Royal Australian Air Force:

Aircraft of The Royal Australian Air Force Air Force History Branch, 2021-06-01 *Aircraft of The Royal Australian Air Force* tells the story of the RAAF's first one hundred years by describing the acquisition operation and service record of the multitude of aircraft types flown by the RAAF. The 176 aircraft types include the flimsy wood and canvas aircraft typical of World War I through the technological advances during and after World War II to modern fifth generation complex aircraft like the F 35 Lightning II. Even before its formation Sir Richard Williams the Father of the RAAF had decided to employ an alpha numeric numbering system to identify and account for each aircraft in service. This system started with A1 A2 A3 etc as each type of aircraft came into service. Each individual aircraft within each series was identified as A1 1 A1 2 and so on and the aircraft serial became known colloquially as the A number. With some exceptions over the century since the A number system started aircraft entered RAAF service in broadly the sequence of the A numbers and so this book is intended to assist in charting the 100 year history of the RAAF by listing aircraft operated in A number sequence rather than by listing them by role such as Fighter Bomber Maritime Trainer Transport etc or alphabetically by name or by manufacturer. The inclusion of a comprehensive Index and the Quick Reference Guide to aircraft by role is intended to facilitate the location of the entry for any specific type of aircraft for those who may not already know its A number. *Aircraft of The Royal Australian Air Force* is a must have for all those who have served in the RAAF those with a passion for military aviation and aircraft in general and the broader members of the public wishing to gain an appreciation of the Royal Australian Air Force in its centenary year.

Units of the Royal Australian Air Force: Introduction, bases, supporting organisations Australia. Royal Australian Air Force. Historical Section, 1995 First in a series of ten volumes produced for the 75th anniversary of the RAAF. Provides information about the current operational bases of the RAAF and the WWII operational base units which played an important role in keeping Allied aircraft operating from remote localities. Describes previously unrecognised organisations such as the Volunteer Air Observer Corps and RAAF maritime sections wireless units and signals units. *Victory Roll* Australia. Royal Australian Air Force, 1945 [Taking the Lead](#) Mark Lax, 2020-03-01 As Australia withdrew from Vietnam in 1972 few in the Australian Defence Force none the least those in the Royal Australian Air Force could foresee the immense change that would sweep across the Service. New and emerging international relationships changing Australian social attitudes and a growing sense of defence self reliance would all impact how the RAAF contributed to the application of air power in the defence of the nation and in supporting Australia's wider national interests. For the first time *Taking the Lead* brings to the reader a comprehensive and authoritative study of how the RAAF matured over its third quarter century how it met the challenges faced and how it finally came of age able to take the lead when asked. By 1996 plans were in place such that the RAAF was well on the way to becoming the world's first fifth generation air force by making a remarkable transition. This volume also dispels the myth that the RAAF did little in the latter part of the twentieth century but train. In fact the

RAAF was at the forefront of operations as wide afield as the Sub Continent the Middle East Africa and South East Asia Then there was aid to the civil community as well as aid to those nations seeking help in wider Asia Pacific region Clever force restructuring for expeditionary operations amid the stress of downsizing by almost a third meant that future operations in the twenty first century were to be a success Taking the Lead is not just about aircraft bases and flying It considers the strategic environment of the era the factors that affected personnel and training how the RAAF s force structure advanced and how the RAAF managed its successes and failures For those seeking to learn more about their air force then this book is essential reading Taking the Lead covers this vital part of the RAAF s unfolding narrative and perfectly illustrates how the RAAF remained true to its motto Per Ardua ad Astra Through Adversity to the Stars Battle over the Atlantic John

Quaife,2022-03-30 At the outbreak of World War II somewhat by accident and just as the first shots of the war were fired young Australian airmen from the Royal Australian Air Force were engaged in operations that would become known collectively as the Battle of the Atlantic Arguably lesser known than air campaigns in other theatres large numbers of Australians who volunteered for service with Royal Australian Air Force found themselves fighting in this battle Australians were there at the outbreak and many would go on to fly some of the final missions of the war in Europe This book captures some of the experiences of the Royal Australian Air Force members who served with Coastal Command and through the weight of numbers alone stories of the Sunderland squadrons and the Battle of the Atlantic dominate the narrative Being critical to Britain s survival the battle also dominated Coastal Command throughout the war but Australians served in a surprising variety of other roles The nature of many of those tasks demanded persistence that could only be achieved by large numbers of young men and women being prepared to do what it took to get a tedious and unrewarding job done Over 400 did not come home *Units of the Royal Australian Air Force* Despina Tramoundanis,2022-04-13

Units of The Royal Australian Air Force recounts the narrative history of currently active RAAF Squadrons Units and Wings and includes a description of the evolution of the RAAF s higher headquarters and Groups The narratives of all Units commence with their first formation often with different names and performing different functions to today and continue through the years to the present The histories of the RAAF s oldest Units commence with their formation as part of the Australian Flying Corps The narratives are richly laden with the significant achievements contributions and sacrifices of individual RAAF members The extensive index is replete with their names and with the designations of Units past and present The index also includes the names of numerous combat and humanitarian assistance operations and operational exercises in which the RAAF has played a role Units of The Royal Australian Air Force is illustrated with images depicting the diversity of Air Force people and roles in the RAAF s Centenary year It is a must have for all those who have served and serve in the RAAF those with a passion for Australian military history and the broader members of the public wishing to gain an appreciation of the Royal Australian Air Force in its Centenary year **The Royal Australian Air Force** George Odgers,1965 **Units of the Royal Australian**
