Force at Home* Ian Watson, 2010-06-19 Military public relations endeavors ultimately seek to build a sense of common interests and aims and so generally foster good relations with the people they defend and there in ensure a stable society The armed forces when engaging on any public relations exercise have traditionally sought to provide an entertaining spectacle For years this has been typified by parades bands mock battles drill displays and other relevant feats of military prowess which have captured the imagination of the public and inspired potential recruits The 20th Century brought a new dimension to the field of warfare and subsequently added a new strand to the fabric of public ceremony and displays by the armed forces That new dimension was the arrival of powered flight Display flying began within five years of the Wright Brothers making their milestone first flight The first events staged in Britain which centered on demonstrations by flying machines were organized by the town councils of Blackpool and Doncaster and were held within days of each other in October 1909 1920 was the year that the first of the famed and legendary Hendon Air Pageants was staged and this is where military air shows traditionally began The Hendon Displays were organized and staged by the still fledging Royal Air Force and it was probably due in no small part to the prestige and spectacle of this fresh new dimension of military pageantry together with other like events held at RAF airfields through the next two decades that the very existence of the RAF was saved from the threat of abolition The

history of the RAF's commitment one that compares almost uniquely with other air forces toward display flying through the years after World War II has now come of age. This account of their record in this often overlooked but then again traditional field of military customs describes and illustrates the major public RAF events since 1920. **RAF in Camera** Keith Wilson, 2022-09-15. In July 2018 the nation looked skyward over Buckingham Palace in awe as the Royal Air Force celebrated its first 100 years with a spectacular parade and flypast over London. This event demonstrated a very different perspective of the RAF well away from its operational commitments. The expertise and precision of those RAF pilots flying in some of the most famous aircraft in the world has been displayed since the very first days of military aviation. The Inter War period was dominated by the Hendon Air Pageants where many aircraft made their public appearance. Post war it was the turn of the jet display teams with the Black Arrows and Firebirds laying the foundations for the aerial mastery that is today's Red Arrows. The various anniversaries have seen a growth in special artwork being applied to aircraft flown by squadrons celebrating key anniversaries. This is covered in considerable detail within this volume. On the ground the RAF is represented at major celebrations and key public events by the Queen's Colour Squadron which demonstrates its world famous continuity drill routine while providing a guard of honor for visiting Heads of States. They are frequently accompanied with the Service's own bands which have grown from those created by its squadrons over a century ago. From the Berlin Airlift in 1948 to flood relief in Kenya and the international relief effort in the Caribbean following Hurricane Irma in 2017 the RAF has been deployed overseas in response to numerous international crises. But aid operations have also been mounted at home. Under the banner of Military Aid to the Civil Powers helicopters and aircraft have airlifted food and supplies to areas cut off by severe weather. Sea King helicopters have rescued villagers stranded by flash flooding in Boscastle while Chinook helicopters have assisted with the rebuilding of flood defenses breached by severe floods across the country. The golden age of record breaking also features in this book. From long range flights to South Africa and Australia the Schneider Trophy triumph speed records in the jet age along with altitude records with pilots in special pressure suits the RAF has demonstrated its reputation as a truly pioneering Air Arm. Keith Wilson takes us on a journey through the Royal Air Force's public persona during their 100 year history. All landmark events are referenced in this thorough well researched and image packed publication. As with the three previous releases this new addition to the In Camera series is sure to be regarded as something of a collector's edition and a real enthusiast's favorite. **Educating Air Forces** Randall Wakelam,David Varey,2020-12-01 Compared to armies and navies which have existed as professional fighting services for centuries the technology that makes air forces possible is much newer As a result these services have had to quickly develop methods of preparing aviators to operate in conditions ranging from peace or routine security to full scale war The first book to address the history and scope of air power professionalization through learning programs Educating Air Forces offers valuable new insight into strategy and tactics worldwide Here a group of international experts examine the philosophies policies and practices of air service educational efforts in the United States France Italy Germany Australia Canada and the UK The contributors discuss the founding successes and failures of European air force learning programs between the Great War and World War II and explore how the tense Cold War political climate influenced the creation curriculum and results of various programs They also consider how educational programs are adapting to soldiers needs and the demands of modern warfare Featuring contributions from eminent scholars in the field this volume surveys the learning approaches globally employed by air forces in the past century and evaluates their effectiveness Educating Air Forces reveals how experiential learning and formal education are not only inextricably intertwined but also necessary to cope with advances in modern warfare *German Cinema - Terror and Trauma* Thomas Elsaesser,2013-10-30 In German Cinema Terror and Trauma Since 1945 Thomas Elsaesser reevaluates the meaning of the Holocaust for postwar German films and culture while offering a reconsideration of trauma theory today Elsaesser argues that Germany s attempts at mastering the past can be seen as both a failure and an achievement making it appropriate to speak of an ongoing guilt

management that includes not only Germany but Europe as a whole In a series of case studies which consider the work of Konrad Wolf Alexander Kluge Rainer Werner Fassbinder Herbert Achterbusch and Harun Farocki as well as films made in the new century Elsaesser tracks the different ways the Holocaust is present in German cinema from the 1950s onwards even when it is absent or referenced in oblique and hyperbolic ways Its most emphatically absent presence might turn out to be the compulsive afterlife of the Red Army Faction whose acts of terror in the 1970s were a response to as well as a reminder of Nazism s hold on the national imaginary Since the end of the Cold War and 9 11 the terms of the debate around terror and trauma have shifted also in Germany where generational memory now distributes the roles of historical agency and accountability differently Against the background of universalized victimhood a cinema of commemoration has if anything confirmed the violence that the past continues to exert on the present in the form of missed encounters retroactive incidents unintended slippages and uncanny parallels which Elsaesser reviving the full meaning of Freud s Fehlleistung calls the parapractic performativity of cultural memory

