Rage For Glory The Life Of Commodore Stephen Decatur Usn:

A Rage for Glory James T. De Kay, 2004 A vivid and intelligent biography of one of America's greatest naval legends 256 pp

A Rage for Glory James Tertius de Kay, 2010-05-11 Stephen Decatur was one of the most awe-inspiring officers of the entire Age of Fighting Sail. A real-life American naval hero in the early nineteenth century, he led an astonishing life and his remarkable acts of courage in combat made him one of the most celebrated figures of his era. Decatur's dazzling exploits in the Barbary Wars propelled him to national prominence at the age of twenty-five. His dramatic capture of HMS *Macedonian* in the War of 1812 and his subsequent naval and diplomatic triumphs in the Mediterranean secured his permanent place in the hearts of his countrymen. Handsome, dashing, and fearless, his crews worshipped him, presidents lionized him, and an adoring public heaped fresh honors on him with each new achievement. James Tertius de Kay is one of our foremost naval historians. In *A Rage for Glory*, the first new biography of Decatur in almost seventy years, he recounts Decatur's life in vivid colors. Drawing on material unavailable to previous biographers, he traces the origins of Decatur's fierce patriotism. My country, right or wrong, chronicles Decatur's passionate love affair with Susan Wheeler and provides new details of Decatur's tragic death in a senseless duel of honor secretly instigated by the backroom machinations of jealous fellow officers determined to ruin him. His death left official Washington in such shock that his funeral became a state occasion attended by friends who included former President James Madison, current President James Monroe, Chief Justice John Marshall, and ten thousand more. Decatur's short but crowded life was an astonishing epic of hubris, romance, and high achievement. Only a handful of Americans since his time have ever come close to matching his extraordinary glamour and brilliance.

Our Country, Right or Wrong Leonard F. Guttridge, 2025-06-25 Blazing sea fights and undercurrents of intrigue: these are among the compelling ingredients of a biography that brings to life the most illustrious and formidable figure of the United States Navy. His name is carried by more than two dozen towns and cities. Here at last is a full exploration of Stephen Decatur's complex character. Reckless in youth, cool yet audacious in combat, loved by those who sailed under his command yet plotted against by rivals in the race for glory, Decatur is brought to life in this enthralling sea story. Decatur's heroism became widespread news in 1804 when sent to reclaim a captured U.S. vessel from Tripoli. In the Barbary Wars, he ordered his men to set fire to the captured vessel and proceed to attack the sailors of the Tripoli fleet in hand-to-hand combat. His brilliance continued through the War of 1812, after which he was promoted to the highest naval rank of Commodore. Decatur not only proved dauntless on the quarterdeck but amazingly effective in Mediterranean diplomacy. His spectacular dealings with Islamic powers presaged America's twenty-first-century involvement in the region. Readers will also learn the identity of the woman he forsook for a sophisticated beauty pursued by suitors as varied as Napoleon Bonaparte's younger brother and Aaron Burr. Through freshly discovered documents, many official, some intensely personal, biographer Leonard Guttridge traces the elements that sped Decatur inexorably into the shadow of murder. Here at last is the full story of the man who

raised the most memorable toasts in the history of American celebrations when he declared in 1816 Our country In her intercourse with foreign nations may she always be in the right but our country right or wrong At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied

To Risk It All Admiral James Stavridis, USN, 2022-05-24 From one of the great naval leaders of our time a master class in decision making under pressure through the stories of nine famous acts of leadership in battle drawn from the history of the United States Navy with outcomes both glorious and notorious At the heart of Admiral James Stavridis s training as a naval officer was the preparation to lead sailors in combat to face the decisive moment in battle whenever it might arise In *To Risk it All* he offers up nine of the most useful and enthralling stories from the US Navy s nearly 250 year history and draws from them a set of insights that we can all put to use when confronted with fateful choices Conflict Crisis Risk These words have a distinct meaning in a military context that we hope will never apply identically in our own lives But at the same time as Admiral Stavridis shows with great clarity many lessons are universal *To Risk it All* is filled with thrilling and heroic exploits but it is anything but a shallow exercise in myth burnishing Every leader in this book has real flaws as all humans do and the stories of failure or at least the decisions that have been defined as such are as crucial as the stories of success In the end when this master class is concluded we will be better armed for hard decisions both expected and not

