The Self and Society in Aging Processes Carol D. Ryff, PhD, Victor W. Marshall, PhD, 1999-06-23 This volume focuses on the experience of growing old as it is linked to societal factors Ryff and Marshall construct this macro view of aging in society by bridging disciplines and bringing together contributors from all the social sciences The book is organized into three sections theoretical perspectives socioeconomic structures and contexts of self and society Leading psychologists anthropologists gerontologists and sociologists present theoretical and empirical advances that forge links between the individual and the social aspects of aging It is must reading for researchers in all gerontologic specialties and a valuable text for graduate courses in human development psychology of aging and other social aspects of aging **Identity Process**

Theory Rusi Jaspal, Glynis M. Breakwell, 2014-04-17 We live in an ever changing social world which constantly demands adjustment to our identities and actions Advances in science technology and medicine political upheaval and economic development are just some examples of social change that can impact upon how we live our lives how we view ourselves and each other and how we communicate Three decades after its first appearance identity process theory remains a vibrant and useful integrative framework in which identity social action and social change can be collectively examined This book presents some of the key developments in this area In eighteen chapters by world renowned social psychologists the reader is introduced to the major social psychological debates about the construction and protection of identity in face of social change Contributors address a wide range of contemporary topics national identity risk prejudice intractable conflict and ageing which are examined from the perspective of identity process theory **Towards an Interdisciplinary Perspective**

on the Life Course René Levy, Paolo Ghisletta, Jean-Marie Le Goff, Dario Spini, Eric Widmer, 2005-11-17 Despite the well established consensus on the need for an interdisciplinary research paradigm to understand the unfolding of human lives within their social context existing empirical research rarely embraces this belief This volume aims at examining the feasibility and hurdles of interdisciplinarity specific to given research fields by bringing together leading North American and European researchers in sociology psychology social psychology and social demography all highly concerned with fostering an interdisciplinary perspective for the study of the human life course The contributions are organized along four major axes three of them substantive agency and structure transitions and biographical reconstructions and one methodological methodological innovations leaving ample leeway for the contributions to address the specific gains and difficulties of empirical interdisciplinary research within their particular domain The editors introduce the volume by discussing general features theoretical linkages and transversal substantive themes of interdisciplinarity in life course research Likewise the volume is ended by the editors conclusions based on the contributions they single out major challenges and difficulties for the interdisciplinary study of the life course together with some promising research meant to address such difficulties and improve current knowledge about the life course The volume speaks to both experienced scholars and graduate students of

the life course Advanced scholars will benefit from the latest in life course research domains and from a comprehensive overview of life course methodologies Graduate students of the life course will find in the book an original introduction to many empirical aspects of life course research and to the application of innovative methods to various research settings as well as rich bibliographical references from the research literature in English German and French

Willis, 2014-06-03 The goal of this volume is to examine development in middle age from the perspective of baby boomers a unique cohort in the United States defined as those individuals born from 1946 to 1962 This is the largest cohort ever to enter middle age in Western society and they currently represent approximately one third of the total U S population The Baby Boomers Grow Up provides contemporary and comprehensive perspectives of development of the baby boomer cohort as they proceed through midlife Baby boomers continue to exert a powerful impact on the media fiction movies and even popular music just as they were an imposing force in society from the time of their entry into youth As these individuals enter the years normally considered to represent midlife they are redefining how we as a society regard adults in their middle and later years This volume features several unique aspects First the literature reviewed focuses specifically on research relevant to baby boomers and their development as adults rather than a global perspective on middle age Second the volume takes into account the diversity within the boomer cohort such as social class race and education In addition quantitative and qualitative developmental changes occurring from the forties to the fifties and the sixties are considered Differences in leading and trailing edge boomers are likewise addressed Ideal for researchers in adult development and graduate seminars on adult development The Baby Boomers Grow Up will also appeal to adult educators human resource personnel health professionals and service providers and clinical psychologists and counselors **Home and Identity in Late Life** Graham D. Rowles, 2005-09-01 Leading scholars offering international and multidisciplinary viewpoints examine the meaning of home to elders and the ways in which this meaning may be sustained threatened or modified according to changes associated with growing old Organized into four sections The Essence of Home Disruptions of Home Creating and Recreating Home and Community Perspectives on the Meaning of Home this volume explores topics including What makes a house a home What role does the meaning of home play in the process of relocation to another place of residence What is the relationship between a person's home life and cherished possessions such as symbolic jewelry or religious items in late life How does the community neighborhood environment influence the way that older people feel about the places in which they live Contributors include Hans Werner Wahl Robert L Rubinstein Edmund Sherman Carolyn Norris Baker and Rick Scheidt among others As a special feature this volume concludes with critical commentaries from three eminent scholars Amos Rapoport Kim Dovey and Marie Versperi This volume will be of interest to practitioners researchers upper level graduates graduate level students in gerontology environmental psychology social work and nursing It will be valuable to everyone in the helping professions who seek a deeper understanding of the ways in which being at home and attachment to place plays a key role in the life experience and well being of their clients as they grow older The Need for Theory Simon Biggs, Jon

Hendricks,Ariela Lowenstein,2020-11-25 The Need for Theory speaks to the burgeoning need for critical thinking in social gerontology The editors have brought together some of the foremost contributors to theoretical advances in the field This volume incorporates state of the art theorizing with a focus on selected topical areas facing gerontologists around the world Using their keen insights into substantive issues the contributors examine personal and structural changes affecting individuals over the life course Extolling the need for theory is not enough the contributors focus their insights on a panoply of substantive issues linking the personal with the political and with the structural parameters that shape the process of aging no matter where it occurs

Authenticity in Culture, Self, and Society J. Patrick Williams,2016-12-05 Across sociology and cultural studies in particular the concept of authenticity has begun to occupy a central role yet in spite of its popularity as an ideal and philosophical value authenticity notably suffers from a certain vagueness with work in this area tending to borrow ideas from outside of sociology whilst failing to present empirical studies which centre on the concept itself Authenticity in Culture Self and Society addresses the problems surrounding this concept offering a sociological analysis of it for the first time in order to provide readers in the social and cultural sciences with a clear conceptualization of authenticity and with a survey of original empirical studies focused on its experience negotiation and social relevance at the levels of self culture and specific social settings