*How Strategic Airpower has Changed the World Order* Nigel David MacCartan-Ward, Anthony Wells, 2024-06-30 This work demonstrates how maritime deterrence strategy in a challenging world is critically underpinned by strategic air power at sea and on land In this book the history and utility of land and carrier based strategic airpower is brought to life by the gallant exploits and photographs of B 17 aircraft Quittin Time and of its Navigator Fred Julian in the Second World War and by the unforgiving and unswerving dedication of Sharkey Ward and his Sea Harrier team in the Falklands war The overarching message is that the strategic airpower lessons of the past eight decades underpin the urgent need for the UK government to invest more wisely in its Fleet so that the latter may work effectively in conjunction with the US Navy on the global mission to deter those that would harm us and to maintain the freedom of passage of all shipping throughout the global commons The authors show how a maritime deterrence strategy in a challenging world is critically underpinned by strategic air power at sea and on land

**Review of Current Military Literature**, 1945 Europe's Red Terrorists Yonah Alexander, Dennis A. Pluchinsky, 2012-11-12 This unique volume explores Europe's most dangerous communist terrorist organizations and reveals how they use violence as a means of political communication and persuasion. It outlines seven terrorist groups from Germany, Greece, Spain, France, Belgium, Italy, and Turkey and gives their modus operandi, rationale, and political messages in translated communiqués never before available in English.

**Tolerating Terrorism in the West** Noemi Gal-Or, 2015-06-18 Has terrorism lost the power to shock and appal? Have liberal democracies learned to tolerate terrorism? Using case studies of governments and societies' responses to terrorism, this book (first published in 1991) shows how attitudes towards terrorism have developed. Five western countries with differing political structures and histories are studied: Belgium, the Federal Republic of Germany, Israel, Italy, and Spain. The analysis investigates the roles of social, political, legal, professional, and religious institutions and movements in formulating the approved attitude towards terrorism that governs political bodies as well as society at large. This book will be of interest to students of politics and sociology.

**RAF Handbook 1939-1945** David Wragg, 2007-01-18 It opens with a brief history of the service followed by a chapter that reviews its situation on the outbreak of war. The chapters that follow look at the structure of the RAF from the Air Ministry and Chief of the Air Staff down to squadron level to include each of the Commands including Transport Command, a creation of the war years. The main aircraft types used are listed as well as a full listing of squadrons and airfields in the British Isles. The training of personnel and such matters as uniforms, rank insignia, medals, and life on a typical airfield are also covered. The main battles or campaigns in which the service was involved are also described.

**RAF's Centenary Flypast** Kevin Lee Gatland, 2021-05-30 On 10 July 2018, exactly 100 years and 100 days after the formation of the world's first independent air force, 103 aircraft of twenty-four types from twenty-five squadrons flew over London in the largest formation of military aircraft seen over the capital of the UK in nearly thirty years. Involving over 250 aircrew and operating out of fourteen military and two civilian airfields with nineteen back-up aircraft and a standby air-to-air refueling tanker, the Royal Air Force put on an unrivaled display to mark the centenary of its creation on 1 April 1918 in the closing months of the First World War. Exemplifying that long and proud history was the Spitfire, Hurricane, Lancaster, and Dakota of the Memorial Flight, as well as the enduring Hercules with the newly acquired F-35B Lightning, displaying the RAF's continuing global importance. This book reveals how the flypast was conceived and examines the detailed planning involved in the event, written by someone who would know: the project manager and coordinator. The composition and size of the flypast was truly momentous, comprising virtually every type of aircraft that the RAF operated at the time. As Chief of Staff at the Tornado GR4 Force Headquarters operating from RAF Marham and an experienced Tornado GR4 Navigator Wing Commander, Kevin Gatland had the task of pulling together all the necessary components, both military and civilian, required to produce an unrivaled aerial display. This involved considering the feasibility of assembling so many

varied types of aircraft all with different speeds and capabilities in addition to concentrating them into a tight schedule to produce a virtually continuous stream of aircraft over central London with elements breaking off to pass over the northerly runway at Heathrow Airport the RAF Memorial at Runnymede Windsor Castle and the RAF Museum at Hendon Beautifully illustrated with glorious color in flight photographs of the magnificent aircraft of the current RAF as well as the briefing and planning session this book demonstrates the enormous range of factors that had to be taken into consideration to produce the amazing spectacle that was witnessed by the Queen from Buckingham Palace and the thousands who gathered in The Mall an event captured in the pages of this fascinating book **The RAF and Aircraft Design** Colin S Sinnott,2014-05-22 This work examines the evolution of the RAF s operational requirements for its home defence air force for bombers to mount a deterrent counter offensive and for fighters to provide direct defence of Britain It discusses the management processes policies and decisions relevant to operational requirements on the basis of a detailed study of Air Ministry papers of the time By tracing the development of operational requirements the author exposes the thinking behind the RAF s quest for effective fighter and bomber aircraft He describes the ideas and concepts of air warfare that were adopted in the 1920s and shows how these evolved into the Air Staff s requirements for the aircraft which the RAF entered and fought in World War II Air Force Journal of Logistics ,1983