Leadership Embodied, 2nd Edition Joseph J Thomas, 2013-10-15 Leadership is a most demanding undertaking How do some people make it seem so simple so natural and instinctive In the age old debate as to whether leaders are born or made Thomas contends that the answer is both Great leaders throughout history were born with certain capabilities Preparation honed those capabilities Then that ability and preparation were combined with a will to lead When circumstances demanded the great leaders of history pulled these attributes together to create results that drove the course of history While leaders are present in every aspect of human undertaking we chose to illustrate each of the components of leadership through the most dramatic and demanding of all human undertakings war and the preparations for war Wartime leaders are leaders writ with a darker pen Wartime challenges are because of the life and death nature of the affair more monumental and exacting In the selection of individuals to illustrate each point we chose wartime leaders as well as those who guided their subordinates and organizations in preparation for combat Further we chose American leaders with a distinct and obvious bias towards the navy and Marine Corps Multiple reasons led us to our approach for Leadership Embodied First a biography is perhaps the most effective method for imparting leadership lessons Simple listings of prescriptive traits or descriptive qualities are patronizing and frequently boring Second our biographical examples are familiar to most or at least they should be Finally all of these historical selections have dramatically shaped today's institutions practices and customs within the naval services These are not marginal figures with marginal influence The

individuals included and their respective leadership attributes should be required reading for any student of leadership. Each has a particular lesson for midshipmen on their journey to becoming a navy or Marine Corps officer. This book does not promise to be a panacea. There is no short cut. Leadership does not follow a prescribed path. We study examples to inspire us to become better, to be strong when it is easy to give in, and to know others have gone before us and faced insurmountable odds. Leadership, as an ill-defined social science, crosses boundaries with several disciplines, including sociology, psychology, philosophy, and history. We have selected a method that combines the psychological profile of effective leaders and the historical context of the impact their leadership brought to organizations and events. Our hope for this book is that these case studies illustrate the basic elements in themselves, the very essence of leadership. It is through inherent talent, arduous preparation, and practical experience that we become capable leaders. The reader brings the first to the table; then we offer a small token in the second pursuit, and circumstances enable the third.

The Barbary Wars Frank Lambert, 2007-01-09. The history of America's conflict with the piratical states of the Mediterranean runs through the presidencies of Washington, Adams, Jefferson, and Madison: the adoption of the Constitution, the Quasi War with France, and the War of 1812, the construction of a full-time professional navy, and most important, the nation's halting steps toward commercial independence. Frank Lambert's genius is to see in the Barbary Wars the ideal means of capturing the new nation's shaky emergence in the complex context of the Atlantic world. Depicting a time when Britain ruled the seas and France most of Europe, *The Barbary Wars* proves America's earliest conflict with the Arabic world was always a struggle for economic advantage rather than any clash of cultures or religions.

Perfect Likeness Cincinnati Art Museum, Julie Aronson, Marjorie E. Wieseman, Cynthia Amnéus, Columbia Museum of Art, 2006-01-01. Diminutive marvels of artistry and fine craftsmanship: portrait miniatures reveal a wealth of information within their small frames. They can tell tales of cultural history and biography of people and their passions, of evolving tastes in jewelry, fashion, hairstyles, and the decorative arts. Unlike many other genres, miniatures have a tradition in which amateurs and professionals have operated in parallel, and women artists have flourished as professionals. This richly illustrated book presents approximately 180 portrait miniatures selected from the holdings of the Cincinnati Art Museum, the largest and most diverse collection of its kind in North America. The book stresses the continuity of stylistic tradition across Europe and America, as well as the vitality of the portrait miniature format through more than four centuries. A detailed catalogue entry, as well as a concise artist biography, appears for each object. Essays examine various aspects of miniature painting, of the depiction of costume in miniatures, and of the allied art of hair work.
