The book explores this relationship to explain the development of Foucault's thinking about power. Using newly translated and unpublished materials, it examines what led Foucault to take on the question of power in the early 1970s and subsequently refine his thinking, working through different models, war, and government, and modalities: disciplinary, biopolitical, and governmental. Looking at Foucault's political trajectory from his immersion in the prisoner support movement to his engagements with the Iranian revolution and Solidarity in Poland, the book shows the militant underpinning of his interest in the question of power and its various shifts and mutations. This thorough account, which includes the first translation of a report edited by Foucault on prison conditions, will provide students in contemporary political theory with a better understanding of Foucault's thinking about power and of the interplay between political activities and theoretical productions.
