Understanding Inequality in China Xiaogang Wu,Jia Miao,2024-11-11 This edited volume provides an overview of inequality and stratification in contemporary China A rare and timely resource it presents key research on the topic published in Chinese Sociological Review from 2011 to 2023 using one or multiple waves of Chinese General Social Survey CGSS data reflecting the advancement of the field over the past decade The CGSS launched in 2003 and modelled after the US General Social Survey is an annual or biennial cross sectional survey of a nationally representative sample of the population from all provinces except for Tibet Certain waves of CGSS data e g 2003 and 2008 contain detailed retrospective information about education and job history which can be analysed to address various issues related to educational stratification and career mobility in both the pre reform and reform eras At the junction of the 20th anniversary of the CGSS 2003 2023 this volume draws on CGSS data to uncover dynamic and evolving inequality in China by examining topics such as education stratification income inequality career and intergeneration mobility and how they are shaped by the socialist post socialist institutional structure such as the household registration hukou system the work unit danwei system This collection significantly advances the understanding of Chinese social stratification extending far beyond scholars initial interests in the social consequences of the market transition This volume invites social scientists to think more deeply about how politics and economics interplay with other social and demographic trends in shaping the pattern of inequality and provides a rich source and foundation for understanding inequality dynamics in contemporary China

Equality by Design Szonja Szelényi,1999-01-01 Social mobility is a classic topic in sociology and Hungary presents an interesting case study for a number of reasons The communist regime that took power after World War II had the proclaimed goal of eliminating the

abusive inequalities of the old regime and creating an egalitarian society it accordingly introduced numerous measures intended to favor the advancement of people with working class backgrounds That to some extent these policies worked cannot be disputed but over time did they simply replace one privileged class with another What happened during the communist reform era of the late 1970 s and 1980 s when Hungary went much further along the path of decentralizing the economy than any other Eastern bloc country What happened in the postcommunist era And what difference did such age old liabilities as being Jewish or female make There is as much scholarly debate over how to address these questions in an intellectually rigorous way as there is over the answers to them This study aims to contribute to the debate by analyzing random samples of both elites and the general population and by carrying out comparisons across presocialist socialist and postsocialist society Its main methodological goal is to explore the implications of carefully distinguishing between the effects of socialist reform on the distribution of inequality from its effects on the underlying rules by which inequality is allocated
