Repression and Accommodation in Post-Revolutionary States M. Krain, 2000-07-06 We know very little about political dynamics in states that have just experienced an internal war despite the increasing need to deal with such states in the post Cold War world Matthew Krain examines what prompts leaders in post revolutionary states to employ repression or accommodation Through statistical analysis and case studies of Iran Cuba Nicaragua and Bolivia he also examines the effects of these choices on how the domestic opposition reacts what type of political system develops in the new state and whether or not the leaders who institute these policies survive in power in the long run Krain concludes with a series of policy recommendations *Repression and Accommodation in Post-revolutionary States* Matthew Krain, 1998 *Research Handbook on Conflict Prevention* Timo Kivimäki, 2024-06-05 The Research Handbook on Conflict Prevention is a cohesive and comparative analysis of the ways in which organised violence is combatted Renowned experts dissect the complex problem of conflict prevention by investigating its three main aspects agency methods and timing Elgar Handbook of Civil War and Fragile States Graham K. Brockett, 2005-03-14 This book offers an indepth analysis of the confrontation between popular movements and repressive regimes in Central America for the three decades beginning in 1960 particularly in El Salvador and Guatemala It examines both urban and rural groups as well as both nonviolent social movements and revolutionary movements It studies the impact of state violence on contentious political movements as well as defends the

political process model for studying such movements      **Labor Against the Regime** Nadine Abdalla, 2025-02-17 How do worker movements emerge and evolve under authoritarian regimes What enables labor activists to overcome constraints and win concessions and what leads to demobilization Nadine Abdalla provides an inside look at two of Egypt's most significant worker protest movements in the years preceding the 2011 Arab uprisings Through a fine grained analysis of the labor movement at the Misr Spinning and Weaving Company in Al Mahalla Al Kubra and the State Employees Movement of the Real Estate Tax Collectors *Labor Against the Regime* reveals the pivotal role played by activist leaders in shaping a movement's trajectory Drawing on extensive fieldwork interviews and primary sources Abdalla traces how these movements overcame daunting odds to first take shape achieve socio economic demands and ultimately challenge the Mubarak regime's corporatist control over labor relations The book explores how activist leaders' personal backgrounds careers and embeddedness within movements conditioned their choices ultimately steering protests down different pathways of contestation and institutionalization As one of the first book length studies to comparatively analyze Egypt's labor activism before and after the Arab Spring *Labor Against the Regime* provides vital insights into the changing relationship between workers social movements and the pre uprising political order      **In the Shadow of Mistrust** Mahmood Monshipouri, 2022-05-27 Since the 1979 Iranian Revolution the normalisation of relations between Iran and America has appeared unrealistic if not inconceivable given that the Iranian state has vigorously pursued an anti American ideology This account of US Iranian relations examines the efficacy of external pressure such as sanctions as well as domestic grassroots reform movements within the Islamic Republic The Obama presidency marked a rare high point in the Washington Tehran relationship as negotiations between the two countries and other powers produced an unprecedented nuclear deal the Joint Comprehensive Plan of Action However the Trump administration's unilateral withdrawal from the JCPOA and re imposition of new sanctions in pursuit of maximum pressure had devastating economic consequences undermining the Iranian middle class which has consistently been the voice of political moderation and supported Iran's integration into the global economy Crucially sanctions have also driven Iran further into the arms of China while rendering it an even more recalcitrant and aggressive adversary Monshipouri's central conviction is that negotiations are pivotal to dismantling the mistrust that has long characterised US Iranian relations and to seeking détente between Iran and its Arab neighbours a critical priority since gradual US withdrawal from the region is all but certain      *Contesting Authoritarianism* Dina Bishara, 2018-08-30

Counterterror Offensives for the Ghost War World Richard J. Chasdi, 2010-07-06 In Counterterror Offensives for the Ghost War World The Rudiments of Counterterrorism Policy Richard J Chasdi has written a groundbreaking quantitative analysis that provides new insight into which types of counterterror practices work best and which types perform poorly in particular operational environments and circumstances For Chasdi effectiveness is defined as the capacity of counterterror practices to work with stealth namely without eliciting high amounts of related follow up terrorist assaults He moves beyond individual country analyses to tackle an analysis of counterterror practice effectiveness based on the type of political system of the country carrying out counterterror offensives and the power level of that country within the international political system Chasdi furthermore provides essential qualitative descriptions of national security institutions stakeholders and processes to frame his quantitative results in ways that tie those findings to historical and contemporary political developments

**Not by Bread Alone** Robert Nalbandov, 2016-01-01 Since its independence in 1991 Russia has struggled with the growing pains of defining its role in international politics After Vladimir Putin ascended to power in 2000 the country undertook grandiose foreign policy projects in an attempt to delineate its place among the world's superpowers With this in mind Robert Nalbandov examines the milestones of Russia's international relations since the turn of the twenty first century He focuses on the specific goals engagement practices and tools used by Putin's administration to promote Russia's vital national and strategic interests in specific geographic locations His findings illuminate Putin's foreign policy objective of reinstituting Russian global strategic dominance Nalbandov argues that identity based politics have dominated Putin's tenure and that Russia's east west split is reflected in Asian European politics Nalbandov's analysis shows that unchecked domestic power an almost exclusive application of hard power and determined ambition for unabridged global influence and a defined place as a world superpower are the keys to Putin's Russia

**Why Peace Fails** Charles T. Call, 2012-04-03 Why does peace fail More precisely why do some countries that show every sign of having successfully emerged from civil war fall once again into armed conflict What

explains why peace sticks after some wars but not others In this illuminating study Charles T Call examines the factors behind fifteen cases of civil war recurrence in Africa Asia the Caucasus and Latin America He argues that widely touted explanations of civil war such as poverty conflict over natural resources and weak states are far less important than political exclusion Call s study shows that inclusion of former opponents in postwar governance plays a decisive role in sustained peace Why Peace Fails ultimately suggests that the international community should resist the temptation to prematurely withdraw resources and peacekeepers after a transition from war Instead international actors must remain fully engaged with postwar elected governments ensuring that they make room for former enemies

The Power and Politics of Art in Postrevolutionary Mexico Stephanie J. Smith,2017-11-14 Stephanie J Smith brings Mexican politics and art together chronicling the turbulent relations between radical artists and the postrevolutionary Mexican state The revolution opened space for new political ideas but by the late 1920s many government officials argued that consolidating the nation required coercive measures toward dissenters While artists and intellectuals some of them professed Communists sought free expression in matters both artistic and political Smith reveals how they simultaneously learned the fine art of negotiation with the increasingly authoritarian government in order to secure clout and financial patronage But the government Smith shows also had reason to accommodate artists and a surprising and volatile interdependence grew between the artists and the politicians Involving well known artists such as Frida Kahlo Diego Rivera and David Alfaro Siqueiros as well as some less well known including Tina Modotti Leopoldo M ndez and Aurora Reyes politicians began to appropriate the artists nationalistic visual images as weapons in a national propaganda war High stakes negotiating and co opting took place between the two camps as they sparred over the production of generally accepted notions and representations of the revolution s legacy and what it meant to be authentically Mexican
