Reproducing The Future:

Reproducing the Future Marilyn Strathern, 1992 These essays written at the time when the Bill for Human Fertilization and Embryology Act 1990 was going through Parliament touch on the British debate on in vitro fertilization gamete donation and maternal surrogacy from an anthropological perspective The implications of the medical developments that lay behind the Act are world wide and these new procreative possibilities formulate new possibilities for thinking about kinship The essays are informed by recent re thinking of models of kinship in Melanesia

Reproducing the Future Marilyn Strathern, 1992 **Reseña de "Reproducing the Future. Essays on Anthropology, Kinship, and the New**

Reproductive Technologies" de Marilyn Strathern Feder ico bes serer, 1999 **Reproducing Race** Khiara

Bridges, 2011-03-18 Reproducing Race an ethnography of pregnancy and birth at a large New York City public hospital explores the role of race in the medical setting Khiara M Bridges investigates how race commonly seen as biological in the medical world is socially constructed among women dependent on the public healthcare system for prenatal care and childbirth Bridges argues that race carries powerful material consequences for these women even when it is not explicitly named showing how they are marginalized by the practices and assumptions of the clinic staff Deftly weaving ethnographic evidence into broader discussions of Medicaid and racial disparities in infant and maternal mortality Bridges shines new light on the politics of healthcare for the poor demonstrating how the medicalization of social problems reproduces racial stereotypes and governs the bodies of poor women of color

Machine Learning for Future Wireless Communications

Fa-Long Luo, 2020-02-10 A comprehensive review to the theory application and research of machine learning for future wireless communications In one single volume Machine Learning for Future Wireless Communications provides a comprehensive and highly accessible treatment to the theory applications and current research developments to the technology aspects related to machine learning for wireless communications and networks The technology development of machine learning for wireless communications has grown explosively and is one of the biggest trends in related academic research and industry communities Deep neural networks based machine learning technology is a promising tool to attack the big challenge in wireless communications and networks imposed by the increasing demands in terms of capacity coverage latency efficiency flexibility compatibility quality of experience and silicon convergence The author a noted expert on the topic covers a wide range of topics including system architecture and optimization physical layer and cross layer processing air interface and protocol design beamforming and antenna configuration network coding and slicing cell acquisition and handover scheduling and rate adaption radio access control smart proactive caching and adaptive resource allocations Uniquely organized into three categories Spectrum Intelligence Transmission Intelligence and Network Intelligence this important resource Offers a comprehensive review of the theory applications and current developments of machine learning for wireless communications and networks Covers a range of topics from architecture and optimization to

adaptive resource allocations Reviews state of the art machine learning based solutions for network coverage Includes an overview of the applications of machine learning algorithms in future wireless networks Explores flexible backhaul and front haul cross layer optimization and coding full duplex radio digital front end DFE and radio frequency RF processing Written for professional engineers researchers scientists manufacturers network operators software developers and graduate students Machine Learning for Future Wireless Communications presents in 21 chapters a comprehensive review of the topic authored by an expert in the field

Reproducing Athens Susan Lape,2009-01-10 Reproducing Athens examines the role of romantic comedy particularly the plays of Menander in defending democratic culture and transnational polis culture against various threats during the initial and most fraught period of the Hellenistic Era Menander s romantic comedies which focus on ordinary citizens who marry for love are most often thought of as entertainments devoid of political content Against the view Susan Lape argues that Menander s comedies are explicitly political His nationalistic comedies regularly conclude by performing the laws of democratic citizen marriage thereby promising the generation of new citizens His transnational comedies on the other hand defend polis life against the impinging Hellenistic kingdoms either by transforming their representatives into proper citizen husbands or by rendering them ridiculous romantic losers who pose no real threat to citizen or city In elaborating the political work of romantic comedy this book also demonstrates the importance of gender kinship and sexuality to the making of democratic civic ideology Paradoxically by championing democratic culture against various Hellenistic outsiders comedy often resists the internal status and gender boundaries on which democratic culture was based Comedy s ability to reproduce democratic culture in scandalous fashion exposes the logic of civic inclusion produced by the contradictions in Athens s desperately politicized gender system Combining careful textual analysis with an understanding of the context in which Menander wrote Reproducing Athens profoundly changes the way we read his plays and deepens our understanding of Athenian democratic culture

