Rescuing the Spectacled Bear Stephen Fry, 2002 On New Years Day BBC 1 broadcast a programme about Stephen Fry going to Peru to track Paddington Bear's roots and more seriously to rescue a Spectacled bear one of the world's endangered species At Easter a follow up programme was shown on BBC 2 they went back and helped rescue a mate for the young bear they had found on their first trip This is Stephen's diary of his time in Peru It is packed with lovely colour pictures of Stephen bears and Peru and it is of course wildly funny Stephen Fry is set to become the Diane Fossey of the bear world

Bear Robert E. Bieder, 2005-08-18 The angry grizzly and the cuddly teddy few animals possess such a range of personas as the bear Here Robert Bieder surveys the wealth of imagery myths and stories that surrounds the bear Beginning with the dawn bear the small dog sized ancestor of all bears who hails from 25 million years ago Bieder embarks on a fascinating exploration of the evolutionary history of the bear family from extinct species such as the cave bear and giant short faced bear to the mere eight species that survive today Bear draws on cultural material from around the world to examine the various legends and myths surrounding the bear including ceremonies and taboos that govern the hunting killing and eating of bears The book also looks at the role of bears in modern culture as the subjects of stories songs and films as exhibited objects in circuses and zoos and perhaps most famously as toys Bieder also considers the precarious future of the bear as it is threatened by loss of habitat poaching global warming and disease and discusses the impact of human behavior on bears and their environments Accompanied by numerous vibrant photographs and illustrations and written in an engaging fashion Bear is an appealing and informative volume for anyone who has curled up with Winnie the Pooh or marveled at this powerful king of the forest

Shadow of the Bear Brian Payton, 2008-12-11 We've been meeting bears in the wilderness and in our dreams since the dawn of human history Celebrated in art and myth since we began drawing on the walls of caves they cast a long shadow over our collective subconscious Wherever bears endure they are an indicator of the health of their ecosystem Their decline some to the edge of extinction foretells a bigger story that of our planet's peril In a series of remarkable journeys Brian Payton travels the world in search of the eight remaining bear species Along the way he confronts poachers in the jungles of Cambodia witnesses the cruelty of the bear bile trade in China and delves into the politics of panda sex From the reclusive spectacled bears of Peru to the man eating sloth bears of India Payton captures the power and beauty of these fascinating creatures while exploring their unique place within very different cultures Vivid characters exotic landscapes and deft storytelling make for an unforgettable trek down the braided path of bear and human history
