Kallis, 2014-09-25 Fascism exerted a crucial ideological and political influence across Europe and beyond Its appeal reached much further than the expanding transnational circle of fascists crossing into the territory of the mainstream authoritarian and traditional right Meanwhile fascism's seemingly inexorable rise unfolded against the backdrop of a dramatic shift towards dictatorship in large parts of Europe during the 1920s and especially 1930s These dictatorships shared a growing conviction that fascism was the driving force of a new post liberal fiercely nationalist and anti communist order The ten contributions to this volume seek to capture theoretically and empirically the complex transnational dynamic between interwar dictatorships This dynamic involving diffusion of ideas and practices cross fertilisation and reflexive adaptation muddled the boundaries between fascist and authoritarian constituencies of the interwar European right *The SAGE Handbook of Political Sociology*, 2v William Outhwaite, Stephen Turner, 2017-10-30

The SAGE Handbook of Political Sociology offers a comprehensive and contemporary look at this evolving field of study. The focus is on political life itself and the chapters written by a highly respected and international team of authors cover the core themes which need to be understood in order to study political life from a sociological perspective or simply to understand the political world. The two volumes are structured around five key areas: PART 1 TRADITIONS AND PERSPECTIVES, PART 2 CORE CONCEPTS, PART 03 POLITICAL IDEOLOGIES AND MOVEMENTS, PART 04 TOPICS, PART 05 WORLD REGIONS. This future oriented and cross disciplinary handbook is a landmark text for students and scholars interested in the social investigation of politics.

The Life and Work of Ernesto De Martino Flavio A. Geissshuesler, 2021-08-09. In *The Life and Work of Ernesto de Martino: Italian Perspectives on Apocalypse and Rebirth in the Modern Study of Religion* Flavio A. Geissshuesler offers a comprehensive study of one of Italy's most colorful historians of religions. The book inserts de Martino's dramatic life trajectory within the intellectual climate and the socio-political context of his age in order to offer a fresh perspective on the evolution of the discipline of religious studies during the 20th century. Demonstrating that scholarship on religion was animated by moments of fear of the apocalypse, it brings de Martino's perspective into conversation with Mircea Eliade, Claude Lévi-Strauss, and Clifford Geertz in order to recover an Italian approach that promises to redeem religious studies as a relevant and revitalizing field of research in the contemporary climate of crisis.

Entangled Histories of the Balkans - Volume Two Roumen Daskalov, Diana Mishkova, 2013-11-14. Modern Balkan history has traditionally been studied by national historians in terms of separate national histories taking place within bounded state territories. The authors in this volume take a different approach. They all seek to treat the modern history of the region from a transnational and relational perspective in terms of shared and connected as well as entangled histories, transfers and crossings. This goes along with an interest in the way ideas, institutions, and techniques were selected, transferred, and adapted to Balkan conditions and how they interacted with those conditions, resulting in migrations and hybridization. The volume also invites reflection on the interacting entities in the very process of their creation and consecutive transformations rather than taking them as givens. Contributors include Diana Mishkova, Alexander Vezhenkov, Constantin Iordachi, Roumen Daskalov, Tchavdar Marinov, Blagovest Njagulov.

New Perspectives on the Transnational Right M. Durham, 2016-06-08. The links the conservative Right has sought to forge beyond the national over the last century have been too often neglected and this volume sheds new light on transnationalism, the Right, and the ways the two interact.

Fighting the Last War Jeffrey M. Bale, Tamir Bar-On, 2024-01-24. The authors argue that the potential threat of a resurgence of fascism has been consistently exaggerated from 1945 until present day, that the ongoing lack of conceptual and definitional clarity with respect to terms like fascism, the radical right, the alt right, white supremacism, populism, racism, etc. has enabled ill-informed or dishonest commentators to distort their meaning and abusively misapply those labels so as to delegitimize their political opponents, and that the political and economic elites in charge of contemporary Western societies are now deliberately exaggerating and exploiting the threat.

posed by the domestic radical right in order to facilitate vilifying harassing de platforming censoring canceling and repressing disgruntled citizens no matter where they may lie along the political spectrum who openly criticize and vigorously oppose their agendas The authors also advocate the use of well established scholarly methods for carrying out research on the right and provide precise definitions of various terms in order to facilitate the development of more accurate categorizations
