of the Holocaust A Conspiracy of Decency chronicles the acts of people of good will from several nationalities Among them were the German Georg F Duckwitz who warned the Jews of their impending deportation the Danes who hid them and ferried them across the Oresund and the Swedes who gave them asylum Regardless of their social class education and religious and political persuasion the rescuers all shared one important characteristic they defined their humanity by their ability to act with great compassion These people never considered themselves heroes they simply felt that they were doing the right thing

**Selahattin Ülkümen, the Turkish Righteous among the Nations** Yücel Güçlü,2022-04-08 The history of the Holocaust is far from complete Even with more than seven decades of Holocaust research and writing behind us there are many specialist topics within Holocaust historiography that have not been dealt with in detail including the role of Turkey This has caused the researchers of the Holocaust in other countries to often include limited outdated and sometimes incorrect data about Turkey in their studies Within the flood of publications on Holocaust history that has been rising since the 1990s and which has maintained its momentum ever since studies on the role of Turkey remain comparatively underexplored Selahattin Ülkümen a Turk is the only Muslim diplomat who thus far has been designated as Righteous among the Nations by the Yad Vashem the Holocaust Martyrs and Heroes Authority in Jerusalem for saving at his own risk the lives of 42 Jews in Rhodes from the Nazis in 1944 Thus momentarily thrust into prominence he excites a certain curiosity However current scholarship has failed to reveal a single monograph or even an article in periodical literature on him Neither Turk nor Westerner has devoted more than a few pages to his exploits References to him in other sources are slight and fall short of explaining a satisfactory explanation of his deeds The remarkable story of Ülkümen is an important but little known aspect of Turkish history in the Second World War period He is an individual who has not received the attention he deserves This book serves to fill this historiographical void It draws on the previously unused files of the Turkish Ministry of Foreign Affairs the Yad Vashem Archives and available primary and secondary sources in Turkish English and French *A Rescuer's Story* Tela Zasloff,2003-10-15 In telling Pierre Charles Toureille s story Tela Zasloff also describes the wide ranging network of Protestant pastors and lay people in southern French villages who participated in an aggressive rescue effort She delves into their motivations including their Huguenot heritage as members of a religious minority **Hitler's war in the East, 1941-1945** Rolf-Dieter Müller,2009 **Where is Queer?** John Fraser,Joe E Heimlich,2016-06-16 This is Volume 3 Number 1 Spring 2008 edition of Museums and Special Issues reflective discourse journal The complexity and the power associated with language is evident in the many disciplines books courses and talk shows that focus on the disparate ways we use and interpret words This edition looks at What is Queer and attempts to reframe the conversation giving a chance to renegotiate how we talk about gender sexuality and identity as separate and vital concepts **Six Myths about the Good Life** Joel J. Kupperman,2006-03-15 Six Myths about the Good Life focuses on the values that are worth aiming for in our lives a topic central to what has been called Philosophy of Life We all have ideas about the good life We think that pleasure makes life

better We want to be happy We think that achievements make a difference There is something to all these ideas but if taken simply and generally they all miss out on something Six Myths about the Good Life explores what they miss and in the process gives a sense of what a good life can be *The American Bibliography of Slavic and East European Studies* Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology *Self and Deception* Roger T. Ames, Wimal Dissanayake, 1996-07-03 This volume contains essays by a range of distinguished philosophers on the problem of self deception or rather self and deception The work proceeds from the assumption that changing constructions of self within Western cultures and alternative notions of self in other cultures requires that we rethink traditional strategies for explaining the phenomenon of self deception The concept of self is central to any sustained inquiry into self deception the pertinent issue being what sort of self is victim or beneficiary of self deception Several of the authors here base their thinking on the model of other deception and include discussion of the notions of double selves multiple selves and subsystems of the self to address this troubling problem Other authors argue that other deception is not an adequate or reliable model to guide our thinking on this issue The psychological and moral dimensions of self deception generate a rich discussion as do its epistemic implications The concept of emotionality also receives sustained attention *Looking Backward, Moving Forward* Richard G. Hovannisian, 2017-07-05 The decades separating our new century from the Armenian Genocide the prototype of modern day nation killings have fundamentally changed the political composition of the region Virtually no Armenians remain on their historic territories in what is today eastern Turkey The Armenian people have been scattered about the world And a small independent republic has come to replace the Armenian Soviet Socialist Republic which was all that was left of the homeland as the result of Turkish invasion and Bolshevik collusion in 1920 One element has remained constant Notwithstanding the eloquent compelling evidence housed in the United States National Archives and repositories around the world successive Turkish governments have denied that the predecessor Young Turk regime committed genocide and like the Nazis who followed their example sought aggressively to deflect blame by accusing the victims themselves This volume argues that the time has come for Turkey to reassess the propriety of its approach and to begin the process that will allow it move into a post genocide era The work includes *Genocide An Agenda for Action* Gijs M de Vries *Determinants of the Armenian Genocide* Donald Bloxham *Looking Backward and Forward* Joyce Apsel *The United States Response to the Armenian Genocide* Simon Payaslian *The League of Nations and the Reclamation of Armenian Genocide Survivors* Vahram L Shemmassian Raphael Lemkin and the Armenian Genocide Steven L Jacobs *Reconstructing Turkish Historiography of the Armenian Massacres and Deaths of 1915* Fatma Muge Gocek *Bitter Sweet Memories The Armenian Genocide and International Law* Joe Verhoeven *New Directions in Literary Response to the Armenian Genocide* Rubina Peroomian *Denial*