Revolutionizing Romance Nadine T Fernandez,2010-02-18 Scholars have long heralded mestizaje or race mixing as the essence of the Cuban nation Revolutionizing Romance is an account of the continuing significance of race in Cuba as it is experienced in interracial relationships This ethnography tracks young couples as they move in a world fraught with shifting connections of class race and culture that are reflected in space racialized language and media representations of blackness whiteness and mixedness As one of the few scholars to conduct long term anthropological fieldwork in the island nation Nadine T Fernandez offers a rare insider s view of the country s transformations during the post Soviet era Following a comprehensive history of racial formations up through Castro s rule the book then delves into more intimate and contemporary spaces Language space and place foreign tourism and the realm of the family each reveal through the author s deft analysis the paradox of living a racialized life in a nation that celebrates a policy of colorblind equality

Freezing Fertility Lucy van de Wiel,2020-12-15 Welcomed as liberation and dismissed as exploitation egg freezing oocyte cryopreservation has rapidly become one of the

most widely discussed and influential new reproductive technologies of this century In *Freezing Fertility* Lucy van de Wiel takes us inside the world of fertility preservation with its egg freezing parties contested age limits proactive anticipations and equity investments and shows how the popularization of egg freezing has profound consequences for the way in which female fertility and reproductive aging are understood commercialized and politicized Beyond an individual reproductive choice for people who may want to have children later in life *Freezing Fertility* explores how the rise of egg freezing also reveals broader cultural political and economic negotiations about reproductive politics gender inequities age normativities and the financialization of healthcare Van de Wiel investigates these issues by analyzing a wide range of sources varying from sparkly online platforms to heart breaking court cases and intimate autobiographical accounts that are emblematic of each stage of the egg freezing procedure By following the egg s journey *Freezing Fertility* examines how contemporary egg freezing practices both reflect broader social regulatory and economic power asymmetries and repoliticize fertility and aging in ways that affect the public at large In doing so the book explores how the possibility of egg freezing shifts our relation to the beginning and end of life

Reproducing Jews Susan Martha Kahn, 2000 Explores the debates about new reproductive technologies in Israel and how they fit with Orthodox Jewish laws concerning parentage and Jewish identity

Marxism and Education beyond Identity F. Agostinone-Wilson, 2010-10-11 This book seeks to revive dialectical materialist interpretations of sexuality relevant to K 12 settings and society Issues addressed include sexuality and the curriculum theories of the family critiques of postmodernism socialist feminism and activist tactics strategies for organizing in K 12 settings

Transgenerational Media Industries Derek Johnson, 2019-11-12 Within corporate media industries adults produce children s entertainment Yet children presumed to exist outside the professional adult world make their own contributions to it creating and posting unboxing videos for example that provide content for toy marketers Many adults meanwhile avidly consume entertainment products nominally meant for children Media industries reincorporate this market disrupting participation into their strategies even turning to adult consumers to pass fandom to the next generation Derek Johnson presents an innovative perspective that looks beyond the simple category of kids media to consider how entertainment industry strategies invite producers and consumers alike to cross boundaries between adulthood and childhood professional and amateur new media and old Revealing the social norms reproductive ideals and labor hierarchies on which such transformations depend he identifies the lines of authority and power around which legacy media institutions like television comics and toys imagine their futures in a digital age Johnson proposes that it is not strategies of media production but of media reproduction that are most essential in this context To understand these critical intersections he investigates transgenerational industry practice in television co viewing recruitment of adult comic readers as youth outreach ambassadors media professionals identification with childhood the branded management of adult fans of LEGO and

the labor of child YouTube video creators These dynamic relationships may appear to disrupt generational and industry boundaries alike However by considering who media industries empower when generating the future in these reproductive terms and who they leave out Johnson ultimately demonstrates how their strategies reinforce existing power structures This book makes vital contributions to media studies in its fresh approach to the intersections of adulthood and childhood its attention to the relationship between legacy and digital media industries and its advancement of dialogue between media production and consumption researchers It will interest scholars in media industry studies and across media studies more broadly with particular appeal to those concerned about the current and future reach of media industries into our lives

