Reruns On File Using Broadcast Archives:

Reruns on File Donald G. Godfrey, 2013-09-13 For more than half a century broadcast recordings have reflected an important aspect of our culture and history. An increasing number of archivists and private collectors have restored and exchanged radio and television materials. However, despite the awareness of these primary resource materials, there is still some reluctance to utilize this aural and visual history resource. A part of this reluctance is due to the fact that little is known about the existence of many collections throughout the nation. This volume provides a comprehensive directory of electronic media archives in the United States and Canada. It describes each collection, focusing on its speciality, providing the serious researcher with ready access information to these electronic media program resources. Focusing on both private and institutional collections, it is organized by state and city with indexes to provide the scholar with subject and location of specific topics of interest.

Methods of Historical Analysis in Electronic Media Donald G. Godfrey, 2006-08-15 *Methods of Historical Analysis in Electronic Media* provides a foundation for historical research in electronic media by addressing the literature and the methods traditional and the eclectic methods of scholarship as applied to electronic media. It is about history broadcast electronic media history and history that has been broadcast and also about the historiography research written and the research yet to be written. Divided into five parts, this book addresses the challenges in the application of the historical methods to broadcast history, reviews the various methods appropriate for electronic media research based on the nature of the object under study, suggests new approaches to popular historical topics, takes a broad topical look at history in broadcasting and provides a broad overview of what has been accomplished, a historian's challenges and future research. Intended for students and researchers in broadcast history, *Methods of Historical Analysis in Electronic Media* provides an understanding of the qualitative methodological tools necessary for the study of electronic media history and illustrates how to find primary sources for electronic media research.

The X-Files and Literature Sharon R. Yang, 2009-10-02 *The X-Files and Literature: Unweaving the Story, Unraveling the Lie to Find the Truth* provides an innovative and valuable exploration of the groundbreaking television program. has fully addressed the series rich adaptation of literature to interrogate our perception definition or recounting of the truth This collection not only unveils new twists and insights into expected connections between The X Files and Gothic writers or with its modernist and post modernist slants on narrative plot and characterization The X Files and Literature also delves into some unexpected literary sources shaping the series such as the Arthurian quest Catholic and Biblical mythology folkloristics and James Fennimore Cooper and the vanishing American mythos This collection of essays covers both how The X Files works with literature s own constantly morphing definition and portrayal of truth through form and content as well as how the television program may or may not subvert our own contradictory expectations and distrust of literature s providing us with enlightenment As television becomes more and more literary with shows like Lost and Gilmore Girls sending us off to the bookstore and the library so we might read them more carefully a book like The X Files and Literature is welcome indeed Sharon R Yang s diverse collection on one of Nineties TV s richest texts finds the truth of the gothic and the Arthurian and the folkloric of the postmodern and the metafictional of Poe Pynchon Cooper Nabokov and Tennyson not just out there but in the perhaps too complicated narrative of the perpetually frustrated quests of Mulder and Scully Valuable in itself as an intellectual exercise its real worth may come when we put the book down and return smarter better readers to the primary text David Lavery Co Editor Deny All Knowledge Investigating The X Files Sharon Yang s X Files collection deals with an important subject addressed by thoughtful writers The idea that television can be seen as a branch of literature is certainly sustained by The X Files and the contributors to this volume succeed in making the case Brian Hauser on Fenimore Cooper Cary Jones on Mary Shelley Tamy Burnett on Poe Thomas Argiro on Pynchon Matthew VanWinkle on Tennyson these and more explore the connections with The X Files not only in terms of sources but also themes and techniques Both students of television and literature will want to own this book Rhonda V Wilcox Ph D Professor of English Gordon College Barnesville
