The Collected Papers of Bertrand Russell Volume 21 Bertrand Russell, 2024-08-01 In *Collected Papers 21* Bertrand Russell grapples with the dilemma that confronted all opponents of militarism and war in the 1930s namely what was the most politically and morally appropriate response to international aggression *How to Keep the Peace* contains some of Russell's best known essays such as the famous *Auto* obituary and his treatment of *The Superior Virtue of the Oppressed* Like the sixteen previous volumes in Routledge's critical edition of Russell's shorter writings however *Collected Papers 21* also includes a number of unpublished manuscripts from the Bertrand Russell Archives at McMaster University Moreover it recovers for Russell scholars and general readers alike a rich vein of material that has previously appeared in print only in obscure or long defunct newspaper and periodical publications

British Strategy and Intelligence in the Suez Crisis

Danny Steed, 2016-08-05 This book traces the activities of the Secret Intelligence Service SIS MI6 and the Joint Intelligence Committee JIC during the Suez Crisis one of the most infamous episodes of British foreign policy In doing so it identifies broader lessons not only about the events of 1956 but about the place of intelligence in strategy itself It provides both an exploration of the relationship between intelligence and strategy at the conceptual level and also a historical account and strategic analysis of the performance of the Joint Intelligence Committee and the Secret Intelligence Service during this time Focusing on the period immediately before during and after the crisis Danny Steed brings together a complete picture of intelligence story in Britain that has so far eluded comprehensive treatment in the Suez historiography Through extensive consultation of declassified archival sources a re-examination of often referred to sources and the employment of oral history this study identifies the most significant lessons about the use of intelligence revealed by the Suez Crisis

The Southern Flank in Crisis, 1973-1976 Keith Hamilton, Patrick Salmon, 2012-09-10 A fascinating collection of British foreign policy documents covering reactions in Whitehall to political change and revolution in the Mediterranean basin from 1973 to 1976 This volume contains many previously unpublished documents including Joint Intelligence Committee papers which cast new light on key events such as the international crisis

triggered by the coup against Archbishop Makarios in Cyprus Turkey's military intervention in the island the overthrow of the Caetano regime in Portugal and the death of Franco in Spain During 1973-76 years generally associated with East-West détente in Europe NATO's southern flank was plunged into crisis by a revolution in Portugal and a coup d'état in Cyprus Political turmoil in Portugal Turkey's military intervention in Cyprus the collapse of the military government in Greece and the threat of a Greco-Turkish War all emphasized the vulnerability of the alliance to regime change in the Mediterranean The Western allies had also to prepare for the death of two ageing dictators in Spain and Yugoslavia and the possible entry of Communists into government in France and Italy This volume draws upon the records of the Foreign and Commonwealth Office the Cabinet Office and the Ministry of Defence to document the reactions of Harold Wilson's Labour government to these developments This book will be of great interest to all students of contemporary British history international history European history international relations politics and diplomacy

Reputation and International Politics Jonathan Mercer, 2018-09-05 By approaching an important foreign policy issue from a new angle Jonathan Mercer comes to a startling controversial discovery a nation's reputation is not worth fighting for He presents the most comprehensive examination to date of what defines a reputation when it is likely to emerge in international politics and with what consequences Mercer examines reputation formation in a series of crises before World War I He tests competing arguments one from deterrence theory the other from social psychology to see which better

predicts and explains how reputations form Extending his findings to address recent crises such as the Gulf War he also considers how culture gender and nuclear weapons affect reputation Throughout history wars have been fought in the name of reputation Mercer rebuts this politically powerful argument shows that reputations form differently than we thought and offers policy advice to decision makers

The Polish Crisis and Relations with Eastern Europe, 1979-1982 Isabelle Tombs, Richard Smith, 2017-03-16 This volume presents a collection of diplomatic documents describing Britain's relations with Eastern Europe from 1979 to 1982 with special focus on the crisis in Poland After coming to power in 1979 the Conservative Government of Margaret Thatcher reaffirmed a policy of differentiation between the Soviet Union and the rest of Eastern Europe and between individual countries concurrently it encouraged states to exercise a limited amount of independence This policy was soon put to the test when in 1980 Solidarno the Solidarity trade union led by Lech Waśa challenged the power of the Party state in Poland Political demands social unrest and economic crisis culminated in the imposition of martial law in December 1981 finally suspended in December 1982 The volume maps the UK response in consultation with Western partners to the unfolding crisis in Poland the threat of Soviet intervention and the impact on other Communist states in Europe The volume also provides a flavour of bilateral UK relations with Albania Bulgaria Czechoslovakia the German Democratic Republic Hungary Romania and Yugoslavia highlighting themes such as human rights and trade This volume will be of great interest to students of British Politics Eastern European Politics Cold War History Diplomacy Studies and International Relations in general

Conscription, US Intervention and the Transformation of Ireland 1914-1918 Emmanuel Destenay, 2022-03-10 This book analyses the relationship between the Irish home rule crisis the Easter Rising of 1916 and the conscription crisis of 1918 providing a broad and comparative study of war and revolution in Ireland at the beginning of the Twentieth Century Destenay skilfully looks at international and diplomatic perspectives as well as social and cultural history to demonstrate how American and British foreign and domestic policies either thwarted or fed directly or indirectly the Irish Revolution He readdresses and at times redresses the well established but somewhat inaccurate conclusion that Easter Week 1916 was the major factor in radicalizing nationalist Ireland This book provides a more nuanced and gradualist account of a transfer of allegiance how fears of conscription aroused the bitterness and mistrust of civilian populations from August 1914 onwards By re situating the Irish Revolution in a global history of empire and anti colonialism this book contributes new evidence and new concepts Destenay convincingly argues that the fears of conscription have been neglected by Irish historiography and this book offers a fresh appraisal of this important period of history
