Ramirez, Robert S. Cohen, 2012-12-06 For a North American seeking to know the Mexican mind and especially the sciences today and in their recent development a great light of genius is to be found in

Mexico City in the late 17th century The genius is that of one who surely may be counted as the first Mexican philosopher of nature a nun of the Order of Saint Jerome Sor Juana Ines de la Cruz Sor Juana must speak for herself from her penetrating exercise of an independent mind within a political and religious formation which denigrated women and circumscribed reason itself To understand this world of ours to join in an enlightenment which would be both natural and inspired Sor Juana clearly understood the requirements of learning observing logic and reasoning In darkness foundering Words fail the troubled mind For who I ask can light me When Reason is blind Even now after the great steps toward liberation of women and the substantial scientific contributions toward sheer empirical awareness of both the multiple orders of Nature and the subtle aesthetics of individual art and social harmony we too in the earthly world of the 20th century must affirm what she affirmed

Mexico Robert Ryal Miller, 1985 Describes pre Columbian cultures the Spanish conquest colonial rule the Mexican Revolution and modern Mexico and its architecture art literature music education and economic problems Writing Mexican History Eric Van Young, 2012-03-14 Essential essays from one of the most prolific provocative and pre eminent historians working in the field of Mexican and Latin American history today Susan Deans Smith author of Bureaucrats Planters and Workers This collection brings together a group of important and influential essays on Mexican history and historiography by Eric Van Young a leading scholar in the field The essays several of which appear here in English for the first time are primarily historiographical that is they address the ways in which separate historical literatures have developed over time They cover a wide range of topics the historiography of the colonial and nineteenth century Mexican and Latin American countryside historical writing in English on the history of colonial Mexico British American and Mexican historical writing on the Mexican Independence movement the methodology of regional and cultural history and the relationship of cultural to economic history Some of the essays have been and will continue to be controversial while others for example those on studies of the Mexican hacienda since 1980 on the theory and method of regional history and on the new cultural history of Mexico are widely considered classics of the genre Van Young is one of the two or three pre eminent thinkers in the Mexican and Latin American field whose essays are of such pioneering and enduring value to warrant this kind of greatest hits collection Not only does he cross fields and disciplines and integrate northern and southern intellectual currents his essays are a pleasure to read and constitute a rare combination of analytical bite erudition and playfulness Gilbert M Joseph Yale University **Research on the American Republics** United States. Department of State. Office of External Research, 1966 **The International History of Communication Study** Peter Simonson, David W. Park, 2015-10-14 The International History of Communication Study maps the growth of media and communication studies around the world Drawing out transnational flows of ideas institutions publications and people it offers the most comprehensive picture to date of the global history of communication research and education This volume reaches into national and regional areas that have not received much attention in the scholarship until now including Asia Latin America Africa and the Middle East

alongside Europe and North America It also covers communication study outside of academic settings in international organizations like UNESCO and among commercial and civic groups It moves beyond the traditional canon to cover work by forgotten figures including women scholars in the field and those outside of the United States and Europe and it situates them all within the broader geopolitical institutional and intellectual landscapes that have shaped communication study globally Intended for scholars and graduate students in communication media studies and journalism this volume pushes the history of communication study in new directions by taking an aggressively international and comparative perspective on the historiography of the field Methodologically and conceptually the volume breaks new ground in bringing comparative transnational and global frames to bear and puts under the spotlight what has heretofore only lingered in the penumbra of the history of communication study

In 1961 the Centre for the Study of the History of Education at Ghent University Belgium published the first issue of the multilingual journal *Paedagogica Historica* International Journal of the History of Education This book celebrates its fiftieth volume In fourteen contributions written by different generations of historians of education it demonstrates that in an era where the history of education at university level is at risk both the journal and the discipline are pulsing and alive and kicking Was the journal a trendsetter or a follower and which position did it take with respect to the International Standing Conference for the History of Education These are questions addressed in the first section of this book In the second section a number of articles show national and transnational developments of the history of education In their diversity they make clear how the national and the transnational together characterize the discipline They show why journals in this domain should stimulate the development of broader concepts and theories in order to put national and regional cases in a broader scientific context and to make them attractive for international readership In the last section authors turn their minds to the future of the history of education They write about the shaping of new trends and about moving beyond borders focusing on among other things the challenge of neurosciences and of digital humanities This book was originally published as a special issue of *Paedagogica Historica*

History of the Conquest of Mexico William H. Prescott,2001-12-04 It is a magnificent epic said William H Prescott after the publication of History of the Conquest of Mexico in 1843 Since then his sweeping account of Cort s s subjugation of the Aztec people has endured as a landmark work of scholarship and dramatic storytelling This pioneering study presents a compelling view of the clash of civilizations that reverberates in Latin America to this day Regarded simply from the standpoint of literary criticism the Conquest of Mexico is Prescott s masterpiece judged his biographer Harry Thurston Peck More than that it is one of the most brilliant examples which the English language possesses of literary art applied to historical narration Here as nowhere else has Prescott succeeded in delineating character All the chief actors of his great historic drama not only live and breathe but they are as distinctly differentiated as they must have been in life Cort s and his lieutenants are persons whom we actually come to know in the pages of Pres cott Over against these brilliant figures stands the melancholy form of Montezuma around whom even from the first one feels gathering the darkness of his coming fate He reminds one of some hero of Greek tragedy doomed to destruction and intensely conscious of it yet striving in vain against the decree of an inexorable destiny Prescott transmuted
