Report From Xunwu:

Report from Xunwu Zedong Mao,1990 Long described as lost this report was the result of Mao Zedong s investigation in 1930 of the people economy society and history of the obscure rural county of Xunwu in South China An extraordinary document that far exceeds in scope and depth Mao s other investigative reports on rural China the report is a rich source of information on rural administration commerce transportation communication education land tenure taxation religion diverse social relations and practices and struggle in one obscure area that was a microcosm of China Thompson has translated and presented Mao s report with extensive notes The book is designed to be accessible to non specialists and it will be welcomed by those interested in the Chinese countryside comparative revolution and historical anthropology Because Mao s report on Xunwu was part of a revolutionary programme the report raises complex questions about academic and activist readings of social realities

Report from Xunwu Zedong Mao,2022 *Changing Clothes in China* Antonia Finnane,2008-01-24
Based largely on nineteenth and twentieth century representations of Chinese dress as traditional and unchanging historians have long regarded fashion as something peculiarly Western But in this surprising sumptuously illustrated book Antonia Finnane proves that vibrant fashions were a vital part of Chinese life in the late imperial era when well to do men and women showed a keen awareness of what was up to date Though foreigners who traveled to China in the early decades of the twentieth century came away with the impression that Chinese dress was simple and monotone the key features of modern fashion were beginning to emerge especially in Shanghai Men in blue gowns donned felt caps and leather shoes girls began to wear fitted jackets and narrow pants and homespun garments gave way to machine woven cloth often made in foreign lands These innovations marked the start of a far reaching vestimentary revolution that would transform the clothing culture in urban and much of rural China over the next half century Through Finnane s meticulous research we are able to see how the close fitting jacket and high collar of the 1911 Revolutionary period the skirt and jacket blouse of the May Fourth era and the military style popular in the Cultural Revolution led to the variegated globalized wardrobe of today She brilliantly connects China s modernization and global visibility with changes in dress offering a vivid portrait of the complex subtle and sometimes contradictory ways the people of China have worn their nation on their backs

Militant Acts Marcelo Hoffman,2019-01-01 *Militant Acts* presents a broad history of the concept and practice of investigations in radical political struggles from the nineteenth century to the present Radicals launched investigations into the conditions and struggles of the oppressed and exploited to stimulate their political mobilization and organization These investigations assumed a variety of methodological forms in a wide range of geographical and institutional contexts and they also drew support from the participation of intellectuals such as Marx Lenin Mao Dunayevskaya Foucault and Badiou Marcelo Hoffman analyzes newspapers pamphlets reports and other source materials which reveal the diverse histories underappreciated difficulties and theoretical import of investigations in radical political struggles In so doing he challenges readers to rethink the

supposed failure of these investigations and concludes that the value of investigations in radical political struggles ultimately resides in the possibility of producing a new political we *A Native Chieftaincy in Southwest China* Jennifer

Farewell to the God of Plague Miriam Gross,2016-01-19 Farewell to the God of Plague reassesses the celebrated Maoist health care model through the lens of Mao's famous campaign against snail fever Using newly available archives

Miriam Gross documents how economic political and cultural realities led to grassroots resistance. Nonetheless the campaign triumphed but not because of its touted mass prevention campaign. Instead success came from its unacknowledged treatment arm carried out jointly by banished urban doctors and rural educated youth. More broadly the author reconsiders the relationship between science and political control during the ostensibly antiscientific Maoist era, discovering the important role of grassroots science in regime legitimation and Party control in rural areas. **Seeing the Unseen** Guoli

Chen, Jianggan Li, 2022-09-15 Meet the overnight tech success stories of China's globalizing business landscape. In the last few years we have seen a meteoric rise of Chinese tech companies across the world. Alibaba stock price movements unnerved investors globally; venture capitalists searched for the next Meituan or Pinduoduo in Southeast Asia and Latin America; and of course Tik Tok, the most popular content platform in the world today, originated from China. The founders of such companies are typically credited with the tenacity to rough it out, the courage to venture into the unknown, and the vision to take their companies to new heights. However, the same can be said about Silicon Valley founders or any successful entrepreneur. So what gives Chinese founders and their companies the advantage in becoming multi-billion global enterprises? How does their leadership set strategies? How do they motivate their people? How do they move so fast and defend their turf in China's hyper-competitive tech market? When they expand overseas, how do they determine what they keep and what they need to let go of? And most importantly, what do these things mean to you as a competitor, investor, regulator, or even as an executive or customer of such companies? **Seeing the Unseen: Behind Chinese Tech Giants** Global Venturing answers these questions and delves into the fascinating world of Chinese logic that shapes how tech leaders make and implement decisions, many of which are seldom seen outside China. In this book, you will gain an accurate, concise understanding of Chinese tech companies' reflections as they scale. You will understand the different generations of Chinese tech giants from Alibaba, Tencent, Baidu, and Huawei to Pinduoduo, Meituan, ByteDance, Xiaomi, and more. In this **Seeing the Unseen**, the analysis behind the success and lessons learned is summarized into a unique framework that touches on People, Organization, and Product, and Leadership (POP Leadership). The book covers how Chinese history, folklore, and Mao Zedong's political strategies have shaped the strategies of Chinese tech leaders even today. The mindsets of Chinese tech and internet companies and how they have evolved over the last two decades. The unique business culture and leadership styles that steered these companies through uncertain and ultra-competitive periods. How Chinese companies structure their organizations and products and how they remain agile as they scale. The limitations of Chinese POP Leadership and what these companies must shed to keep up with international players in global markets. How Chinese POP Leadership is now becoming international and how international players are leveraging these learnings. How the worldwide expansion of Chinese companies will alter the business landscape in the coming decades. Chinese firms undertaking overseas ventures can challenge our thinking on global strategy and implementation. This book gives you a better understanding of these emergent players in the global arena. **China in War**

and Revolution, 1895-1949 Peter Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this book explores the events that led to the rise of communism and a strong central state during the early twentieth century

