Reorientations Looking East:

Iran Looking East Annalisa Perteghella, 2020-01-12 In February 2018 anticipating the US withdrawal from the JCPOA Iran's Supreme Leader Ayatollah Ali Khamenei declared a policy of preferring East over West thus paving the way for deeper cooperation with Asian powers such as China Russia and India Differently from the Look East policy promoted during the presidency of Ahmadinejad 2005-2013 the current Iranian strategy is not only functional to escape the US led isolation but it rather seems devoted to the consolidation of a block of power which can commit to security and economic schemes in alternative to the Western dominated ones This ISPI report aims to answer few crucial questions Which are the major initiatives promoted within Iran's Look East 20 strategy To what extent will Tehran succeed in creating a solid Eastern block What will be the influence of the wider geopolitical context And finally what role is left for the EU

The Jadavpur Association of International Relations with the financial assistance from the Indian Council of Social Science Research ICSSR New Delhi *Output Decline in Eastern Europe* R. Holzmann, János Gács, G. Winckler, 2012-12-06 The first phase of transition to a market economy in Central and Eastern Europe was characterized by a sharp output decline The fall in real GDP exceeded 20% while real industrial production decreased even by 40% Output Decline in Eastern Europe aims at providing comprehensive multi factor explanations for this unique painful experience Various hypotheses are analyzed credit and fiscal policies may have been too tight the collapse of the CMEA and the USSR came as a shock domestic producers were neither experienced nor flexible enough to adjust the output to new patterns of demand Output Decline in Eastern Europe contains a unique combination of authors from East and West who extensively analyze new data based on country studies Understanding the causes of recent output decline the subject matter of this volume may help to assess the prospects for Eastern Europe The book is addressed to researchers and students as well as interested officials who deal with the transition of formerly centrally planned economies in Central and Eastern Europe **The East India Company** Philip Lawson, 2014-01-14 This is the first short history of the East India Company from its founding in 1600 to its demise in 1857 designed for students and academics The Company was central to the growth of the British Empire in India to the development of overseas trade and to the rise of shareholder capitalism so this survey will be essential reading for imperial and economic historians and historians of Asia alike It stresses the neglected early years of the Company and its intimate relationship with and impact upon the domestic British scene Cultural Dimensions of India's Look-Act East Policy Sarita Dash, 2023-09-09 Tracing the cultural interactions between South and Southeast Asia since prehistoric times the book critically scrutinizes the current cultural diplomacy initiatives of India's Look Act East Policy Reminding the need to look at culture as a two way process and the need to re define the understanding of culture in its Space Age setting the author emphasizes on India realising its unique multicultural potentiality to broaden the outlook and parameters of cultural diplomacy to suit the unfolding World Order in the region The nature and composition of the demography of Southeast Asia and its Indian diaspora calls for a balanced approach in covering the land and maritime sectors the book further observes Adopting a peoples centric approach the author argues for cultural interactions to go beyond the union government and its agencies and advocates for the role of state governments non governmental actors and other community initiatives as well
