Roving Commissions 31, 1991 *Government by Commissions Illegal and Pernicious* Joshua Toulmin Smith, 1849

Churchill Winston Churchill, 2012-06-05 Gilbert a renowned historian and official biographer of Churchill selects 100 of the finest writings and speeches by Churchill These express the leader s thoughts and describe the main adventures and crises of his life coupled with Gilbert s commentary **Notice of Appeal Supreme Court** , **Churchill: The Power of Words**

Winston Churchill, 2012-06-05 A collection of the best and most quoted speeches and writings of Nobel Prize winner Winston Churchill Winston Churchill knew the power of words In speeches books and articles he expressed his feelings and laid out his vision for the future His wartime writings and speeches have fascinated generation after generation with their powerful narrative style and thoughtful reflection Martin Gilbert Churchill s official biographer has chosen passages that express the essence of Churchill s thoughts and describe in his own inimitable words the main adventures of his life and the main crises of his career From first to last they give insight into his life how it evolved and how he made his mark on the British and world stage **The Illusion of Net Neutrality** Bob Zelnick, Eva Zelnick, 2013-09-01 In this riveting treatise coauthors Bob Zelnick and Eva Zelnick sound the alarm on the debilitating effect that looming regulations rules and powerful interests would have on today s regulation free Internet The authors lay out the imminent threats from network neutrality to FCC regulations that would rob this global society changing communication powerhouse forever of its full potential

Breaker Morant Peter FitzSimons, 2020-10-27 The epic story of the Boer War and Harry Breaker Morant drover horseman bush poet murderer or hero Most Australians have heard of the Boer War and of Harry Breaker Morant a figure who rivals Ned Kelly as an archetypal Australian folk hero But Morant was a complicated man Born in England and immigrating to Queensland in 1883 he established a reputation as a rider polo player and poet who submitted ballads to The Bulletin and counted Banjo Paterson as a friend Travelling on his wits and the goodwill of others Morant was quick to act when appeals were made for horsemen to serve in the war in South Africa He joined up first with the South Australian Mounted Rifles and then with a South African irregular unit the Bushveldt Carbineers The adventure would not go as Breaker planned In October 1901 Lieutenant Harry Morant and two other Australians Lieutenants Peter Handcock and George Witton were arrested for the murder of Boer prisoners Morant and Handcock were court martialled and executed in February 1902 as the Boer War was in its closing stages but the debate over their convictions continues to this day With his masterful command of story Peter FitzSimons takes us to the harsh landscape of southern Africa and into the bloody action of war against an unpredictable force using modern commando tactics The truths FitzSimons uncovers about the Breaker and the part he played in the Boer War are astonishing and finally we will know if the Breaker was a hero a cad a scapegoat or a criminal **A Harmony of Interests** Manfred Weidhorn, 1992 Manfred Weidhorn explores this emerging conservatism through consideration of different Churchillian interests such as domestic issues and the concept of imperial mission The

most complex aspect of Churchill's conservatism is his ambivalence to war. A closer reading of his utterances and of the observations of those about him suggests a definite and idiosyncratic love of war. Clear too says Weidhorn is that violence was a means not an end for Churchill. A man of peace, Churchill's extremity in posing issues sometimes made peace elusive. But in the crunch of 1940 his eccentricity or obsession became Western Civilization's salvation. During his years in the wilderness, Churchill wrote a huge biography of his ancestor the Duke of Marlborough. Besides presenting the Duke a brilliant general much maligned for avarice and warmongering in a favorable way, his work sheds an interesting light on the imminent World War II.

Victoria Crosses on the Western Front, 31st July 1917-6th November 1917 Paul Oldfield, 2017-07-30. In the past while visiting the First World War battlefields the author often wondered where the various Victoria Cross actions took place. He resolved to find out. In 1988 in the midst of his army career research for this book commenced and over the years numerous sources have been consulted. Victoria Crosses on the Western Front Third Ypres 1917 is designed for the battlefield visitor as much as the armchair reader. A thorough account of each VC action is set within the wider strategic and tactical context. Detailed sketch maps show the area today together with the battle lines and movements of the combatants. It will allow visitors to stand upon the spot or very close to where each VC was won. Photographs of the battle sites richly illustrate the accounts. There is also a comprehensive biography for each recipient covering every aspect of their lives: warts and all, parents and siblings, education, civilian employment, military career, wife and children, death and burial, commemoration. A host of other information, much of it published for the first time, reveals some fascinating characters with numerous links to many famous people and events.