People's Wars in China, Malaya, and Vietnam Marc Opper, 2019-11-08 People's Wars in China Malaya and Vietnam explains why some insurgencies collapse after a military defeat while under other circumstances insurgents are able to maintain influence rebuild strength and ultimately defeat the government The author argues that ultimate victory in civil wars rests on the size of the coalition of social groups established by each side during the conflict When insurgents establish broad social coalitions relative to the incumbent their movement will persist even when military defeats lead to loss of control of territory because they enjoy the support of the civilian population and civilians will not defect to the incumbent By contrast when insurgents establish narrow coalitions civilian compliance is solely a product of coercion Where insurgents implement such governing strategies battlefield defeats translate into political defeats and bring about a collapse of the insurgency because civilians defect to the incumbent The empirical chapters of the book consist of six case studies of the most consequential insurgencies of the 20th century including that led by the Chinese Communist Party from 1927 to 1949 the Malayan Emergency 1948 1960 and the Vietnam War 1960 1975 People's Wars breaks new ground in systematically analyzing and comparing these three canonical cases of insurgency The case studies of China and Malaya make use of Chinese language archival sources many of which have never before been used and provide an unprecedented level of detail into the workings of successful and unsuccessful insurgencies The book adopts an interdisciplinary approach and will be of interest to both political scientists and historians

Beyond Citizenship: Literacy and Personhood in Everyday China, 1900-1945 Di Luo, 2022-09-19 Beyond Citizenship focuses on the role of literacy in building a modern nation state by examining the government provision of adult literacy training in early twentieth century China Based on untapped archives and diaries Di Luo uncovers people's strategic use of literacy and illiteracy in social interactions and explores the impact of daily experiences on the expansion of state power Highlighting interpersonal and intergroup relations Beyond Citizenship suggests a new methodology of studying literacy which foregrounds the agentive role of historical actors and so moves away from a more traditional approach that treats literacy itself as the key factor enabling social change

China Off Center Susan D. Blum, Lionel M. Jensen, 2002-09-30 China Off Center takes as its fundamental assumption that contemporary China can only be understood as a complex decentralized place where the view from above Beijing and from tourist buses is a skewed one Instead of generalizing about China it demonstrates that this diverse national terrain is better conceived as it is experienced by Chinese as a set of many Chinas To that end this anthology of interpretive essays and ethnographic reports focuses on the everyday the particular the local and the puzzling Together with contextualizing introductions the readings provide students with a compelling look at some little known but significant aspects of China from the past decade for those already familiar with China they furnish an assortment of uncommon viewpoints in a single convenient volume Foreword by

Day, 2013-07-18 A radical new appraisal of the role of the peasant in post socialist China putting recent debates into historical perspective *A Great Undertaking* Jeff Hornibrook, 2015-04-27 Explores the social disruption resulting from industrialization in a Chinese coalmining community at the turn of the twentieth century Jeff Hornibrook provides a unique microcosmic look at the process of industrialization in one Chinese community at the turn of the twentieth century Industrialization came late to China but was ultimately embraced

and hastened to aid the state's strategic and military interests. In Pingxiang County in the highlands of Jiangxi Province, coalmining was seasonal work; peasants rented mines from lineage leaders to work after the harvest. These traditions changed in 1896 when the court decided that the county's mines were essential for industrialization. Foreign engineers and Chinese officials arrived to establish the new social and economic order required for mechanized mining, one that would change things for people from all levels of society. The outsiders constructed a Westernized factory town that sat uneasily within the existing community. Mistreatment of the local population, including the forced purchase of gentry-held properties and the integration of peasants into factory-style labor schemes, sparked a series of rebellions that wounded the empire and tore at the fabric of the community. Using stories found in memoirs of elite Chinese and foreign engineers, correspondence between gentry and powerful officials, travelogues of American missionaries and engineers, as well as other sources,

Hornibrook offers a fascinating history of the social and political effects of industrialization in Pingxiang County. **The Postcolonial Aura** Arif Dirlik, 2018-02-20. The essays in this volume range from questions of cultural self-representation in China to more general problems of reconceptualizing global relationships in response to contemporary changes. Although the new era of global capitalism calls for the remapping of global relations, such remapping must be informed both by a grasp of contemporary structures of economic, political, and cultural power and by memories of earlier radical visions of society. Without these two conditions, Arif Dirlik argues, the current preoccupation with Eurocentrism, ethnic diversity, and multiculturalism distract from issues of power that dominate global relations and that find expression in murderous ethnic conflicts. Dirlik offers multi-historicalism, which presupposes a historically grounded conception of cultural difference, seeks in different histories alternative visions of human society, and stresses divergent historical trajectories against a future colonized presently by an ideology of capital. Arguing that the operations of capital have brought the question of the local to the fore, he points to indigenism as a source of paradigms of social relations and relationships to nature to challenge the voracious developmentalism that undermines local welfare globally.
