## **Report Of The 1994 1996 Advisory Council On Social Security Volume 1 Findings And Recommendations:**

Social Security John Attarian, 2017-07-05 One of today's most important national concerns is the projected bankruptcy of Social Security some time in the next few decades and its consequent inability to pay full benefits on time. Yet despite two decades of warnings about this, nothing is being done. The saying that Social Security is the third rail of American politics, touch it and you die, still holds true. In *Social Security False Consciousness and Crisis*, John Attarian argues that the major cause of the current impasse is the misleading manner in which the program has been depicted to the public and the beliefs about Social Security which prevail as a result. *The Political Future of Social Security in Aging Societies* Vincenzo Galasso, 2006 A quantitative analysis of the political sustainability of social security reform in France, Germany, Italy, Spain, the UK, and the US, with the suggestion that population aging will lead to more pension spending and that raising the retirement age is the most politically viable reform measure. *Heterogeneity in Health and Mortality Risk Among Early Retiree Men* Hilary Waldron, 2004 Social Policy and Aging Carroll L. Estes, 2001-03-30 This groundbreaking book provides comprehensive treatment of the political economy of aging by a scholar widely credited as the founder and key thinker of this field in the US and internationally. The body of work presented in this volume in developing this critical perspective aims to contribute to the understanding of old age and aging in the context of problems and issues of the larger social order in the world's most advanced capitalist nation, the U.S.A. Since Estes first writing on the political economy of aging in 1979, there has been growing recognition and incorporation of her critical perspective as one of the major paradigms in the field of aging. Social Security Bulletin, 2000 **The Radical Center** Ted Halstead, Michael Lind, 2002-11-12 Record numbers of Americans describe themselves as independents and reject the conventional agendas of Left and Right. In this widely acclaimed book, Ted Halstead and Michael Lind explain why today's ideologies and institutions are so ill suited to the Information Age and offer a groundbreaking blueprint for updating all sectors of American society. Taking on partisans and experts on both sides of the political divide, they propose far-reaching reforms for the way we provide health and retirement security, collect taxes, organize elections, enforce civil rights, and educate our children. Twice before, the United States has dramatically reconfigured itself, shifting from an agrarian to an industrial society after the Civil War and successfully adapting to the massive technological and demographic changes of the early twentieth century during the New Deal era. Uniting a sweeping historical vision with bold policy proposals, *The Radical Center* shows us how to reinvent our nation once again so that all Americans can reap the benefits of the Information Age. **Challenges of an Aging Society** Rachel Pruchno, Michael A. Smyer, 2007-09-10 In this important and timely collection, some of the best minds in gerontology and bioethics, including Nancy Dubler, Rick Moody, Andrew Achenbaum, Robert Hudson, and Robert Binstock, explore the ethical, social, and political challenges of an aging society. A unique combination of disciplines and perspectives from economics to nursing, psychology to theology, this valuable synthesis of theory and practice provides frameworks and analyses for

considering the ethical issues of both individual and societal aging The contributors address the major policy challenges of Social Security Medicare and prescription drugs as well as ethical issues ranging from individual autonomy to family responsibility to distributive justice Specific topics covered include end of life decision making family relations across generations age based intergenerational policies and the reform of Social Security Contributors W Andrew Achenbaum Ph D University of Houston Houston Vern L Bengtson Ph D University of Southern California Los Angeles Robert H Binstock Ph D Case Western Reserve University Christine E Bishop Ph D Brandeis University Thomas R Cole Ph D University of Texas Medical School at Houston Peter A Diamond Ph D Massachusetts Institute of Technology Nancy Neveloff Dubler LL B Albert Einstein College of Medici Msgr Charles J Fahey Fordham University Lucy Feild Ph D R N Partners Human Research Quality Improvement Program Martha B Holstein Ph D DePaul University Robert B Hudson Ph D Boston University Eric R Kingson Ph D Syracuse University Ronald J Manheimer Ph D University of North Carolina at Asheville Kyriakos S Markides Ph D University of Texas Medical Branch Daniel C Marson J D Ph D University of Alabama at Birmingham H Rick Moody Ph D AARP Peter R Orszag Ph D Brookings Institution Rachel Pruchno Ph D University of Medicine and Dentistry of New Jersey School of Osteopathic Medici Norella M Putney Ph D University of Southern California Los Angeles Michael Smyer Ph D Boston College Bruce Stuart Ph D University of Maryland Melanie A Wakeman Ph D California State University Los Angeles Steven P Wallace Ph D University of California at Los Angeles John B Williamson Ph D Boston College
