Vicissitudes It is now and has been for very many years accepted both by the public and the majority of art workers as the
governing influence in the British art world and neither criticism nor opposition of which it has had its fair share at all stages
of its development can be said to have perceptibly affected its progress A number of causes have combined to give it the
remarkable position which it now holds It has been from the very beginning under the direct patronage of the Crown and has
acquired in consequence a social standing of a very definite kind It has maintained a free school for students of art under the
direction of the leading artists of this country and so has played a part of no little significance in artistic education It has by
its annual exhibitions provided the many people who are interested in or curious about art matters with a periodical
entertainment In many other ways by taking an active part in schemes intended to promote the credit of British art at home
and abroad by giving frequent and generous contributions of money for the assistance of artists in distress by the
administration of funds entrusted to it for various professional purposes and by constant intervention in the politics of the art
world it has year by year strengthened its claim to consideration until at last it cannot be said to have a rival or even a
