Roundtrip To Deadsville:

Round-trip to Deadsville Tim Matson, 2000 Along the way he meets an unforgettable cabal of characters who populate the funeral underground among them the Undertaker and the Crusader the Anatomist and the Astrologer the Organist and the Grave digger and learns why the living always get the last word and why when sprinkling ashes it's best to use a wide mouthed urn Jacket Cursed in New England Joseph A. Citro, 2018-08-01 New Englanders are always cursing But a colorful profanity uttered by some stereo typically taciturn old Yankee is usually more humorous than menacing Yet true maledictions the opposite of benedictions have frequently been spoken on New England soil curses intended to invoke evil injury or total destruction against other people Stories about preternatural revenge are numerous in Yankee lore with each New England state providing its favorites You'll read about curses that were followed by the strange disappearance of a father and daughter in Rhode Island mysterious afflictions in Massachusetts a river of death in Maine an unaccountable blight in New Hampshire unexplained madness in Connecticut and other eerie happenings from New England's colorful history Some are well known at least regionally Others are nearly forgotten Within these pages storyteller Joseph A Citro vividly brings these tales to life letting us decide if these tales of woe were bad luck or something else Death, Dying, and Bereavement in a Changing World Alan Kemp, 2018-11-02 In this introductory text on thanatology Alan Kemp continues to take on the central question of mortality the centrality of death coupled with the denial of death in the human experience Drawing from the work of Ernest Becker *Death Dying and Bereavement in a Changing World* provides a multidisciplinary and multidimensional approach to the study of death putting extra emphasis on the how death takes place in a rapidly changing world This new second edition includes the most up to date research data and figures related to death and dying New research on the alternative death movement natural disaster related deaths and cannabis as a form of treatment for life threatening illnesses and updated research on physician assisted suicide as well as on grief as it relates to the DSM 5 have been added **Death, Dying and Bereavement in a Changing World** Alan R. Kemp, 2015-10-16 This title takes a comprehensive approach exploring the physical social psychological and spiritual dimensions of death dying and bereavement Through personal stories from real people *Death Dying and Bereavement* provides readers with a context for understanding their changing encounters with such difficult concepts *After We Die* Norman L. Cantor, 2010-11-11 What will become of our earthly remains What happens to our bodies during and after the various forms of cadaver disposal available Who controls the fate of human remains What legal and moral constraints apply Legal scholar Norman Cantor provides a graphic informative and entertaining exploration of these questions *After We Die* chronicles not only a corpse's physical state but also its legal and moral status including what rights if any the corpse possesses In a claim sure to be controversial Cantor argues that a corpse maintains a quasi human status granting it certain protected rights both legal and moral One of a corpse's purported rights is to have its predecessor's disposal choices upheld *After We Die* reviews

unconventional ways in which a person can extend a personal legacy via their corpse's role in medical education scientific research or tissue transplantation This underlines the importance of leaving instructions directing post mortem disposal Another cadaveric right is to be treated with respect and dignity After We Die outlines the limits that post mortem human dignity poses upon disposal options particularly the use of a cadaver or its parts in educational or artistic displays Contemporary illustrations of these complex issues abound In 2007 the well publicized death of Anna Nicole Smith highlighted the passions and disputes surrounding the handling of human remains Similarly following the 2003 death of baseball great Ted Williams the family in fighting and legal proceedings surrounding the corpse's proposed cryogenic disposal also raised contentious questions about the physical legal and ethical issues that emerge after we die In the tradition of Sherwin Nuland's How We Die Cantor carefully and sensitively addresses the post mortem handling of human remains

Preserved Dean G. Lampros, 2024-03-26 A spirited look at how funeral homes impacted American consumerism the built environment and national identities Funeral homes those grand aging mansions repurposed into spaces for embalming merchandising funeral services and housing for the funeral director and their family are immediately recognizable features of the American landscape and yet the history of how these spaces emerged remains largely untold In *Preserved* Dean Lampros uses the history of this uniquely American architectural icon to explore the twentieth century's expanding consumer landscape and reveal how buildings can help construct identities Across the United States Lampros traces the funeral industry's early twentieth century exodus from gloomy downtown undertaking parlors to outmoded Victorian houses in residential districts As savvy retailers and accidental preservationists funeral directors refashioned the interiors into sumptuous retail settings that stimulated consumer demand for luxury burial goods These spaces allowed for more privacy and more parking and they helped turn Americans away from traditional home funerals toward funeral homes instead Moreover by moving into neighborhoods that were once the domain of white elites African American funeral directors uplifted their industry and altered the landscape of white supremacy The funeral home has tracked major changes in American culture including an increased reliance on the automobile and the rise of consumer culture *Preserved* offers an in depth cultural history of a space that is both instantly familiar and largely misunderstood **The Chelsea Green Reader**

Ben Watson, 2014-12-02 Chelsea Green the Vermont based independent publisher has always had a nose for authors and subjects that are way ahead of the cultural curve as is evident in this new anthology celebrating the company's first thirty years in publishing The more than one hundred books represented in this collection reflect the many distinct areas in which we have published from literature and memoirs to progressive politics to highly practical books on green building organic gardening and farming food and health and related subjects all of which reflect our underlying philosophy The politics and practice of sustainable living The Chelsea Green Reader offers a glimpse into our wide ranging list of books and authors and to the important ideas that they express Interesting and worth reading in their own right the individual passages when taken

as a whole trace the evolution of a highly successful small publisher something that is almost an oxymoron in these days of corporate buyouts and multinational book groups From the beginning Chelsea Green s books were nationally recognized garnering positive reviews accolades and awards We ve published four New York Times bestsellers and our books have set the standard for in depth how to books that remain relevant years often decades beyond their original publication date Chelsea Green was born from a single seed the beauty of craft Craft in writing and editing in a story well told or a thesis superbly expressed writes cofounder and publisher emeritus Ian Baldwin in the book s foreword Today craft continues to inform all aspects of our work design illustration production sales promotion and beyond It has even informed our business model In 2012 Chelsea Green became an employee owned company With the rise of the Internet new media platforms and a constantly shifting bookselling landscape the future of publishing is anything but predictable But if Chelsea Green s books prove anything it is that despite these challenges there remains a hunger for new and important ideas and authors and for the permanence and craftsmanship of the printed word Today our ongoing mission is stronger than ever as we launch into our next thirty years of publishing excellence New Age ,2001 **The New Independent Home** Michael Potts,1999 Tells the stories of various people who have built their houses in an attempt to get off the grid and make the living spaces as efficient as possible The author combines the stories of the people and their houses with the principles that make their houses efficient using methods of solar water American Book Publishing Record ,2001
