Renewing Christianity A History Of Church Reform From Day One To Vatican II:

Renewing Christianity Christopher M. Bellitto, 2001 This book follows the tide of reform and renewal in Church history and demonstrates that reform has always been an essential element of Christianity Indeed Christopher Bellitto emphasizes that reform should not be perceived as limited to the Reformation or Vatican II As one learns from the author's analysis the history of Christianity is little other than the history of reform This sweeping assessment of Church history is both remarkable and deep but is also highly readable Bellitto begins with an introduction to the subject of reform and follows that with chapters on the patristic period and Carolingian Renaissance the High Middle Ages 1050 1300 Avignon to Trent From Trent to Modernity and Vatican II He ends with a conclusion that draws together the recurring themes and patterns of reform activity in the Church In short this is a unique book on the subject of Church reform *Renewing Christianity* is useful to both scholars and non academics alike It is written in a learnedly popular style and would appeal to clergy seminarians academics graduate students or anyone interested in Church reform and renewal Church history or historical theology

Before the Gregorian Reform John Howe, 2016-04-01 Historians typically single out the hundred year period from about 1050 to 1150 as the pivotal moment in the history of the Latin Church for it was then that the Gregorian Reform movement established the ecclesiastical structure that would ensure Rome's dominance throughout the Middle Ages and beyond In *Before the Gregorian Reform* John Howe challenges this familiar narrative by examining earlier pre Gregorian reform efforts within the Church He finds that they were more extensive and widespread than previously thought and that they actually established a foundation for the subsequent Gregorian Reform movement The low point in the history of Christendom came in the late ninth and early tenth centuries a period when much of Europe was overwhelmed by barbarian raids and widespread civil disorder which left the Church in a state of disarray As Howe shows however the destruction gave rise to creativity Aristocrats and churchmen rebuilt churches and constructed new ones competing against each other so that church building like castle building acquired its own momentum Patrons strove to improve ecclesiastical furnishings liturgy and spirituality Schools were constructed to staff the new churches Moreover Howe shows that these reform efforts paralleled broader economic social and cultural trends in Western Europe including the revival of long distance trade the rise of technology and the emergence of feudal lordship The result was that by the mid eleventh century a wealthy unified better organized better educated more spiritually sensitive Latin Church was assuming a leading place in the broader Christian world *Before the Gregorian Reform* challenges us to rethink the history of the Church and its place in the broader narrative of European history Compellingly written and generously illustrated it is a book for all medievalists as well as general readers interested in the Middle Ages and Church history

Vatican II Massimo Faggioli, 2012 The death of John Paul II and the election of Benedict XVI constituted two important elements in the broad theological and cultural landscape of Catholicism This change of pontificate has also nourished the journalistic and political dispute about Vatican II its history and

its legacy and not only the historiographical and theological debate But the research on Vatican II is already proceeding forward and beyond the state of knowledge about the Council reached at the end of the 90s For 21st century Catholics and theologians interested in understanding contemporary Catholicism in the light of Vatican II the intellectual undertaking is far from accomplished yet The book offers comprehensive presentation of the theological and historiographical debate about Council Vatican II The attempt to go beyond the clash of interpretations Vatican II as a rupture in the history of Catholicism on one side the need to read Vatican II in continuity with the tradition on the other is necessary indeed because the ongoing debate about Vatican II is largely misrepresented by the use of clashing interpretations as a tool for understanding the role of the council in present day Catholicism

The General Councils Christopher M. Bellitto, 2002 A succinct up to date and chronological history of the 21 general councils along with their major tasks achievements and failures and their impact on their times

The Church in the Early Modern Age C. Scott Dixon, 2016-03-24 The years 1450 1650 were a momentous period for the development of Christianity They witnessed the age of Reformation and Counter Reformation perhaps the most important era for the shaping of the faith since its foundation C Scott Dixon explores how the ideas that went into the making of early modern Christianity re oriented the Church to such an extent that they gave rise to new versions of the religion He shows how the varieties and ambivalences of late medieval theology were now replaced by dogmatic certainties where the institutions of Christian churches became more effective and modern staffed by well trained clergy Tracing these changes from the fall of Constantinople to the end of the Thirty Years War and treating the High Renaissance and the Reformation as part of the same overall narrative the author

offers an integrated approach to widely different national social and cultural histories Moving beyond Protestant and Catholic conflicts he contrasts Western Christianity with Eastern Orthodoxy and examines the Church's response to fears of Ottoman domination

Surrender to Christ for Mission Philip Sheldrake, 2018-10-16 This multi-author book celebrates the bicentenary of the Missionary Oblates of Mary Immaculate OMI founded by St Eugene de Mazenod and arises from an international conference on French spiritual traditions hosted by the Oblates in San Antonio Texas in November 2016 More broadly this book aims to make available to a wide readership the riches of the important family of French spiritual traditions originating between the seventeenth and nineteenth centuries not least the emphasis on mission to the poor French traditions have been greatly underestimated in conventional histories of Christian spirituality but their spiritual wisdom offers much to today's believers