**The Geometry of Genocide** Bradley Campbell, 2015-10-29 In The Geometry of Genocide Bradley Campbell argues that genocide is best understood not as deviant behavior but as social

control a response to perceived deviant behavior on the part of victims Using Donald Black's method of pure sociology Campbell considers genocide in relation to three features of social life diversity inequality and intimacy According to this theory genocidal conflicts begin with changes in diversity and inequality such as when two previously separated ethnic groups come into contact or when a subordinate ethnic group attempts to rise in status Further conflicts are more likely to result in genocide when they occur in a context of social distance and inequality and when aggressors and victims cannot be easily separated Campbell applies his approach to five cases the killings of American Indians in 1850s California Muslims in 2002 India and 1992 Bosnia Tutsis in 1994 Rwanda and Jews in 1940s Europe These case studies which focus in detail on particular incidents within each instance of genocide demonstrate the theory's ability to explain an array of factors including why genocide occurs and who participates Campbell's theory uniquely connects the study of genocide to the larger study of conflict and social control By situating genocide among these broader phenomena The Geometry of Genocide provides a novel and compelling explanation of genocide while furthering our understanding of why humans have conflicts and why they respond to conflict as they do

**Women and Judaism** Malka Drucker, 2009-04-30 Contributors to Women and Judaism describe the many ways in which women are claiming a place in and changing the face of this ancient religion Women and Judaism the editor writes carries an intention to do more than bring the reader new ideas to ponder For Jewish women it's a charge to claim and re-claim their rightful place in their tradition For non-Jewish sisters we hope that it encourages you to bring change in your traditions as you learn of our effort to be counted as full members of an ancient spiritual community In this all-encompassing exploration of Judaism for the modern woman readers attend the first the Bat Mitzvah 70 years ago hear an imagined response of biblical mothers asked to give up their children and learn how each holiday contains an ecological message Readers explore the power of women within a patriarchal tradition including the story of the first woman rabbi Readers see demonstrations of how women keep body mind and spirit alive read a new view of biblical women as heroic role models and enter the memory of women Holocaust survivors Some contributors write about sexuality power and vulnerability while others present the newest women's rituals including Rosh Hodesh and mikveh

Weiss, PhD, 2017-12-04 The groundbreaking volume The Torah A Women's Commentary originally published by URJ Press and Women of Reform Judaism has been awarded the top prize in the oldest Jewish literary award program the 2008 National Jewish Book Awards A work of great import the volume is the result of 14 years of planning research and fundraising THE HISTORY At the 39th Women of Reform Judaism Assembly in San Francisco Cantor Sarah Sager challenged Women of Reform Judaism delegates to imagine women feeling permitted for the first time feeling able feeling legitimate in their study of Torah WRJ accepted that challenge The Torah A Women's Commentary was introduced at the Union for Reform Judaism 69th Biennial Convention in San Diego in December 2007 WRJ has commissioned the work of the world's leading Jewish female Bible scholars rabbis historians philosophers and archaeologists Their

collective efforts resulted in the first comprehensive commentary authored only by women on the Five Books of Moses including individual Torah portions as well as the Hebrew and English translation The Torah A Women's Commentary gives dimension to the women's voices in our tradition Under the skillful leadership of editors Dr Tamara Cohn Eskenazi and Rabbi Andrea Weiss PhD this commentary provides insight and inspiration for all who study Torah men and women Jew and non Jew As Dr Eskenazi has eloquently stated we want to bring the women of the Torah from the shadow into the limelight from their silences into speech from the margins to which they have often been relegated to the center of the page for their sake for our sake and for our children's sake Published by CCAR Press a division of the Central Conference of American Rabbis
