The Crystal City Bjorn Ortenheim, 2002-05-22. Back in the late 1930s it was a common practice for the Government of England to call up young men into the Armed Services. After the war with Germany ended in 1945, this practice continued so that England would have ready-trained Armed Forces in case war with any other country should be declared. North Korea was a good example. I decided to beat the call up and instead volunteer so that I could be in the service that I desired. For the average service person, the Royal Air Force was a force that did not put the person in an area where gunfire ruled. I did not want to be involved in the exchange of gunfire with anyone. Electronics was my liking, and although many over-the-air two-way discussions did take place, it was always in firm, sensible, good language. That was the way that I was brought up, and that was the way that I stayed. The book is about my life and the way that I reacted when mixed with other youth from around England. I have long had the belief that I was chosen and helped to become what I am. The book is about my experiences and how my helper kept me on track, even when serving in a foreign country.

From the moment Hugh sets eyes on Lady Audris, he knows he has found the woman destined to be his wife. She is courageous and beautiful, delicate yet strong. Praise for *Tapestry of Dreams*: An enjoyably rich story crammed full of plot. This epic is perfect for readers who like an extra dose of history in their romance. Publisher's Weekly. Gellis paints a wonderful picture of the time and place she is writing about, both the beauty and the brutality. Night Owl Reviews. *A Tapestry of Dreams* is one to savor. Historical Novels Review.
