Rubens Ruse:

Ruben's Ruse Ben Coady, 2002 Published by arrangement with Robert Hale Limited London T p verso **The Catholic Rubens** Willibald Sauerlander, 2014-04-15 The art of Rubens is rooted in an era darkened by the long shadow of devastating wars between Protestants and Catholics In the wake of this profound schism the Catholic Church decided to cease using force to propagate the faith Like Gian Lorenzo Bernini Peter Paul Rubens 1577 1640 sought to persuade his spectators to return to the true faith through the beauty of his art While Rubens is praised for the baroque passion in his depictions of cruelty and sensuous abandon nowhere did he kindle such emotional fire as in his religious subjects Their color warmth and majesty but also their turmoil and lamentation were calculated to arouse devout and ethical emotions This fresh consideration of the images of saints and martyrs Rubens created for the churches of Flanders and the Holy Roman Empire offers a masterly demonstration of Rubens s achievements liberating their message from the secular misunderstandings of the postreligious age and showing them in their intended light **From Criminal to Courtier** David Kunzle, 2021-10-11 The art of the Netherlands Dutch and Flemish is unique in Early Modern Europe in its concern for military cruelty against civilians principally the peasantry Decimated by time and changes in taste this popular iconography proves varied and extensive stretching from Bruegel to and past Rubens Massacres of the Innocents continue to be a favourite subject through the Eighty Years War in contrast to ruling class glorifications of war Dutch patriotic siege prints lay claim to scientific precision in landscapes free of military terror while the idea of military conquest is presented as generous rather than cruel in the ever popular figure of Scipio Africanus Most of the pictorial material is unfamiliar some of it even to specialists and never before published new light is shed on the more familiar phenomena of the civic guard groups and Ter Borch courtier officers good soldiers overcoming a bad image **St. Jacob's Antwerp Art and Counter Reformation in Rubens's Parish Church** Jeffrey Muller, 2016-05-23 Of more than forty churches that fortified Antwerp as the bulwark of the Counter Reformation in the Netherlands only St Jacob s stands now with its art and archives intact Parish church of the city s elite it is filled with masterpieces including the altarpiece that Rubens painted for his own burial chapel Works of architecture painting sculpture and hundreds of sacred objects documented by the archives enable a reconstruction of the integral role that art played in the transformation of a whole society over the span of two centuries from 1585 to the 1790s It is a history of real people and organizations who used art for religion politics and social purpose joined together in a church that embodied a diverse community **The English flower garden** William Robinson, 1913 [California and the Politics of Disability, 1850-1970](#) Eileen V. Wallis, 2023-03-31 This book explores the political legal medical and social battles that led to the widespread institutionalization of Californians with disabilities from the gold rush to the 1970s By the early twentieth century most American states had specialized facilities dedicated to both the care and the control of individuals with disabilities Institutions reflect the lived historical experience of many Americans with disabilities in this era Yet we know

relatively little about how such state institutions fit into specific regional state or local contexts west of the Mississippi River how those contexts shaped how institutions evolved over time or how regional institutions fit into the USA's contentious history of care and control of Americans with mental and developmental disabilities This book examines how medical social and political arguments that individuals with disabilities needed to be institutionalized became enshrined in state law in California through the creation of a bureaucracy of disability Using Los Angeles County as a case study the book also considers how the friction between state and county policy in turn influenced the treatment of individuals within such facilities Furthermore the book tracks how the mission and methods of such institutions evolved over time culminating in the 1960s with the birth of the disability rights movement and the complete rewriting of California's laws on the treatment and rights of Californians with disabilities This book is a must read for those interested in the history of California and the American West and for anyone interested in how the intersections of disability politics and activism shaped our historical understanding of life for Americans with disabilities
