The first book length study to examine the materials and techniques used in the fabrication and painting of the American pop artist Roy Lichtenstein's outdoor sculpture. Vibrant color was essential to the paintings of the American pop artist Roy Lichtenstein 1923 1997 and when he began exploring the creation of outdoor sculpture in the late 1970s vivid hues remained an important part of his artistic vocabulary. Today preserving these remarkable works after they have endured decades in outdoor environments around the world is an issue of pressing concern. This abundantly illustrated volume is based on extensive archival research of Lichtenstein's studio materials, interviews with his assistants and a thorough technical analysis of the sculpture. Three Brushstrokes. The book concludes with a chapter showing various options for the care, conservation and restoration of his sculptural works, making this an essential resource for conservators, curators and others interested both in the iconic artist and modern sculpture in general.

The Fran and Ray Stark Collection of 20th-century Sculpture at the J. Paul Getty Museum Christopher Bedford, Penelope Curtis, John Dixon Hunt, 2008. This catalogue celebrates the recently installed collection of twentieth century sculpture donated to the J Paul Getty Trust by the Fran and Ray Stark Trust in 2005. The book takes the reader on a visual tour of the J Paul Getty Museum's new sculpture gardens and installations which features twenty eight works by artists such as Alexander Calder, Alberto Giacometti, Ferdinand Leger, Roy Lichtenstein, Ren Magritte, Aristide Maillol, Joan Miró, Henry Moore and Isamu Noguchi. The book offers essays on the curatorial decisions involved in establishing harmonious groupings, a history of European and American sculpture within built outdoor environments and gardens, and catalogue entries that discuss individual pieces within their broader art historical contexts.

Art Books Wolfgang M. Freitag, 2013-10-28. First published in 1997. For this second edition of *Art Books: A Basic Bibliography of Monographs on Artists*, the vast number of new books published since 1985 was surveyed and evaluated. This has resulted in the selection of 3,395 additional titles. These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also of a lively international art market and the attendant gallery activities. The selections of the first edition have been reviewed, errors have been corrected and important new editions and reprints have been noted. The second edition contains 278 names of artists not represented in the first edition.
