Stephen Fry,2002-10-01      Rescuing Spectacled Bear Signed Stephen Fry,2002-10-01      Bear Robert E. Bieder,2005-08-18  
The angry grizzly and the cuddly teddy few animals possess such a range of personas as the bear Here Robert Bieder surveys the wealth of imagery myths and stories that surrounds the bear Beginning with the dawn bear the small dog sized ancestor of all bears who hails from 25 million years ago Bieder embarks on a fascinating exploration of the evolutionary history of the bear family from extinct species such as the cave bear and giant short faced bear to the mere eight species that survive today Bear draws on cultural material from around the world to examine the various legends and myths surrounding the bear including ceremonies and taboos that govern the hunting killing and eating of bears The book also looks at the role of bears in modern culture as the subjects of stories songs and films as exhibited objects in circuses and zoos and perhaps most famously as toys Bieder also considers the precarious future of the bear as it is threatened by loss of habitat poaching global warming and disease and discusses the impact of human behavior on bears and their environments Accompanied by numerous vibrant photographs and illustrations and written in an engaging fashion Bear is an appealing and informative volume for anyone who has curled up with Winnie the Pooh or marveled at this powerful king of the forest
