The Syndic Washington Davis,1902 Enlightened Nationalism Matthew Bernard Levinger,2002 This major reinterpretation of Prussian history from the Napoleonic era to the Revolution of 1848 shows how reforms inspired by the Enlightenment ultimately consolidated an authoritarian political culture The book casts new light on the origins of German nationalism demonstrating that the competing discourses of civil servants aristocrats and bourgeois political activists produced a new vision of a harmonious nation under monarchical rule **Lord of the Changing Winds** Rachel Neumeier,2010-05-01 Griffins lounged all around them inscrutable as cats brazen as summer They turned their heads to look at Kes out of fierce inhuman eyes Their feathers ruffled by the wind that came down the mountain looked like they had been poured out of light their lion haunches like they had been fashioned out of gold A white griffin close at hand looked like it had been made of alabaster and white marble and then lit from within by white fire Its eyes were the pitiless blue white of the desert sky Little ever happens in the quiet villages of peaceful Feierabiand The course of Kes life seems set she ll grow up to be an herb woman and healer for the village of Minas Ford never quite fitting in but always more or less accepted And she s content with that path or she thinks she is Until the day the griffins come down from the mountains bringing with them the fiery wind of their desert and a desperate need for a healer But what the griffins need is a healer who is not quite human or a healer who can be made into something not quite human Lies of the Land Camille Serchuk,2024-12-17 *Lies of the Land* examines the often overlooked artistic roots of mapmaking practice in early modern France offering an original perspective on discourses of accuracy and their relationship to the pictorial origins of modern mapmaking Until the seventeenth century most mapmakers in France were painters Schooled in techniques of drawing and perspective and in the careful study of nature that we associate with early modernity they also learned the more expressive and imaginative Mannerist forms that dominated French painting in this period Their maps draw on conventions of both painting and mapmaking to create beautiful informative and persuasive images for a wide variety of contexts and purposes In this book Camille Serchuk explores the strategies these cartographers deployed to weave together accuracy ornament and artifice in maps at all scales Looking beyond the techniques of measurement and perspective Serchuk shows how painterly interventions framed and manipulated the appearance and reception of cartographic objects *Lies of the Land* is an important new assessment of the character and status of early modern cartography that challenges binary distinctions between art and science and between decorative and epistemic images It will appeal especially to art historians and historians of sixteenth century France as well as scholars of map history *The Percy Anecdotes: Shipwreck. Travelling* ,1822 *The Feast of Saint Abraham* Robert E. Lerner,2001 *The Feast of Saint Abraham* is characterized by originality profound scholarship especially with regard to new manuscript sources and by clarity and felicity of style A fine book Bernard McGinn University of Chicago The Life of Marie de Medicis (Vol. 1-3) Miss Pardoe,2023-12-12 In *The Life of Marie de Medicis* Miss Pardoe presents a meticulously

researched and eloquently written biography that dissects the tumultuous life of the French queen. Spanning three volumes, this work navigates the intricate political landscape of 17th century Europe, examining not only Marie's role as a queen but also her profound influence on the cultural and political dynamics of France. Pardoe's literary style is characterized by rich descriptive prose that balances scholarly rigor with narrative flair, thereby making the historical account accessible and engaging to a broad audience. Set against the backdrop of the rising tensions between the monarchy and nascent republican sentiments, this biography provides critical insight into the workings of power and gender in a patriarchal society. Miss Pardoe, a prominent 19th century author known for her interest in historical subjects, draws upon her extensive knowledge of the period and her passion for the lives of prominent women, lending her narrative both authenticity and depth. Her own experiences traveling through Europe and her commitment to unveiling women's roles in history undoubtedly guided her focus on Marie de Medicis, a figure often overshadowed in historical discourse. Readers with an interest in biographical accounts that break conventional historical molds will find *The Life of Marie de Medicis* a compelling addition to their libraries. This work not only sheds light on a pivotal historical figure but also invites reflection on the broader implications of her reign, making it a recommended read for those wishing to enrich their understanding of women's influence in history.

Christopher Columbus: His Life and Discoveries Mario Di Giovanni, Discovering a new continent, he changed the map of the earth and the course of civilization. Few men in history have changed the world as Christopher Columbus did when he sailed into the perilous and vast Atlantic Ocean. While seeking the island of Cipango and the mainland of Cathay, Columbus discovered so much more, changing the course of American history. Through extraordinary persistence and courage, Columbus discovered a new world, a continent that would ultimately change the lives of many. Despite the renowned link to his name, Columbus remains an elusive and mysterious man. Dr. Mario di Giovanni, with passionate and clear words, reveals the story of Christopher Columbus. Following his Admiral on four voyages across the Ocean Sea, di Giovanni marks the events that he recounts, the exploits and legacy of the best sailor in the world. **Black Spring** Alison Croggon, 2013-08-27 Inspired by the gothic classic *Wuthering Heights*, this stunning new fantasy from the author of the Books of Pellinor is a fiercely romantic tale of betrayal and vengeance. In a savage land sustained by wizardry and ruled by vendetta, Lina is the enchanting but willful daughter of a village lord. She and her childhood companion Damek have grown up privileged and spoiled, and they're devoted to each other to the point of obsession. But Lina's violet eyes betray her for a witch, and witches are not tolerated in a brutally patriarchal society. Her rank protects her from persecution, but it cannot protect her from tragedy and heartbreak. An innocent visitor stands witness to the devastation that ensues as destructive longing unleashes Lina's wrath, and with it, her forbidden power. Whether drawn by the romantic, the magical, or the gothic, readers will be irresistibly compelled by the passion of this tragic tale. *Alexander the Great and Hernán Cortés* Justin D. Lyons, 2015-03-04 This is a biographical pairing of two of the greatest conquerors in human history, drawing its inspiration from Plutarch's *Parallel Lives*. Like

Plutarch the purpose of the pairing is not primarily historical While Plutarch covers the history of each of the lives he chronicles he also emphasizes questions of character and the larger lessons of politics to be derived from the deeds he recounts The book provides a narrative account both of Alexander s conquest of the Persian Empire and Cort s s conquest of the Aztec Empire while reflecting on the larger questions that emerge from each The campaign narratives are followed by essays devoted to leadership and command that seek to recover the treasures of the Plutarchian approach shaped by moral and political philosophy Analysis of leadership style and abilities is joined with assessment of character Special emphasis is given to the speeches provided in historical sources and meditation on rhetorical successes and failures in maintaining the morale and willing service of their men
