Outdoor Recreation Resources Review Commission,1962 **ORRRC Study Report. 1-27** ,1962 An All-Consuming Century Gary Cross,2000-09-14 The unqualified victory of consumerism in America was not a foregone conclusion The United States has traditionally been the home of the most aggressive and often thoughtful criticism of consumption including Puritanism Prohibition the simplicity movement the 60s hippies and the consumer rights movement But at the dawn of the twenty first century not only has American consumerism triumphed there isn t even an ism left to challenge it An All Consuming Century is a rich history of how market goods came to dominate American life over that remarkable hundred years between 1900 and 2000 and why for the first time in history there are no practical limits to consumerism By 1930 a distinct consumer society had emerged in the United States in which the taste speed control and comfort of goods offered new meanings of freedom thus laying the groundwork for a full scale ideology of consumer s democracy after World War II From the introduction of Henry Ford s Model T so low in price that no man making a good salary will be unable to own one and the innovations in selling that arrived with the department store window displays self service the installment plan to the development of new arenas for spending amusement parks penny arcades baseball parks and dance halls Americans embraced the new culture of commercialism with reservations However Gary Cross shows that even the Depression the counterculture of the 1960s and the inflation of the 1970s made Americans more materialistic opening new channels of desire and offering opportunities for more innovative and aggressive marketing The conservative upsurge of the 1980s and 90s indulged in its own brand of self aggrandizement by promoting unrestricted markets The consumerism of today thriving and largely unchecked no longer brings families and communities together instead it increasingly divides and isolates Americans Consumer culture has provided affluent societies with peaceful alternatives to tribalism and class war Cross writes and it has fueled extraordinary economic growth The challenge for the future is to find ways to revive the still valid portion of the culture of constraint and control the overpowering success of the all consuming twentieth century **The Geography of Tourism and Recreation** C.