Group Works Ethan Philbrick, 2023-04-25 An exciting new reflection on the role of artistic collaboration collectivism and the politics of group formation in the neoliberal era The artist and author Ethan Philbrick's *Group Works* reimagines the group by undertaking an historiographic archaeology of group aesthetics and politics Written against both phobic and romantic accounts of collectivity *Group Works* contends that the group emerges as a medium for artists when established forms of collective life break down Philbrick pairs group pieces in dance literature film and music from the 1960s and 1970s downtown Manhattan scene alongside a series of recent group experiments Simone Forti's dance construction *Huddle* 1961 is put into relation with contemporary reperformances of Forti's score and huddling as a feminist political tactic Samuel Delany's memoir of communal living *Heavenly Breakfast: An Essay on the Winter of Love 1969-78* speaks to performance artist Morgan Bassichis's 2017 communal musical adaptation of Larry Mitchell's 1977 text *The Faggots and Their Friends* Between Revolutions Lizzie Borden's experimental documentary of feminist collectivity *Regrouping* 1976 sits alongside visual artist Sharon Hayes's 2014 piece on Manhattan's Pier 54 *Women of the World Unite they said* and Julius Eastman's insurgent piece of chamber music for four pianos *Gay Guerrilla* 1979 resonates alongside contemporary projects that take up Eastman's legacy by artists such as Tiona Nekkia McClodden By analyzing works that articulate the politics of race gender and sexuality as questions of group formation Philbrick approaches the group not as a stable idealizable entity but as an ambivalent way to negotiate and contest shifting terms of associational life *Group Works* presents an engaging exploration of what happens when small groups become a material and medium for artistic and political experimentation **Coherent**

States: Past, Present And Future - Proceedings Of The International Symposium John R Klauder, Michael Robert Strayer, Da-hsuan Feng, 1994-05-26 The book consists of lectures delivered at the International Symposium on Coherent States Past Present and Future held in Oak Ridge Tennessee June 14-17 1993 Both theoretical and experimental subjects are treated Theoretical subjects dealt with include quantum optics quantum chaos condensed matter physics nuclear physics high energy physics and foundational issues such as quantum classical connections and various semiclassical quantization schemes Experimental topics dealt with principally concern atomic and molecular physics and especially lasers Topics related to coherent states most notably wavelets are also included *A Time of Covidiocy: Media, Politics, and Social*

Upheaval Daniel Ian Rubin, Faith Agostinone Wilson, 2021-07-26 The COVID 19 pandemic interrupted a chaotic political and social landscape within the United States Its arrival revealed cracks in longstanding neoliberal narratives In this book the authors utilize critical theory to analyze the collapse of these hyper individualistic narratives within the media in the broad areas of economics the nuclear family and authoritarian populism and through the topics of scapegoating China capitalist class economic messaging the essential worker the family under shutdown the spread of conspiracy theories and the ideologies of the COVID 19 protests The book conclude with commentary on the significance of the George Floyd protests and their connection to the pandemic

Romanticism and the Human Sciences Maureen N. McLane, 2000-09-14 This study published in 2000 examines the dialogue between Romantic poetry and the human sciences of the period Maureen McLane reveals how Romantic writers participated in a new found consciousness of human beings as a species by analysing their work in relation to discourses on moral philosophy political economy and anthropology Writers such as Wordsworth Coleridge Mary Shelley and Percy Shelley explored the possibilities and limits of human being language and hope They engaged with the work of theorists of the human sciences Malthus Godwin and Burke among them The book offers original readings of canonical works including *Lyrical Ballads* *Frankenstein* and *Prometheus Unbound* to show how the Romantics internalised and transformed ideas about the imagination perfectibility immortality and population which so energised contemporary moral and political debates McLane provides a defence of poetry in both Romantic and contemporary theoretical terms reformulating the predicament of Romanticism in general and poetry in particular

Army Ordnance, 1931 *Music Trades*, 1921 **Running the Family Firm** Laura Clancy, 2021-09-28 In recent decades the global wealth of the rich has soared to leave huge chasms of wealth inequality This book argues that we cannot talk about inequalities in Britain today without talking about the monarchy *Running the Family Firm* explores the postwar British monarchy in order to understand its economic political social and cultural functions Although the monarchy is usually positioned as a backward looking archaic institution and an irrelevant anachronism to corporate forms of wealth and power the relationship between monarchy and capitalism is as old as capitalism itself This book frames the monarchy as the gold standard corporation The Firm Using a set of case studies the Queen Prince Charles Prince Harry Kate Middleton and Meghan Markle it contends that The Firm s power is disguised through careful stage management of media representations of the royal family In so doing it extends conventional understandings of what monarchy is and why it matters
