- A Retrospective William L. Weir, 2023-05-04 In 1958 an anonymous group of overworked and under budgeted BBC employees set out to make some new sounds for radio and TV They ended up changing the course of 20th century music For millions of people the work of the BBC Radiophonic Workshop was the first electronic music they had ever heard Sampling loops and the earliest synthesizers long before audiences knew what they were made up the groundbreaking scores for news programs auto maintenance shows and children s programming They also produced the Doctor Who theme one of the first electronic music masterpieces The Beatles Pink Floyd and others borrowed from them A generation of musicians raised on BBC programming Aphex Twin Portishead and Prodigy among them took these once alien sounds and carried on the Workshop s legacy Ignored for decades by music historians the Workshop is now recognized as one of the most influential forebears of electronica psychedelia ambient music and synth pop **The American Roman Noir** William

Marling, 1998-10-01 In *The American Roman Noir* William Marling reads classic hard boiled fiction and film in the contexts of narrative theories and American social and cultural history His search for the origins of the dark narratives that emerged during the 1920s and 1930s leads to a sweeping critique of Jazz Age and Depression era culture Integrating economic history biography consumer product design narrative analysis and film scholarship Marling makes new connections between events of the 1920s and 1930s and the modes styles and genres of their representation At the center of Marling s approach is the concept of prodigality how narrative represents having and having had too much Never before in the country he argues did wealth impinge on the national conscience as in the 1920s and never was such conscience so sharply rebuked as in the 1930s What asks Marling were the paradigms that explained accumulation and windfall waste and failure Marling first establishes a

theoretical and historical context for the notion of prodigality Among the topics he discusses are such watershed events as the trial of Sacco and Vanzetti and the premiere of the first sound movie The Jazz Singer technology's alteration of Americans' perceptive and figurative habits and the shift from synecdochical to metonymical values entailed by a consumer society Marling then considers six noir classics relating them to their authors' own lives and to the milieu of prodigality that produced them and which they sought to explain Dashiell Hammett's Red Harvest and The Maltese Falcon James M Cain's The Postman Always Rings Twice and Double Indemnity and Raymond Chandler's The Big Sleep and Farewell My Lovely Reading these narratives first as novels then as films Marling shows how they employed the prodigality fabula's variations and ancillary value systems to help Americans adapt for better or worse to a society driven by economic and technological forces beyond their control