Re-visioning the Church Neil Ormerod, 2014 According to longstanding tradition theology can be thought of as faith seeking understanding Ecclesiology then seeks to understand the theological reality we call church Re-Visioning the Church the outcome of nearly two decades of research and writing towards constructing a systematic historical ecclesiology applies a social scientific and historical outlook to the story of the emergence development and ongoing mission and ministry of the church Establishing a critical framework for understanding the structures of the church the work is a wide scale exploration of the religious cultural and social dimensions of what it means to be the church and what structures and ministries form the fundamental parts of ecclesial life in its relationship to the kingdom The heart of the project is a detailed account of the history development and change across the centuries of the church that takes the story from the apostolic band of witnesses to the dramatic global event of the Second Vatican Council

THE ECUMENICAL IMPERATIVE AND FORMATION OF ECUMENICAL CONSCIOUSNESS AMONG PASTORAL WORKERS SEBASTIAN CHUKWUMA ANOKWULU, 2013-09 The idea of the Church as the instrument of unity had existed before Second Vatican Council but the Council made the search for unity explicitly an imperative From the Second Vatican Council emerged a more emphatic vision of the mission of the Church to the world in which ecumenism is no longer an option but an imperative From the time of the Council onward every Christian should positively respond to God's question to Cain Where is your brother Gen 4:9 The ecumenical imperative is primarily the responsibility of pastoral workers The book surveys in epochs the historical changes that have occurred in the Church up to Vatican II reviews reception along the ages of the Church pointing to the uniqueness of Vatican II and gives through biblical exegesis of conversion a fresh understanding that will help pastoral workers to be ever conscious and ready to serve as Church's instrument of unity wherever they are This book re-awakens the spirit of the Decree on Ecumenism *Unitatis Redintegratio* offering it to be properly received by all who pray with Christ for unity Jn 17:21 It proposes pastoral suggestions on the practice of Ecumenism

Reformation Observances: 1517-2017 Philip D. W. Krey, 2017-08-09 The year 2017 marks the five hundredth anniversary of the Reformation if that event is dated from the posting of Martin Luther's Ninety Five Theses Admittedly 2017 is an arbitrary and somewhat artificial milestone

Nevertheless anniversaries can be special occasions that allow for an appreciation and evaluation of memorable persons and events As a number of Reformation anniversaries approach the historical significance of the Reformation merits increased attention Employing a variety of historiographical methods from intellectual history to postcolonial theory this volume demonstrates how four major traditions observed the Reformation Lutheran Anglican Reformed and Roman Catholic The foreword and preface place the essays into the contemporary and broader historical contexts in the history of reform Commemorations of the Reformation varied in different periods often influenced by immediate historical contexts How are those sixteenth century events which caused both renewal and conflict in church and society as well as divisions between those expressions to be viewed in the twenty first century in a setting broader than Europe Introducing Nicholas of Cusa Bellitto, Christopher M.,Izbicki, Thomas M.,Christianson, Gerald,2004 A primer on the the vocabulary ideas and works of this leading Renaissance thinker of the fifteenth century who wrote on everything from papal politics to astronomy to interreligious dialogue The 'Commentaries' of Pope Pius II (1458-1464) and the Crisis of the Fifteenth-Century Papacy Emily O'Brien,2015-10-05 Written in the mid fifteenth century Pope Pius II s Commentaries are the only known autobiography of a reigning pontiff and a fundamental text in the history of Renaissance humanism In this book Emily O'Brien positions Pius expansive autobiographical text within that century s contentious debate over ecclesiastical sovereignty Presenting the Commentaries as Pius response to the crisis of authority legitimacy and relevance that was engulfing the Renaissance papacy she shows how the Commentaries function as both an aggressive assault on the papal monarchy s chief opponents and a systematic defense of Pius s own troubled pontificate and his pre papal career Illustrating how the language imagery and ideals of secular power inform Pius apologetic self portrait The Commentaries of Pope Pius II 1458 1464 and the Crisis of the Fifteenth Century Papacy demonstrates the role that Pius and his writings played in the evolution of the Renaissance papacy Reassessing Reform Christopher M. Birkholz, Jonathan Mumme, Richard J. Serina, Jr., 2019-06-25 What is Lutheran ecclesiology The Lutheran view of the church has been fraught with difficulties since the Reformation Church as Fullness in All Things reengages the topic from a confessional Lutheran perspective Lutheran theologians and clergy who are bound to the Holy Scriptures and the Lutheran Confessions explore the possibilities and pitfalls of the Lutheran tradition s view of the church in the face of contemporary challenges The contributors also take up questions about and challenges to thinking and living as the church in their tradition while looking to other Christian voices for aid in what is finally a common Christian endeavor The volume addresses three related types of questions faced in living and thinking as the church with each standing as a field of tension marked by disharmonized though perhaps not inherently opposite poles the individual and the communal the personal and the institutional and the particular and the universal Asking whether de facto prioritizations of given poles or unexamined assumptions about their legitimacy impinge the church Lutherans seek the volume closes with Anglican Reformed and Roman Catholic contributors stating what their ecclesiological traditions could learn from Lutheranism and vice versa