Tolkien, Philosopher of War Graham McAleer, 2024-10-04. Book sales of the works of J. R. R. Tolkien keep pace with those of the Koran and the Bible. TV companies pay hundreds of millions to the Tolkien Trust to make adaptations of his work. In the UK he routinely tops the list of the nation's favorite authors. An estimated 2 million war gamers use The Lord of the Rings figurines in their RPG. It is incontestable that Tolkien is the most influential Catholic writer of the last century. Tolkien Philosopher of War fills a gap in the scholarship. It is the first book addressing the philosophical and theological understanding of war in Tolkien and will interest readers of Catholic Studies, the philosophy and theology of literature, war studies, Tolkien Studies, English studies, political theory and aesthetics. In popular imagination Tolkien is a Luddite, but recent scholarship has identified Tolkien's extensive modern sympathies. Tolkien Philosopher of War contributes to this growing literature. His is a modern critique of Enlightenment thinking, specifically those philosophies of history that wrest the initiative from God in divinizing man. His worry is apocalyptic politics, those political movements that take Christ's Be ye therefore perfect, even as your Father which is in heaven is perfect (Matt 5:48) out of the realm of grace and make it a platform for political action. Tolkien Philosopher of War has three core theses: metaphysical, political, and aesthetic. In this Tolkien is

comparable to Cormac McCarthy especially his *Blood Meridian* Tolkien took note of a tight analytical connection between the vanity driving commercial civilization which Hume Smith and Ferguson all identified and the vanity driving the Promethean fantasies of apocalyptic politics War indeed total war is a predictable outcome of this analytical connection The three theses run 1 metaphysical the apocalyptic anxiety of Tolkien's lore is traceable to the gnostic rejection of the analogy of being typical of the philosophies of history that dominated his day 2 political in the English context Tolkien sided with the Tories against Whiggery defending monarchy as a counterweight to the vanity driving progressive philosophy of history 3 aesthetic Futurism's philosophy of history celebrated the Machine inverting the value order the Futurism art movement encoded anti Christianity fascist politics and apocalyptic war Tolkien's cosmogonical drama with its pastoralism and portraits of angels Gandalf and gods Nienna dramatizes an aesthetic resistance to Futurism *Equity and Administration* P. G.

Turner, 2016-05-26 Each generation of lawyers in common law systems faces an important question what is the nature of equity as developed in English law and inherited by other common law jurisdictions While some traditional explanations of equity remain useful including the understanding of equity as a system that qualifies the legal rights people ordinarily have under judge made law and under legislation other common explanations are unhelpful or misleading This volume considers a distinct and little noticed view of equity By examining the ways in which courts of equity have addressed a range of practical problems regarding the administration of deliberately created schemes for the management of others affairs modern equity can be seen to have a strongly facilitative character The extent and limits on this characterisation of equity are explored in chapters covering equity's attitude to administration in various public and private settings in common law systems *Chain of Fire* Peter Hart, 2025-10-07 The dramatic story of the siege of Khartoum and Britain's extraordinarily violent 1882

campaign in Egypt and Sudan In the 1880s British control over northeastern Africa was a political minefield that Prime Minister William Gladstone wished to avoid until his emissary Charles Gordon was besieged in Khartoum and the city became the focal point for war It was the height of European colonialism Injustices were administered bloody battles fought and civilians were often caught in the crossfire Among the famed British officers involved were figures who would later adopt starring roles in World War I such as Egyptian Army officer Captain Herbert Kitchener By turns shocking and dynamic *Chain of Fire* examines the terrible desert wars using the testimonies of the men who fought there **The Counter-Reformation**

in Central Europe Regina Pörtner, 2001-09-06 This is a detailed and scholarly account of religious belief and conflict in the strategically important province of Inner Austria between 1580 and 1630 Regina Pörtner shows how Protestantization in the first half of the sixteenth century was linked to communication with the Protestants of the rest of the Empire and to the failure of ecclesiastical reform in the church province of Salzburg of which Styria formed part The Protestant success of 1578 however proved deceptive because it lacked constitutional substance and was defended by an inherently weak union of the Inner Austrian estates Dr Pörtner analyses the aims achievements and shortcomings of the Habsburgs' confessional crusade in

Styria showing how although the progress of Protestantization was reversed the Counter Reformation left an ambivalent legacy to the modern Austrian state
